# Welcome

What it is, who it suits, its grades and the ten things to know first

**2.4**

GPA, above 19 of the 45 other event ticketing platforms we grade

Eventcube is a ticketing platform where organizers get a branded ticket store, checkout, confirmation emails and a QR check-in app. The free Starter plan charges a percentage of each transaction; Pro lowers that rate for a monthly fee and adds a custom domain and branding removal. It also sells virtual event and membership products.

To get you started, here are **9 things to know about Eventcube**, taken from its own pages and our grades.

> **You build each event, set up tickets and payments and test the checkout yourself, so there is a learning curve.**
>
> From our grade for ease of use

**1** **Best for white-label ticketing with no monthly fee**

Stripe is the only gateway on Starter and Pro, and the custom domain, branding removal and Zapier all need Pro.

**2** **Paid plans start at $99 a month**

As its pricing page puts it: $99 per month, billed annually ($125 billed monthly).

### 3 There is a free plan

Starter: no monthly fee, with full access to the ticketing platform at 5% of the transaction total. Free events are never charged.

### 4 It runs on Web

### 5 Branded ticket store

A ready-made store with a ticket page, checkout and confirmation emails styled with your colors and fonts, on your own domain from Pro.

### 6 Booking fee control

You set the face value and a booking fee; by default the fee covers all costs, or you can remove it and absorb them.

### 7 Instant payout

Sales go to your Stripe account and are transferred instantly after each sale.

### 8 A 2.4 GPA, above 19 of 45

## Who Eventcube is for

- ✓ Fits if you want ticket sales under your own brand without a monthly fee
- ✓ Works for organizers who sell few tickets and prefer a percentage to a subscription

## Who it is not for

- ✗ Pricey if you sell a lot on Starter, as 5% plus Stripe's fee applies to every paid ticket
- ✗ Skip it if you don't use Stripe, as it is the only gateway outside Enterprise
- ✗ Tight if you want your own domain, branding removal or Zapier, as they need Pro at $125 a month
- ✗ Watch out: the default booking fee passes both fees to buyers, and UK prices exclude VAT
- ✗ Watch out: virtual events and memberships are separate products listed without prices

# Good to know

## Good for

- ✓ Music and club promoters who want to set their own booking fee
- ✓ Free events and nonprofits that need branded ticketing without monthly cost
- ✓ Teams that want a white-label store on their own domain

## Worth knowing

- ⓘ Eventcube's percentage fee plus Stripe processing fees apply; the default booking fee passes both on to buyers, and UK prices exclude VAT.
- ⓘ Starter and Pro support Stripe only; other payment gateways are an Enterprise item.
- ⓘ A custom domain, branding removal, custom confirmation emails and Zapier require Pro at $125 a month, or $99 billed annually.
- ⓘ Virtual events and memberships are separate products listed beside tickets; the pricing page lists them without prices.

## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

### Keep it

The plain part of Eventcube you could make: qR codes and forms. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

It costs $1,188 a year.

#### What you could make

- QR codes and forms: an app builder makes these well.

#### What you could not

- Selling tickets and checking them at the door.

- It plugs into other products, Stripe, Zapier and Zoom among them, and has an API.

**What this rests on.** Eventcube's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
