Higher plans add a branded mobile app, a virtual stage for hybrid events and attendee matchmaking.

To get you started, here are **8 things to know about Eventtia**, taken from its own pages and our grades.

Best for conferences and trade shows with a yearly licence

Eventtia sells event registration, payments, email and SMS and check-in on a yearly licence with no per-registration fee. The catch is the price: $1,650 a year for 250 attendees and one admin seat, with the mobile app and virtual stage on dearer plans, and nothing free to try first.

SUBJECT	GRADE	COMMENT
Value for money	C	Essential is $1,650 a year for 250 attendees, about $137 a month, which is where the dearer quarter of event ticketing tools starts. Premium is $2,500 and Networking $3,500.
Free plan and trial	F	No free plan and no trial are listed, and the page shows list prices that a call then confirms.
Features	B	Registration pages, payments, email, SMS and WhatsApp, check-in, reports, an API and an MCP server on every plan. Nothing in the listing is missing from the job; the mobile app, virtual stage and matchmaking sit on dearer plans.
Ease of use	C	No rating on record. You set up event pages, forms and workflows yourself, and the quote is confirmed on a call.
Platforms and integrations	C	Web only, with Salesforce, HubSpot, Dynamics 365, Zapier and n8n links and an API. No desktop or phone apps are listed for organisers.

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Eventtia is for

- ✓ Fits if you run big conferences or trade shows and prefer one yearly fee to per-ticket fees
- ✓ Works for teams that need a branded app and a virtual stage for hybrid events

Who it is not for

- ✗ Skip it if you want to try it free first, as there is no free plan or trial
- ✗ Pricey if you sell tickets to small events: $1,650 a year is the floor, for 250 attendees
- ✗ Tight if you have a big team, with 1 admin seat on Essential, 2 on Premium and 3 on Networking
- ✗ Watch out: the fee rises with total attendees across all events in 12 months, and the quote is confirmed on a call
- ✗ Not for you if you want a public marketplace listing of tickets, as it is built for managed events

Good to know

Good for

- ✓ Conference and trade-show organizers with many attendees
- ✓ Teams that want a yearly license instead of per-ticket fees

- ⓘ The pricing page shows list prices, and the team confirms the quote on a call.
- ⓘ Admin seats are limited: 1 on Essential, 2 on Premium and 3 on Networking.
- ⓘ It is built for managed events, not for a free consumer listing of public tickets.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

7 /79

Other event ticketing platforms it is graded above

Eventtia's GPA of 1.8 is higher than 7 of the 79 other event ticketing platforms we grade, and level with 15.

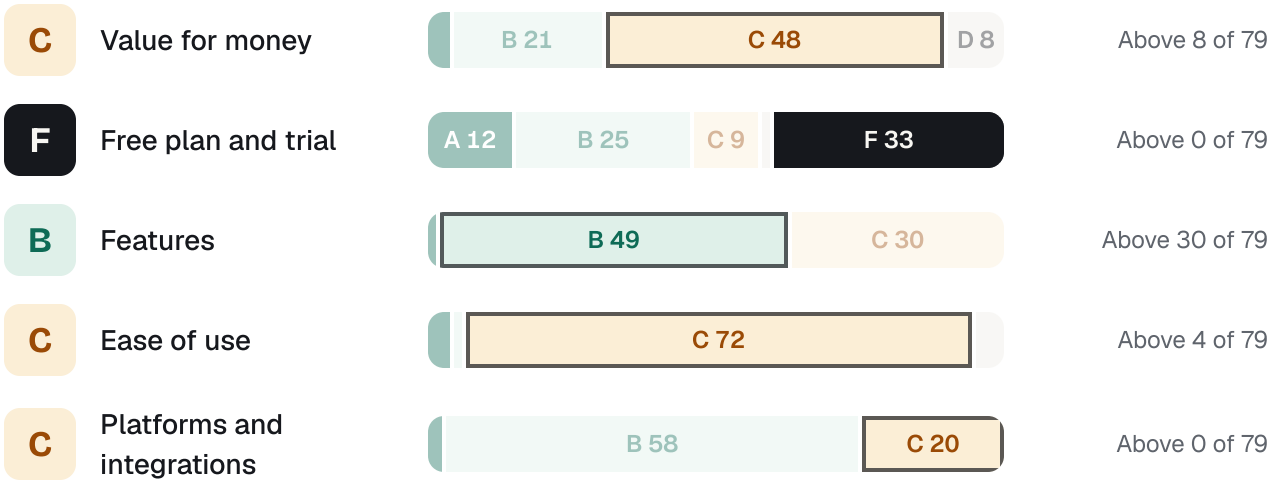

It stands best on features (B, above 30 of 79) and worst on free plan and trial (F, above 0).

Its paid plans start at $137.50 a month when paid by the year, against a middle price of $50 for the category: 17 of the 22 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 15 tools score higher and cost less.

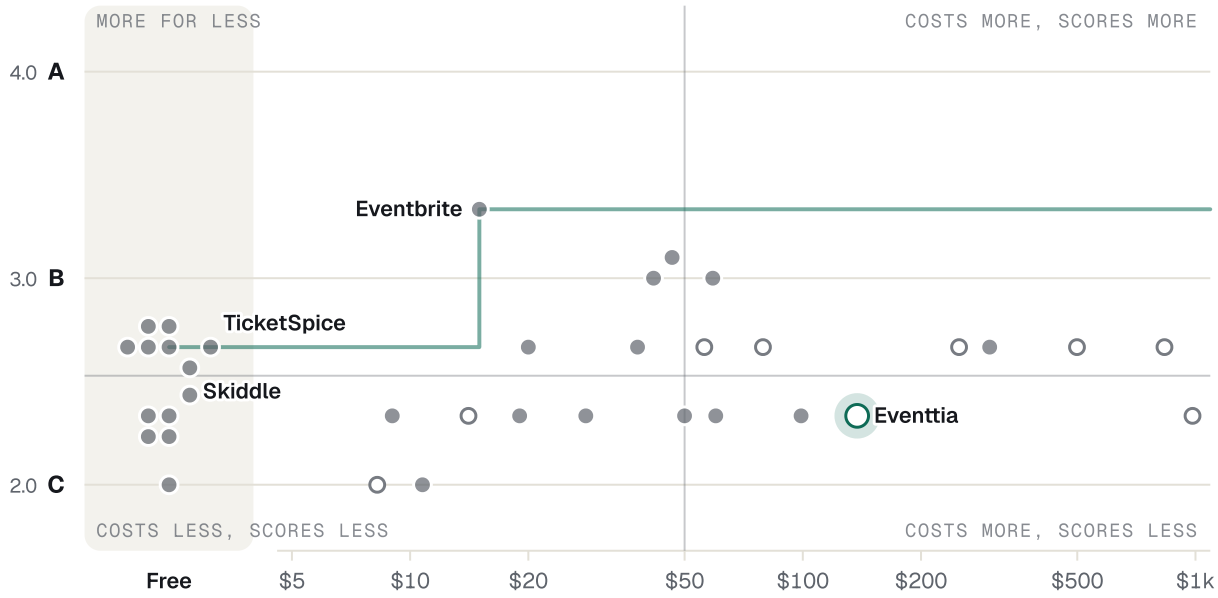

Each grade against the category

Every bar is all 80 event ticketing platforms we grade, cut by the letter each got. Eventtia's own letter is outlined.

Price against what you get

Each dot is one of 36 event ticketing platforms. Further left costs less; higher up scores better on features, ease of use and platforms. Eventtia is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Eventtia you could make: forms and reports. What surrounds it you could not. The 4 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 57 of the 79 other event ticketing platforms grade higher. It costs $1,650 a year.

What you could make

- Forms and reports: an app builder makes these well.

What you could not

- Selling tickets and checking them at the door.

- It plugs into other products, Salesforce, HubSpot and Dynamics 365 among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Eventtia's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
