07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from ExpenseIn's own pages, its app-store listings and our grades. Every fact in it is on ExpenseIn's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 39 of the 76 other spend and bill pay tools we grade

ExpenseIn is expense management software for submitting, approving, paying and reporting on expense claims. Employees capture receipts, mileage and time in a mobile app, and an optional expense card feeds transactions straight into claims. Plans are sold through a demo request, and the site publishes no prices.

To get you started, here are **7 things to know about ExpenseIn**, taken from its own pages and our grades.

> **No price is shown on any plan, and the things bigger teams want, like SSO and the API, sit on the dearer ones.**
>
> From our report card of ExpenseIn

1 **Best for expense claims and company cards for UK teams**

ExpenseIn covers receipt scanning, mileage, company cards, approvals and reimbursements, and it's built around UK businesses.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 Receipt scanning

A photo of a receipt in the mobile app is read for amount, date and other details, and the receipt is stored with the claim.

4 Mileage with Google Maps

The app uses Google Maps to work out distance and the reimbursement for a mileage claim, and the vendor lists carbon emission calculations.

5 Expense cards

Cards have built-in spending controls and card transactions appear in the app for matching with receipts. Advanced and Complete plans list cashback of 0.50% and 0.75%.

6 A 2.0 GPA, above 39 of 76

That is against the other spend and bill pay tools we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace ExpenseIn you would be making cards issued through a bank. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for expense claims and company cards for UK teams

ExpenseIn covers receipt scanning, mileage, company cards, approvals and reimbursements, and it's built around UK businesses. No price is shown on any plan, and the things bigger teams want, like SSO and the API, sit on the dearer ones.

TOOLGPA REPORT CARD — **ExpenseIn** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No prices are published, so there's nothing to set against the category's middle of $12 a seat. Every plan says to book a demo.
Free plan and trial	F	No free plan and no trial. You book a demo.
Features	B	Receipt scanning, mileage with Google Maps, cards, policies, approvals and reimbursements, plus accounting links. Nothing in the core job is missing, though several extras sit on higher plans.
Ease of use	C	No rating on record. Policies, approvals and accounting links all need setting up.
Platforms and integrations	B	Web, iPhone and Android, plus Xero, QuickBooks Online, NetSuite, Sage and Business Central. The REST API is Complete plan only.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ExpenseIn is for

- ✓ Fits if you run a UK business and want claims, cards and mileage in one place
- ✓ Works for finance teams that post expenses into Xero, QuickBooks or Sage

Who it is not for

- ✕ Skip it if you want to see a price before booking a demo, as none is published
- ✕ Not for you if you're outside the UK, since the site is built around UK data storage and HMRC rules
- ✕ Watch out: reimbursements carry extra charges that the plans page doesn't state
- ✕ Tight if you need SSO, multi-entity or card data feeds, which start at Advanced, or the API, which needs Complete
- ✕ Tight if you want to try before talking to sales, with no trial on the listing

Good to know

Good for

- ✓ UK organizations that want expense claims, cards and reimbursement in one system
- ✓ Finance teams that code expenses to an existing accounting package
- ✓ Charities and clubs paying one-off volunteer expenses

Worth knowing

- ⓘ No prices are published: the Core, Advanced and Complete plans all say to book a demo.
- ⓘ SSO, multi-entity, custom fields and corporate card data feeds start at Advanced; the REST API, receipt verification and carbon reporting need Complete.
- ⓘ Reimbursements carry additional charges, which the plans page does not state.
- ⓘ The site names UK data storage and HMRC compliance, so it is built around UK businesses.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

ExpenseIn's current pricing could not be confirmed from its own site.

We could not confirm ExpenseIn’s current prices from its own site, so this guide lists no plans. expensein.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, iOS and Android

Expense claims, receipt scanning and company cards for UK teams. Here is what it does, as its own site describes it, and what it covers: public API, reports, expense tracking, company cards.

> **Receipt scanning, mileage with Google Maps, cards, policies, approvals and reimbursements, plus accounting links.**
>
> From our grade for features

Receipt scanning

A photo of a receipt in the mobile app is read for amount, date and other details, and the receipt is stored with the claim.

Mileage with Google Maps

The app uses Google Maps to work out distance and the reimbursement for a mileage claim, and the vendor lists carbon emission calculations.

Expense cards

Cards have built-in spending controls and card transactions appear in the app for matching with receipts. Advanced and Complete plans list cashback of 0.50% and 0.75%.

Policies and approvals

Policy rules are enforced automatically, with multi-stage approval, escalation and out-of-office cover. Receipt verification is on the Complete plan.

Reimbursements

Approved expenses can be paid out through ExpenseIn. The plans page notes that reimbursements carry additional charges.

Accounting and payroll integrations

The plans page lists Xero, QuickBooks Online, NetSuite, Sage products, Microsoft Business Central and SFTP file delivery, plus a REST API on the Complete plan.

Where it runs

What it works with

Xero · QuickBooks Online · NetSuite · Sage Intacct · Sage 50 Accounts · Microsoft Business Central · AccountsIQ · Staffology

ExpenseIn is made by ExpenseIn.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

39/76

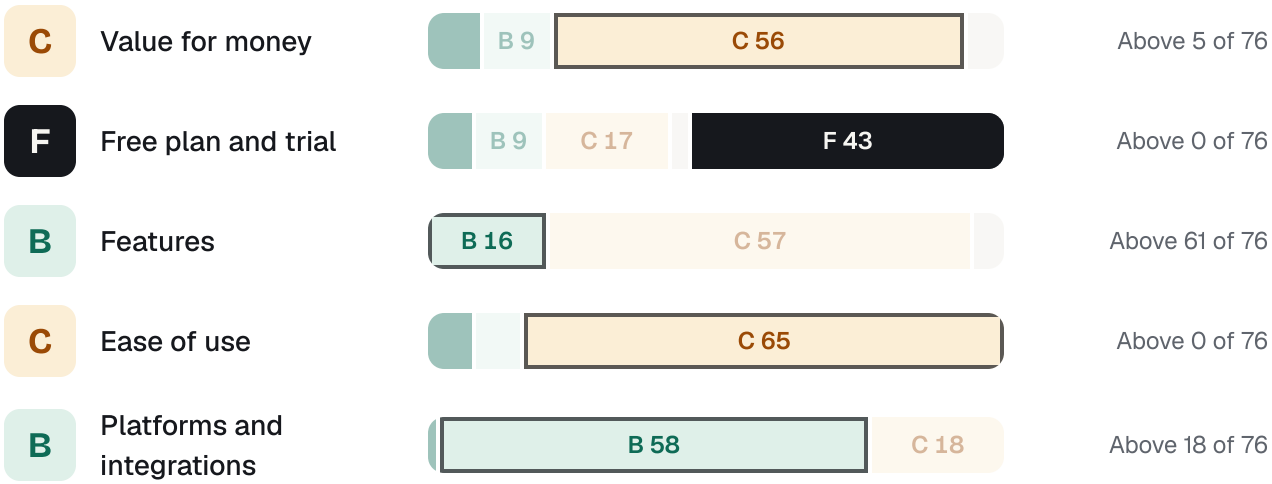

Other spend and bill pay tools it is graded above

ExpenseIn's GPA of 2.0 is higher than 39 of the 76 other spend and bill pay tools we grade, and level with 6.

It stands best on features (B, above 61 of 76) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 77 spend and bill pay tools we grade, cut by the letter each got. ExpenseIn's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace ExpenseIn you would be making cards issued through a bank. That is not a weekend's work, with an AI app builder or without one.

What you could make

- Expense tracking and reports: an app builder makes these well.

What you could not

- Cards issued through a bank.
- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, Xero, QuickBooks Online and NetSuite among them, and has an API.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. ExpenseIn's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Webexpenses, Expensify, Rydoo, Zoho Expense and Pleo

The 5 tools ExpenseIn is most often weighed against, with where each one differs from it.

1.8 GPA

Webexpenses

From £7.5/mo

Expense claims, receipt capture and expense cards for finance teams.

- Webexpenses also covers workflow automation.

ExpenseIn and Webexpenses compared in full

2.8 GPA

Expensify

Free plan · from $5/mo

Receipt scanning, expense reports and company cards, from $5 a member.

- Expensify has a free plan. ExpenseIn does not.
- Only Expensify lists a macOS app.
- Only Expensify lists a browser extension.

ExpenseIn and Expensify compared in full

2.6 GPA

Rydoo

Free trial · from $9/mo

Expense reports with an AI receipt scanner and multi-country rules.

- ExpenseIn also covers reports.

ExpenseIn and Rydoo compared in full

3.0 GPA

Zoho Expense

Free plan · from $3/mo

Expense reports, receipt scanning and travel booking from Zoho.

- Zoho Expense has a free plan. ExpenseIn does not.

ExpenseIn and Zoho Expense compared in full

1.8 GPA

Pleo

From $12/mo

Company spending cards and expense reports from Copenhagen.

- ExpenseIn also covers reports.
