PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

11/114

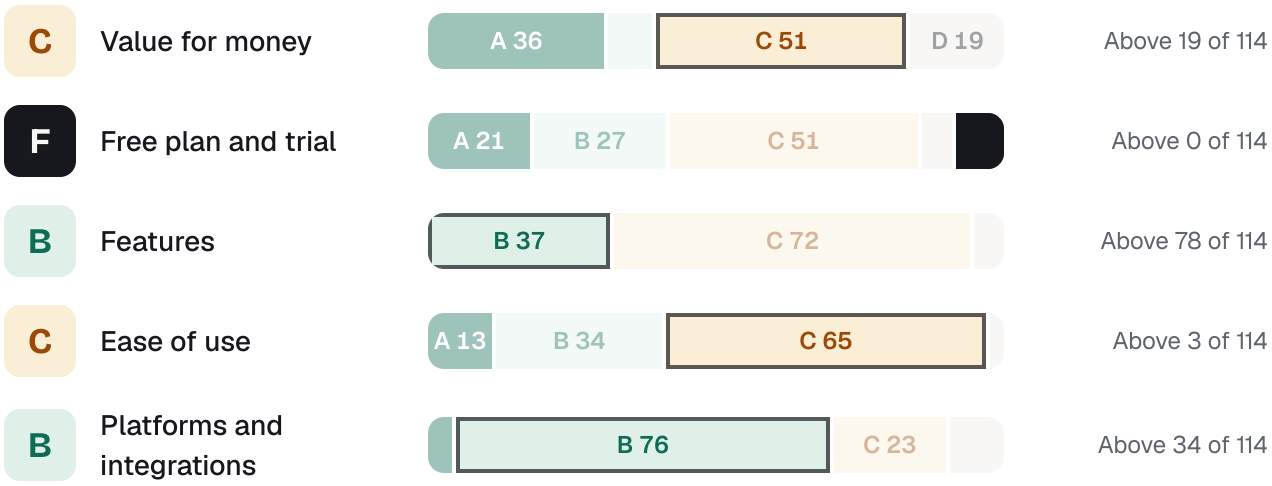

Other calendar and scheduling apps it is graded above

FareHarbor's GPA of 2.0 is higher than 11 of the 114 other calendar and scheduling apps we grade, and level with 10.

It stands best on features (B, above 78 of 114) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 115 calendar and scheduling apps we grade, cut by the letter each got. FareHarbor's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace FareHarbor you would be making two-way connections to Airbnb, Booking.com and Vrbo. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 93 of the 114 other calendar and scheduling apps grade higher.

What you could make

- Appointment booking: an app builder makes this well.

What you could not

- Two-way connections to Airbnb, Booking.com and Vrbo.
- Selling tickets and checking them at the door.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. FareHarbor's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
