PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

16/49

Other social media schedulers it is graded above

FeedHive's GPA of 2.2 is higher than 16 of the 49 other social media schedulers we grade, and level with 16.

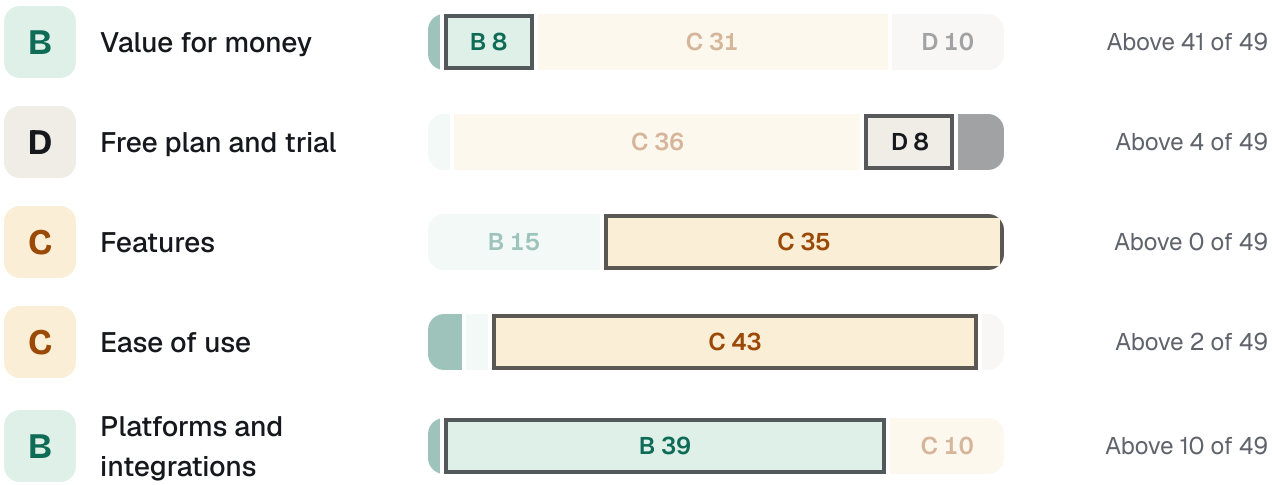

It stands best on value for money (B, above 41 of 49) and worst on free plan and trial (D, above 4).

Its paid plans start at about $16.76 a month, against a middle price of $29 for the category: 11 of the 44 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 4 tools score higher and cost less.

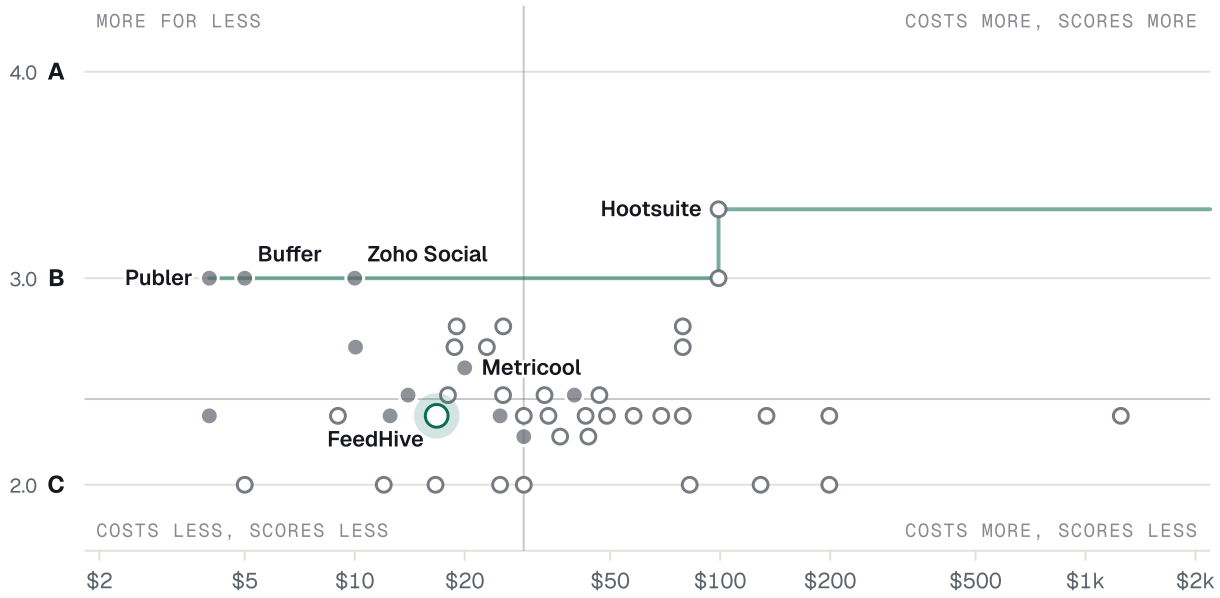

Each grade against the category

Every bar is all 50 social media schedulers we grade, cut by the letter each got. FeedHive's own letter is outlined.

Price against what you get

Each dot is one of 45 social media schedulers. Further left costs less; higher up scores better on features, ease of use and platforms. FeedHive is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace FeedHive you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 17 of the 49 other social media schedulers grade higher. It costs $201.10 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. FeedHive's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
