Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 26 of the 148 other form and survey tools we grade

Feedier gathers customer feedback from surveys, reviews, tickets and imported files, then uses AI to group comments, spot weak signals and rank issues by business impact. The Business plan is billed by the number of comments analyzed each month, and a built-in survey builder comes with Enterprise.

> **You connect sources and set up the analysis.**

> From our grade for ease of use

To get you started, here are **9 things to know about Feedier**, taken from its own pages and our grades.

1 **Best for analysing feedback you already collect**

Feedier uses AI to group comments from surveys, reviews and tickets and rank issues by business impact.

2 **Paid plans start at $200 a month**

As its pricing page puts it: $200 per month for 2,500 comments analyzed.

3 **You can try it first**

14-day free trial with 2,500 comments of analysis, no card needed.

4 **It runs on Web**

Web.

5 **Comment analysis**

AI groups comments into topics using a taxonomy you set, and flags weak signals across sources.

6 **Source connectors**

It reads from tools such as Qualtrics, Medallia, Salesforce, Trustpilot and support systems, and sends insights back.

7 **Ask Feedier**

An AI chat answers questions about your feedback, and an MCP server lets Claude, ChatGPT or other agents query the data.

8 **A 2.0 GPA, above 26 of 148**

That is against the other form and survey tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Feedier you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for analysing feedback you already collect

Feedier uses AI to group comments from surveys, reviews and tickets and rank issues by business impact. It starts at $200 a month for 2,500 comments, and the survey builder is Enterprise only, so you'd collect feedback elsewhere.

TOOLGPA REPORT CARD

Feedier

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	$200 a month for 2,500 comments analysed, rising to $800 at 10,000, well above the forms category's $19 middle.
Free plan and trial	C	14-day free trial with 2,500 comments of analysis, no card. No free plan afterwards.
Features	C	Comment analysis, source connectors, reports and revenue-based prioritisation. But the survey builder is Enterprise only, so Business users analyse feedback gathered elsewhere.
Ease of use	C	No store rating on record. You connect sources and set up the analysis.
Platforms and integrations	B	Web only, with Qualtrics, Medallia, Salesforce, Power BI, Trustpilot, Claude and ChatGPT.

Grade point average Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Feedier is for

- ✓ Fits if your feedback already sits in several tools and you want it analysed together
- ✓ Works for teams that want comments ranked by business impact

Who it is not for

- ✗ Pricey if you have volume: $200 a month for 2,500 comments, $800 at 10,000
- ✗ Skip it if you want to collect feedback, as the survey builder is Enterprise only
- ✗ Watch out: comments past the plan cost $0.08 each
- ✗ Watch out: the pricing page shows dollars while its FAQ says euros, so check the currency

Good to know

Good for

- ✓ Teams with feedback already spread across tools who need it analyzed in one place
- ✓ CX groups that want AI summaries and a queryable data layer
- ✓ Companies with feedback volume large enough to justify per-comment pricing

Worth knowing

- ⓘ Business is billed per comment analyzed ($0.08 each beyond the plan); imports of scores and users are not charged.
- ⓘ The survey builder is Enterprise only, so Business users analyze feedback collected elsewhere.
- ⓘ Business allows 500,000 feedback items imported; past that, new imports pause.
- ⓘ The pricing page shows dollar prices while its FAQ quotes €0.08, so the currency should be confirmed.

Comment analysis, source connectors, reports and revenue-based prioritisation.

From our grade for features

Comment analysis

AI groups comments into topics using a taxonomy you set, and flags weak signals across sources.

Source connectors

It reads from tools such as Qualtrics, Medallia, Salesforce, Trustpilot and support systems, and sends insights back.

Ask Feedier

An AI chat answers questions about your feedback, and an MCP server lets Claude, ChatGPT or other agents query the data.

Reports and action plans

Live reports export to PDF or PowerPoint, and action plans and workflows turn findings into tasks.

Revenue-based prioritization

Issues are ranked by revenue impact using CRM and other business data, not only by how many people mention them.

Survey builder

A native survey builder is part of the Enterprise plan, for teams starting a new feedback program.

Where it stands

Its grades against its category, and whether to keep it or make your own

26/148

Other form and survey tools it is graded above

Feedier's GPA of 2.0 is higher than 26 of the 148 other form and survey tools we grade, and level with 29.

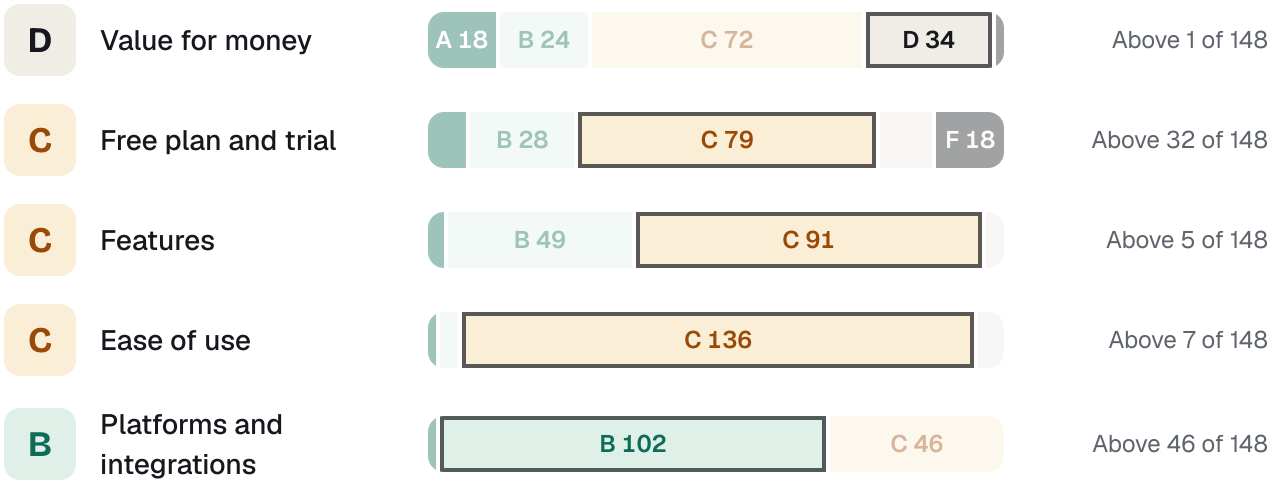

It stands best on platforms and integrations (B, above 46 of 148) and worst on value for money (D, above 1).

Its paid plans start at $200 a month, against a middle price of $20 for the category: 105 of the 114 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 39 tools score higher and cost less.

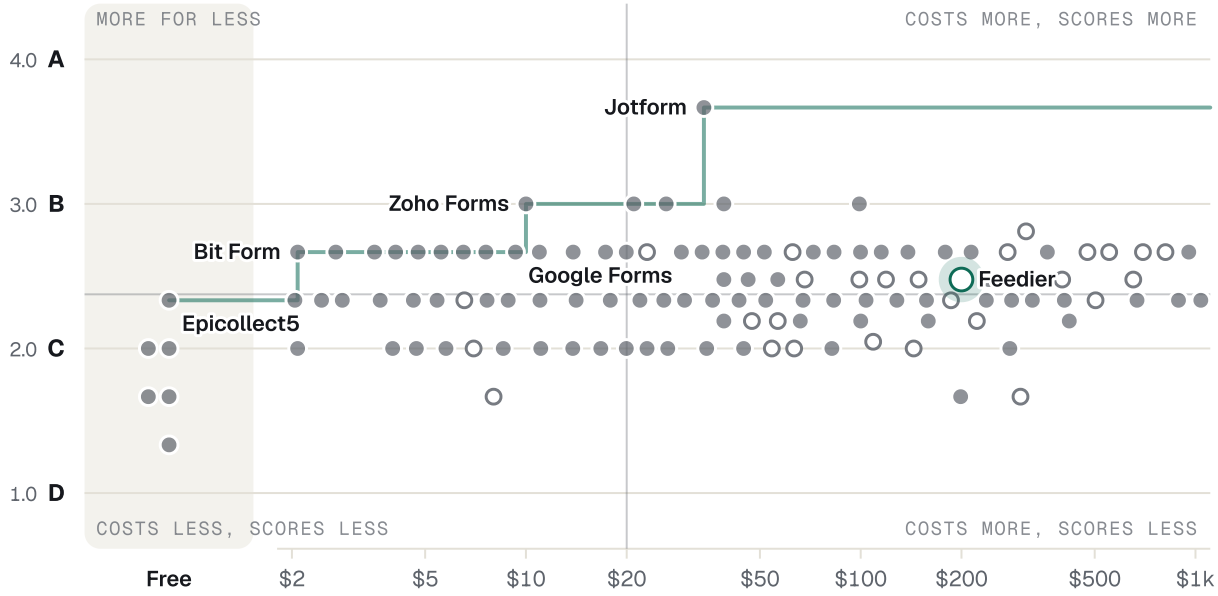

Each grade against the category

Every bar is all 149 form and survey tools we grade, cut by the letter each got. Feedier's own letter is outlined.

Price against what you get

Each dot is one of 121 form and survey tools. Further left costs less; higher up scores better on features, ease of use and platforms. Feedier is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Feedier you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 93 of the 148 other form and survey tools grade higher. It costs $2,400 a year.

What you could make

- Surveys and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Feedier's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
