Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 3 of the 55 other field service apps we grade

Fixably is a software platform for repair and refurbishment businesses. It handles repair workflows, inventory, logistics and customer communication, and connects to manufacturer systems such as Apple GSX for authorized service providers. The company sells Repair, Depot and Refurb products, and pricing is by quote.

To get you started, here are **7 things to know about Fixably**, taken from its own pages and our grades.

> **A repair workflow and an Apple GSX link need setting up before it is useful.**
>
> From our grade for ease of use

1 **Best for repair shops and Apple service providers**

Fixably is repair-shop software with workflows for retail repair, depot repair and refurbishment, plus an Apple GSX link.

2 **It runs on Web**

Web.

3 **Fixably Repair**

Technician workflows, customer communication tools and manufacturer integrations for retail repair businesses.

4 **Fixably Depot**

Configurable workflows, reports and API, OEM and logistics integrations for high-volume depot repair facilities.

5 **Fixably Refurb**

Software for refurbishing and reselling electronics, with reporting for recommerce operations.

6 **A 1.8 GPA, above 3 of 55**

That is against the other field service apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Fixably you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for repair shops and Apple service providers

Fixably is repair-shop software with workflows for retail repair, depot repair and refurbishment, plus an Apple GSX link. No current prices are published

and the plans page redirects to an archive that lists plans by quote only, so you can't price it without a call.

TOOLGPA REPORT CARD	Fixably	Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there is nothing to set against the category's $35 to $99 spread and it sits in the ordinary band. The old plans page now redirects to an archive that lists Basic, Premium and Enterprise by quote only.
Free plan and trial	F	No free plan and no trial on record, only a demo booking.
Features	C	Repair workflows, a depot product, refurbishment and an Apple GSX integration. The archived Basic tier lists up to 6,000 repairs a year, one location and 10 users, and the listing shows no field dispatch.
Ease of use	C	No store rating on record. A repair workflow and an Apple GSX link need setting up before it is useful.
Platforms and integrations	B	Web login only, with Apple GSX, Stripe, Moneris and Slack connections. The site describes no separate desktop or phone apps.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Fixably is for

- ✓ Fits if you run an Apple Authorized Service Provider and need GSX connected
- ✓ Works for depot repair or refurbishment operations with a lot of units in flight

Who it is not for

- ✗ Skip it if you want a price, as no current one is published
- ✗ Tight if you are small: the archived Basic tier lists 6,000 repairs a year, one location and 10 users
- ✗ Not for you if you send technicians out to customers, because the listing describes repair shops and depots
- ✗ Watch out: the site lists a web login and no separate desktop or mobile apps

Good to know

Good for

- ✓ Apple and multi-brand authorized repair providers
- ✓ Depot-level service centers handling high volumes
- ✓ Refurbishment and resale operations

Worth knowing

- ⓘ No current prices are published; the plans page now redirects to an archive that lists Basic, Premium and Enterprise by quote only.
- ⓘ The archived Basic tier lists up to 6,000 repairs a year, one location and 10 users; Premium lists up to 12,000 repairs, five locations and 50 users.
- ⓘ The site lists a web login and does not describe separate desktop or mobile apps.

Where it stands

Its grades against its category, and whether to keep it or make your own

3/55

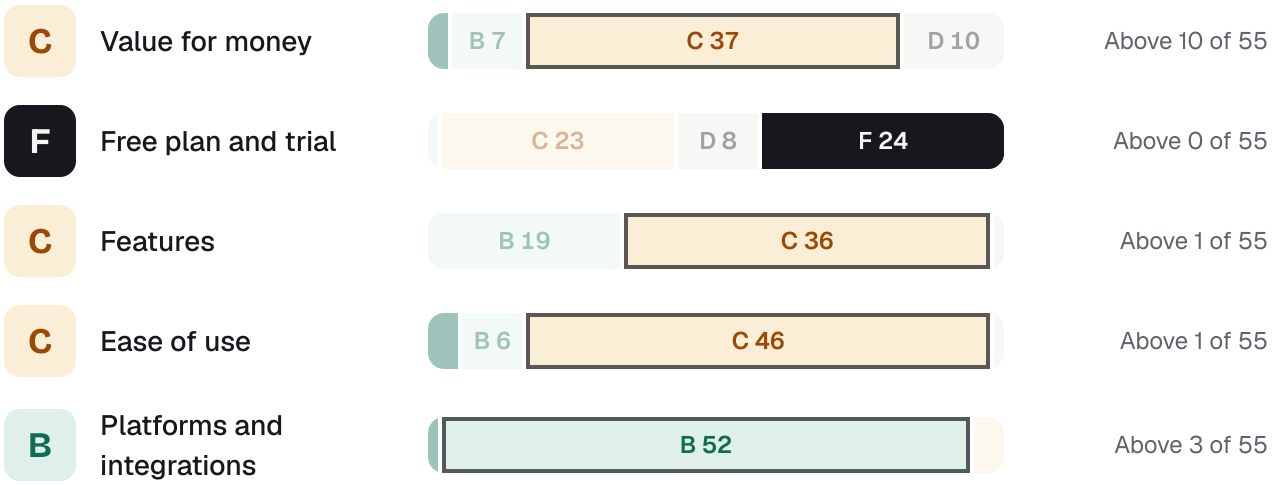

Other field service apps it is graded above

Fixably's GPA of 1.8 is higher than 3 of the 55 other field service apps we grade, and level with 17.

It stands best on platforms and integrations (B, above 3 of 55) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 56 field service apps we grade, cut by the letter each got. Fixably's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Fixably you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 35 of the 55 other field service apps grade higher.

What you could make

- Inventory and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.

What this rests on. Fixably's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
