Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 22 of the 127 other accounting and invoicing tools we grade

FloQast is software for corporate accounting teams that manages the month-end close with checklists and account reconciliations, with optional AI agents for transaction matching and journal entries. A separate Risk and Compliance product covers controls and audit readiness. Pricing is by package, with no per-user fees, and is given only on request.

To get you started, here are **7 things to know about FloQast**, taken from its own pages and our grades.

> **But no prices are published, every package is bought through sales, and it is aimed at mid-sized and larger teams.**
>
> From our report card of FloQast

1 **Best for corporate accounting teams that run a monthly close**

FloQast manages the month-end close with checklists and account reconciliations, with optional AI agents for matching and journal entries.

2 **It runs on Web**

Web.

3 **Close checklist**

Runs every close from one checklist, with task management for the team and tracking of one-off projects to a deadline.

4 **Account reconciliations**

Ties out and signs off each reconciliation in the same platform, and extends the workflow to operational accounting work.

5 **Close AI agents**

Prebuilt or custom agents handle prep work, with AI matching including three-way matching and automated journal entry posting.

6 **A 2.0 GPA, above 22 of 127**

That is against the other accounting and invoicing tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace FloQast you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

TOOLGPA REPORT CARD — **FloQast** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published and there are no per-user fees. Every package is sold by contacting sales, so we can't set it against the category.
Free plan and trial	F	No free plan and no trial on the listing.
Features	B	Close checklist, account reconciliations, AI matching and journal entries, and a separate risk and compliance product. The listing shows no gap in the close work.
Ease of use	C	No store rating on record, and connecting ledgers and building checklists is a rollout for a team.
Platforms and integrations	B	Web only, with Slack, Teams, Google Drive, Ramp, Expensify, Stripe, Rippling and Coupa.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who FloQast is for

- ✓ Fits if you lead an accounting team that closes its books every month
- ✓ Makes sense if you want AI matching on top of your checklist

Who it is not for

- ✕ Skip it if you want a price on the page, because none is published
- ✕ Not for you if you're an individual bookkeeper, since it is aimed at mid-sized and larger teams
- ✕ Watch out: the AI close agents sit in a higher package
- ✕ Tight if you want to try it first, because there is no free plan or trial

Good to know

Good for

- ✓ Corporate accounting teams with a defined month-end close
- ✓ Controllers who want reconciliations and checklists in one tool
- ✓ Teams preparing for audits that need documented controls

Worth knowing

- ⓘ No prices are published; every package is sold by contacting sales.
- ⓘ Close AI is a higher package that includes Close Management; Risk and Compliance can be bought alone or with a close package.
- ⓘ The pricing page says there are no per-user fees; cost scales with business outcomes instead.
- ⓘ It is aimed at mid-sized and larger accounting teams, not individual bookkeepers.

What it costs

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

22/127

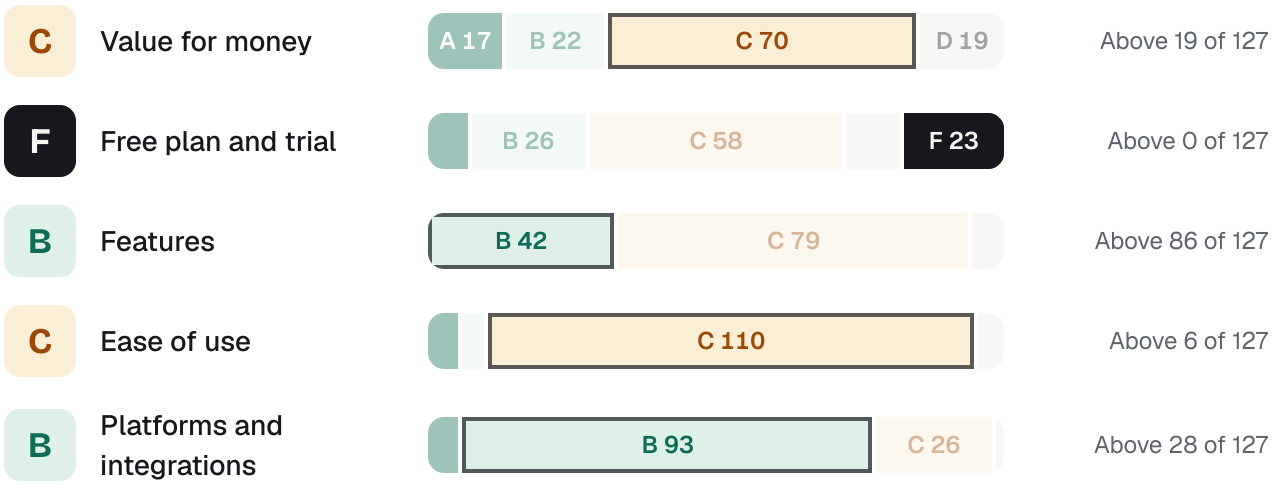

Other accounting and invoicing tools it is graded above

FloQast's GPA of 2.0 is higher than 22 of the 127 other accounting and invoicing tools we grade, and level with 20.

It stands best on features (B, above 86 of 127) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 128 accounting and invoicing tools we grade, cut by the letter each got. FloQast's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace FloQast you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 85 of the 127 other accounting and invoicing tools grade higher.

What you could make

- Reports: an app builder makes this well.

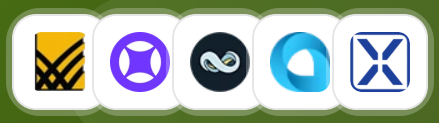

What you could not

- Live feeds from your bank, which take an agreement with each bank or a service that has them.
- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. FloQast's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
