## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

### Keep it

The plain part of FlowCV you could make: resume builder, templates and documents. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

It is one of the better ones too: its GPA of 2.6 is higher than 19 of the 24 other resume builders we grade. It costs $60 a year.

### What you could make

- Resume builder, templates and documents: an app builder makes these well.

### What you could not

- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

**What this rests on.** FlowCV's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
