07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Flowlity's own pages, its app-store listings and our grades. Every fact in it is on Flowlity's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 28 of the 72 other inventory management tools we grade

Flowlity is cloud software for supply chain planning that covers demand forecasting, inventory optimization, supply planning, sales and operations planning and collaboration with suppliers. It uses probabilistic forecasts to size safety stock and flag future stockouts, and it targets small and mid-size companies in retail, manufacturing and wholesale.

To get you started, here are **8 things to know about Flowlity**, taken from its own pages and our grades.

"

Connecting an ERP by API, SFTP or EDI is part of setup.

From our grade for ease of use

1 **Best for demand and stock planning for mid-sized firms**

No price is published, a data feed has to be set up, and its own FAQ says it is less deep than RELEX for big store networks.

2 **You can try it first**

Free trial offered; its length and limits are not stated

3 **It runs on Web**

Web.

4 **Probabilistic demand forecasting**

Models a range of demand scenarios with probabilities instead of a single number, and flags future stockouts and overstock early.

5 **Inventory optimization**

Sets dynamic safety stock for each SKU against a chosen service level, with multi-echelon (MEIO), DRP and store replenishment pages.

6 **Supply planning and orders**

Builds order proposals that respect lead times, minimum order quantities and full-container targets, recalculated nightly for planners to validate.

7 **A 2.0 GPA, above 28 of 72**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

The plain part of Flowlity you could make: inventory and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

Flowlity at a glance

PRICING Free trial	FREE PLAN No
FREE TRIAL Free trial offered; its length and limits are not stated	RUNS ON Web
MADE BY Flowlity, since 2019	CATEGORY Inventory Management
OUR GRADE 2.0 GPA, fair	

The report card

Best for demand and stock planning for mid-sized firms

Flowlity forecasts demand, sets safety stock and plans supply, and flags future stockouts, for small and mid-size retail, manufacturing and wholesale. No price is published, a data feed has to be set up, and its own FAQ says it is less deep than RELEX for big store networks.

TOOLGPA REPORT CARD **Flowlity** Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published and buyers book a demo, so there is no figure to set against this category's $91 middle price.
Free plan and trial	C	A free trial is offered, but its length, limits and card requirement are not stated.
Features	C	Probabilistic forecasting, inventory optimisation, supply planning, S&OP and supplier collaboration. Its own FAQ admits less depth than RELEX in shelf-level work, and some modules are new.
Ease of use	C	Connecting an ERP by API, SFTP or EDI is part of setup. No store rating is on record.
Platforms and integrations	C	Web only. It connects to ERPs through API, SFTP or EDI, and no integration list is given.

Grade point average Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Flowlity is for

- ✓ Fits if you are a mid-sized distributor or maker with an ERP and a stock planning problem
- ✓ Makes sense if you want forecasts that size safety stock

Who it is not for

- ✗ Skip it if you want a price on the page, as none is published
- ✗ Watch out: the trial's length and limits are not stated
- ✗ Watch out: a data feed to your ERP has to be set up first
- ✗ Too light for large store networks, by the vendor's own FAQ

Good to know

Good for

- ✓ Mid-market retailers and e-commerce brands planning replenishment
- ✓ Manufacturers and wholesalers that want forecasts tied to supplier orders
- ✓ Planning teams without a dedicated supply chain system

Worth knowing

- ⓘ No prices are published and the vendor has no public pricing page; buyers book a demo.
- ⓘ The vendor says the product connects to ERPs by API, SFTP or EDI, so a data feed has to be set up.
- ⓘ Flowlity's own FAQ says it has less depth than RELEX in shelf-level merchandising for very large store networks.
- ⓘ Some modules, such as assortment planning and the Co-Planner, are marked as new.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Flowlity's current pricing could not be confirmed from its own site.

> **A free trial is offered, but its length, limits and card requirement are not stated.**
>
> From our grade for free plan and trial

We could not confirm Flowlity's current prices from its own site, so this guide lists no plans. flowlity.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI supply chain forecasting and inventory planning software. Here is what it does, as its own site describes it, and what it covers: AI features, reports, inventory, dashboards.

> **Probabilistic forecasting, inventory optimisation, supply planning, S&OP and supplier collaboration.**
>
> From our grade for features

Probabilistic demand forecasting

Models a range of demand scenarios with probabilities instead of a single number, and flags future stockouts and overstock early.

Inventory optimization

Sets dynamic safety stock for each SKU against a chosen service level, with multi-echelon (MEIO), DRP and store replenishment pages.

Supply planning and orders

Builds order proposals that respect lead times, minimum order quantities and full-container targets, recalculated nightly for planners to validate.

Sales and operations planning

S&OP and IBP views, strategic simulations and dashboards let planners test a policy change before committing to it.

Supplier collaboration

Shared visibility for teams and suppliers; the vendor also lists pricing, promotion and assortment planning for retail.

Where it runs

Web

What it works with

Its own pages name no integrations.

Flowlity is made by Flowlity, and has been around since 2019.

Where it stands

Its grades against its category, and whether to keep it or make your own

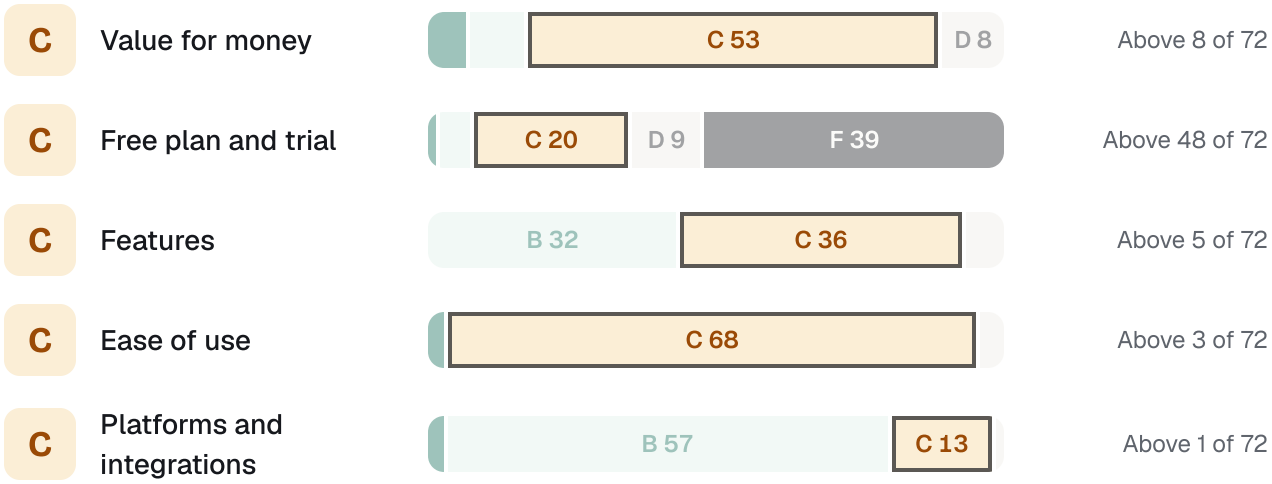

28/72

Other inventory management tools it is graded above

Flowlity's GPA of 2.0 is higher than 28 of the 72 other inventory management tools we grade, and level with 18.

Each grade against the category

Every bar is all 73 inventory management tools we grade, cut by the letter each got. Flowlity's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Flowlity you could make: inventory and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

What you could make

- Inventory and reports: an app builder makes these well.

What you could not

- Connections that pull numbers from dozens of other services.
- AI features, unless you pay a model provider for each request yourself.
- Sharing with other people, which means accounts and invitations.

What this rests on. Flowlity's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Slimstock, EazyStock, RELEX Solutions, Streamline and Netstock

The 5 tools Flowlity is most often weighed against, with where each one differs from it.

1.8 GPA

Slimstock

Paid

Quick answers

The questions people ask about it, each answered in a line or two

9

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Flowlity free?

No, Flowlity is a paid product, but you can try it first. Free trial offered; its length and limits are not stated.

What platforms does Flowlity work on?

Flowlity is available on Web.

Does Flowlity have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Flowlity is listed for Web.

Does Flowlity have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Flowlity is listed for Web.

Is Flowlity open source?

Flowlity is not described as open source on its own site, as read on Nov 13, 2026.

Who makes Flowlity?

Flowlity is made by a company of the same name. It dates from 2019.

What are the alternatives to Flowlity?

The closest alternatives to Flowlity in our directory are Slimstock, EazyStock, RELEX Solutions, Streamline and Netstock.

How does Flowlity compare with other inventory management tools?

Flowlity's GPA of 2.0 is higher than 28 of the 72 other inventory management tools we grade, and level with 18.

Could I make my own version of Flowlity?

The plain part of Flowlity you could make: inventory and reports. What surrounds it you could not.

Where this guide comes from

The prices, plans, platforms and features were read from Flowlity's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Flowlity's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Flowlity. Prices change, so check flowlity.com before you buy.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
