07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from FlowWright's own pages, its app-store listings and our grades. Every fact in it is on FlowWright's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 26 of the 134 other automation tools we grade

FlowWright is a business process automation platform with visual designers for workflows, forms, dashboards and reports, plus a rules engine and AI agents. It targets manufacturers, government bodies and software companies that want to embed its engine. Licensing is by server and sold through the vendor.

To get you started, here are **7 things to know about FlowWright**, taken from its own pages and our grades.

> **It is a platform you design, deploy and integrate, and it can run on your own servers or containers.**
>
> From our grade for ease of use

1 **Best for a .NET workflow engine for makers and software firms**

Every plan says to contact the vendor, and the tiers differ mainly by servers and containers.

2 **It runs on Web**

Web.

3 **Visual designers**

Drag-and-drop designers for workflows, responsive forms, dashboards and reports, with low-code options for custom logic.

4 **Integrations and APIs**

The vendor lists more than 300 prebuilt process steps, REST APIs, .NET integrations and messaging services.

5 **Rules and decision tables**

Configurable business rules and decision tables standardize decisions inside a process.

6 **A 2.0 GPA, above 26 of 134**

That is against the other automation tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace FlowWright you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

FlowWright at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON Web
MADE BY FlowWright, Inc.	CATEGORY Automation
OUR GRADE 2.0 GPA, fair	

The report card

Best for a .NET workflow engine for makers and software firms

FlowWright is a business process platform built on a .NET workflow engine, with designers, rules, document processing and flexible deployment. Every

plan says to contact the vendor, and the tiers differ mainly by servers and containers.

TOOLGPA REPORT CARD	FlowWright	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published: OEM, Standard, Pro and Enterprise all say to contact the vendor.
Free plan and trial	F	No free plan and no trial; the vendor offers a no-cost proof of concept instead, which is a sales process rather than a self-serve try.
Features	B	Visual designers, rules and decision tables, AI and document processing, document management, and APIs. Nothing in the listing shows a gap in the core work.
Ease of use	C	No store rating on record. It is a platform you design, deploy and integrate, and it can run on your own servers or containers.
Platforms and integrations	B	Web, with REST APIs and listed links to .NET, ERP, MES and QMS systems. No desktop or phone app on record.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who FlowWright is for

- ✓ Fits if you make things and want quality and change-control approvals automated
- ✓ Works for software vendors that want a workflow engine inside their own product

Who it is not for

- ✗ Skip it if you want a published price, as every tier says to contact the vendor
- ✗ Not for you if you want to try it on your own, since the only trial route is a vendor-run proof of concept
- ✗ Watch out: higher tiers are separated by servers and containers, so the cost depends on how you deploy it

Good to know

Good for

- ✓ Manufacturers automating quality, change control and similar processes
- ✓ Software vendors embedding a workflow engine in their own product
- ✓ Government teams coordinating approvals and case work

Worth knowing

- ⓘ No prices are published; every plan on the pricing page says to contact the vendor.
- ⓘ The pricing page lists OEM, Standard, Pro and Enterprise tiers that differ mainly in servers and containers.
- ⓘ The vendor offers a proof of concept at no cost instead of a self-serve trial.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

FlowWright's current pricing could not be confirmed from its own site.

> **No price is published: OEM, Standard, Pro and Enterprise all say to contact the vendor.**
>
> From our grade for value for money

We could not confirm FlowWright's current prices from its own site, so this guide lists no plans. flowwright.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Business process automation platform with a .NET workflow engine. Here is what it does, as its own site describes it, and what it covers: public API, workflow automation, AI agents, forms, dashboards.

> **Visual designers, rules and decision tables, AI and document processing, document management, and APIs.**
>
> From our grade for features

Visual designers

Drag-and-drop designers for workflows, responsive forms, dashboards and reports, with low-code options for custom logic.

Integrations and APIs

The vendor lists more than 300 prebuilt process steps, REST APIs, .NET integrations and messaging services.

Rules and decision tables

Configurable business rules and decision tables standardize decisions inside a process.

AI and document processing

Includes AI agents and intelligent document processing, with cloud or local AI models and human oversight.

Document management

Central document storage with version control, access permissions and automated approvals tied to processes.

Flexible deployment

Runs in the cloud, on premises or in containers, with multi-tenancy and an embeddable .NET engine for OEM partners.

Where it runs

- Web

What it works with

- REST APIs
- .NET
- ERP systems
- MES systems
- QMS systems

FlowWright is made by FlowWright, Inc.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

26/134

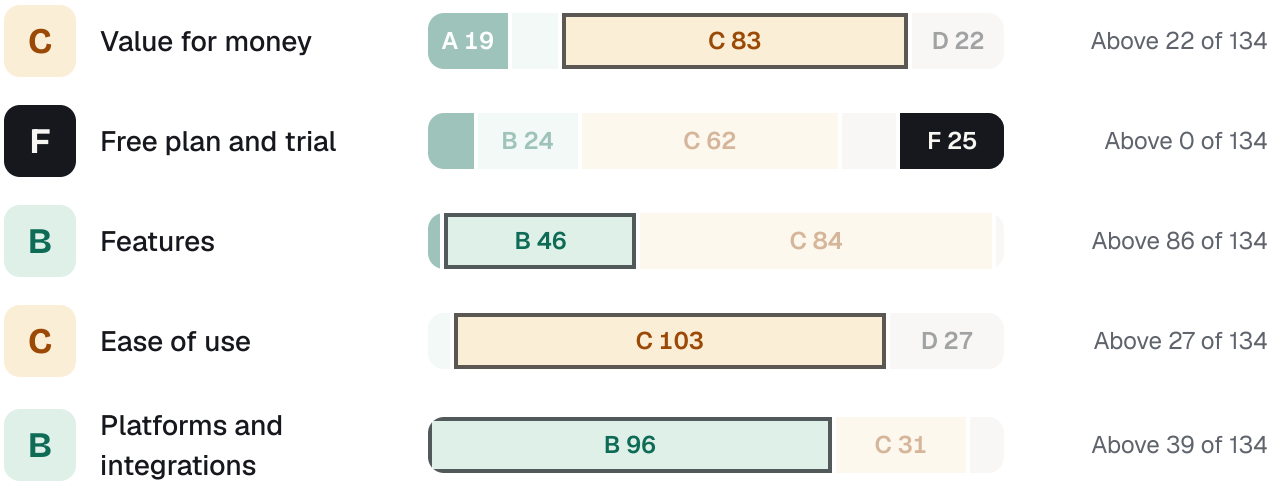

Other automation tools it is graded above

FlowWright's GPA of 2.0 is higher than 26 of the 134 other automation tools we grade, and level with 27.

It stands best on features (B, above 86 of 134) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 135 automation tools we grade, cut by the letter each got. FlowWright's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace FlowWright you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 81 of the 134 other automation tools grade higher.

What you could make

- Forms: an app builder makes this well.

What you could not

- Connections to other products, each kept working as those products change.
- An AI agent, with the models and the safeguards behind it.
- Connections that pull numbers from dozens of other services.
- What a company asks for before it lets staff use something: roles and permissions.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. FlowWright's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Workflowgen, Nintex, Appian, Kissflow and Camunda

The 5 tools FlowWright is most often weighed against, with where each one differs from it.

2.0 GPA

Workflowgen

Paid

Low-code workflow platform for human-centric business processes.

- Only Workflowgen lists iOS and Android apps.
- FlowWright also covers AI agents and dashboards.
- Workflowgen also covers no-code.

FlowWright and Workflowgen compared in full

2.4 GPA

Nintex

Free trial

Workflow, process and document automation platform.

- FlowWright also covers AI agents and dashboards.
- Nintex also covers documents.

FlowWright and Nintex compared in full

Appian

2.0 GPA

Free plan

Low-code process automation platform for large enterprises.

- Appian has a free plan. FlowWright does not.
- FlowWright also covers forms and dashboards.
- Appian also covers app builder, no-code and case management.

FlowWright and Appian compared in full

Kissflow

1.6 GPA

Paid

Enterprise low-code platform for workflows, apps and portals.

- FlowWright also covers AI agents and dashboards.
- Kissflow also covers app builder and no-code.

FlowWright and Kissflow compared in full

Camunda

2.2 GPA

Free plan

BPMN process orchestration, self-hosted or as a cloud service.

- Camunda has a free plan. FlowWright does not.
- Camunda is self-hostable, according to its own site.
- FlowWright also covers forms.

FlowWright and Camunda compared in full

Quick answers

The questions people ask about it, each answered in a line or two

11

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is FlowWright free?

No. FlowWright is a paid product.

What platforms does FlowWright work on?

FlowWright is available on Web.

Does FlowWright have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. FlowWright is listed for Web.

Does FlowWright have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. FlowWright is listed for Web.

Is FlowWright open source?

FlowWright is not described as open source on its own site, as read on Nov 13, 2026.

Does FlowWright have an API?

Yes. FlowWright offers a public API, according to its own site.

What does FlowWright integrate with?

FlowWright's listing names REST APIs, .NET, ERP systems, MES systems and QMS systems.

Who makes FlowWright?

FlowWright is made by FlowWright, Inc.

What are the alternatives to FlowWright?

The closest alternatives to FlowWright in our directory are Workflowgen, Nintex, Appian, Kissflow and Camunda.

How does FlowWright compare with other automation tools?

FlowWright's GPA of 2.0 is higher than 26 of the 134 other automation tools we grade, and level with 27.

Could I make my own version of FlowWright?

To replace FlowWright you would be making connections to other products, each kept working as those products change.

Where this guide comes from

The prices, plans, platforms and features were read from FlowWright's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from FlowWright's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by FlowWright, Inc. Prices change, so check flowwright.com before you buy.
