Where it stands

Its grades against its category, and whether to keep it or make your own

92/98

FluentCommunity's GPA of 2.8 is higher than 92 of the 98 other course and community platforms we grade, and level with 5.

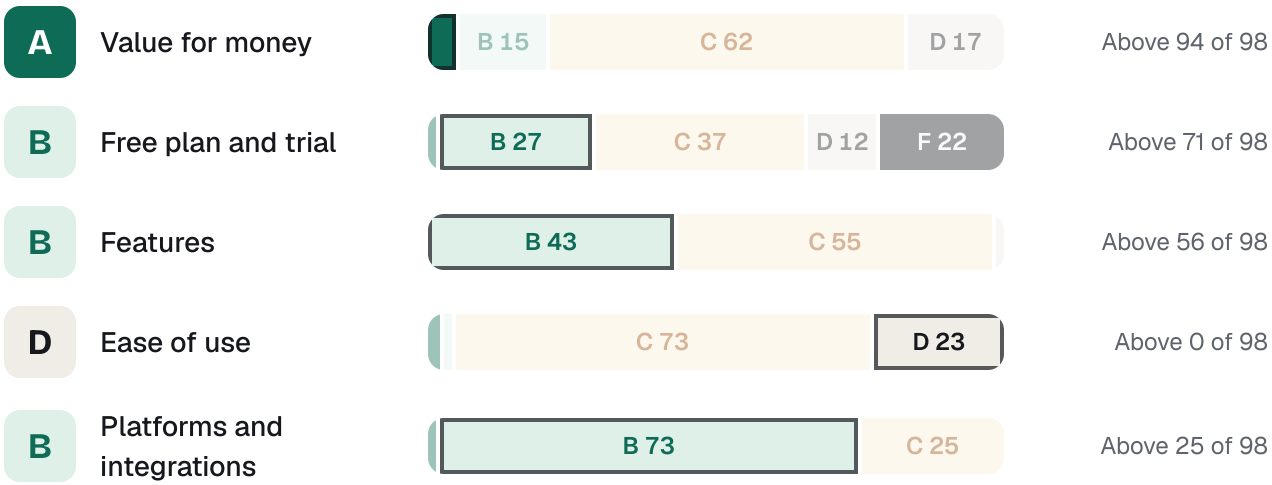

It stands best on value for money (A, above 94 of 98) and worst on ease of use (D, above 0).

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of FluentCommunity you could make: online courses and templates. What surrounds it you could not. The 4 things listed below take a company, not a weekend.

It is one of the better ones too: its GPA of 2.8 is higher than 92 of the 98 other course and community platforms we grade. It costs $199 a year.

What you could make

- Online courses and templates: an app builder makes these well.

What you could not

- A members' space with posts, chat and events that people keep coming back to.
- It plugs into other products, FluentCRM, FluentCart and Fluent Forms among them.
- People on the other end: a community of other users. No app builder makes those.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. FluentCommunity's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
