07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from FormBackend's own pages, its app-store listings and our grades. Every fact in it is on FormBackend's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 88 of the 148 other form and survey tools we grade

FormBackend provides an endpoint for HTML forms so submissions can be collected without server code. Entries arrive by email and can be sent to Slack, Google Sheets, Discord or any webhook. Paid plans raise the number of forms and submissions and add rules, an API and custom email domains.

To get you started, here are **9 things to know about FormBackend**, taken from its own pages and our grades.

> **No store rating on record, and it is a web app where the work is writing the form and setting up routing, so it sits at C.**
>
> From our grade for ease of use

1 **Best for emailing and routing HTML form entries**

FormBackend is a form endpoint service that emails and routes entries from your own HTML forms.

2 **Paid plans start at $5 a month**

As its pricing page puts it: $5 per month, billed monthly.

3 **There is a free plan**

1 form, 50 submissions a month and 10 spam submissions a month, with 30-day auto-delete and data export.

4 **It runs on Web**

Web.

5 **Form endpoint**

Submit an HTML form to the endpoint and receive entries by email, with custom redirects.

6 **Native delivery**

Sends submissions to Slack, Google Sheets, Discord and any webhook without a third-party account.

7 **Zapier connections**

Reaches 1,000+ more apps, including Notion, Airtable and Mailchimp, through Zapier.

8 **A 2.4 GPA, above 88 of 148**

That is against the other form and survey tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace FormBackend you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for emailing and routing HTML form entries

FormBackend is a form endpoint service that emails and routes entries from your own HTML forms. The free plan stops at 1 form, 50 submissions a month and 30-day auto-delete, and rules, the API and Slack and Sheets delivery sit on dearer plans.

TOOLGPA REPORT CARD — **FormBackend** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	Simple is $5 a month for 1,000 submissions, inside the cheaper quarter of form tools. Monthly billing only is shown.
Free plan and trial	C	Free is 1 form, 50 submissions a month and entries deleted after 30 days. A separate free hosted form has no submission cap.
Features	C	Endpoint, native delivery, Zapier, rules, spam protection and a hosted form. Rules and the API need Freelancer, and Slack and Sheets delivery needs Business.
Ease of use	C	No store rating on record, and it is a web app where the work is writing the form and setting up routing, so it sits at C.
Platforms and integrations	B	Web only, with an API and eight listed integrations.

Grade point average — Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who FormBackend is for

- ✓ Fits if you have a static site and want entries by email
- ✓ Works for freelancers routing forms for several clients

Who it is not for

- ✗ Tight if you stay free, as it stops at 1 form, 50 submissions and 30-day auto-delete
- ✗ Watch out: rules, API access and white-label notifications need Freelancer at $14
- ✗ Watch out: Slack and Google Sheets delivery sits on the $50 Business plan
- ✗ Skip it if you want a drag-and-drop builder, as the form is yours to write

Good to know

Good for

- ✓ Static sites that need a contact form and email delivery
- ✓ Freelancers handling forms for several client sites
- ✓ Developers who want API access and webhooks

Worth knowing

- ⓘ The free plan stops at 1 form, 50 submissions a month and 30-day auto-delete.
- ⓘ Slack and Google Sheets delivery is listed under the Business plan.
- ⓘ The pricing page shows a yearly option worth two months free but not its price.
- ⓘ Rules, API access and white-label notifications need Freelancer or above.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$5

A month to start. There is a free plan too

FormBackend has a free plan. Paid plans start at $5 per month, billed monthly.

> **A separate free hosted form has no submission cap.**
>
> From our grade for free plan and trial

FREE

$0

1 form, 50 submissions a month, custom Thank You page and data export. A separate free hosted form gives unlimited submissions.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Form endpoint service that emails and routes HTML form entries. Here is what it does, as its own site describes it, and what it covers: public API, workflow automation, forms.

> "
>
> **Endpoint, native delivery, Zapier, rules, spam protection and a hosted form.**

From our grade for features

Form endpoint

Submit an HTML form to the endpoint and receive entries by email, with custom redirects.

Native delivery

Sends submissions to Slack, Google Sheets, Discord and any webhook without a third-party account.

Zapier connections

Reaches 1,000+ more apps, including Notion, Airtable and Mailchimp, through Zapier.

Rules and routing

From Freelancer up: a rules engine, conditional email notifications and white-label notifications.

Spam protection

Included from the Simple plan, with a monthly cap on spam submissions on the free plan.

Hosted form option

A free hosted form builder is offered for people who do not want to write the form themselves.

Where it runs

What it works with

Slack · Google Sheets · Discord · Zapier · Notion · Airtable · Mailchimp · Zendesk

FormBackend is made by FormBackend.com.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

88/148

Other form and survey tools it is graded above

FormBackend's GPA of 2.4 is higher than 88 of the 148 other form and survey tools we grade, and level with 27.

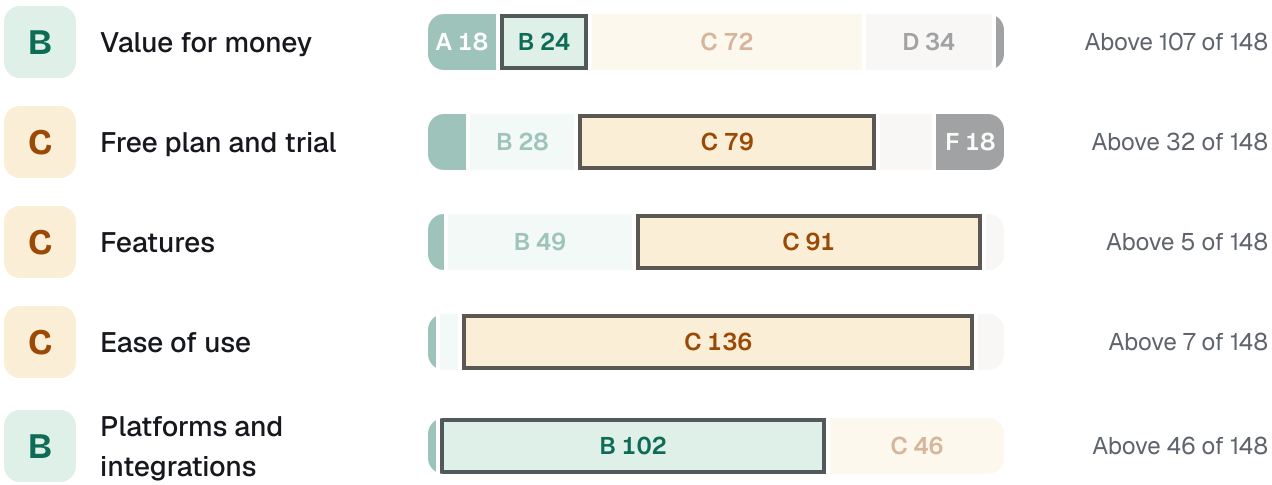

It stands best on value for money (B, above 107 of 148) and worst on features (C, above 5).

Its paid plans start at $5 a month, against a middle price of $20 for the category: 11 of the 114 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 3 tools score higher and cost less.

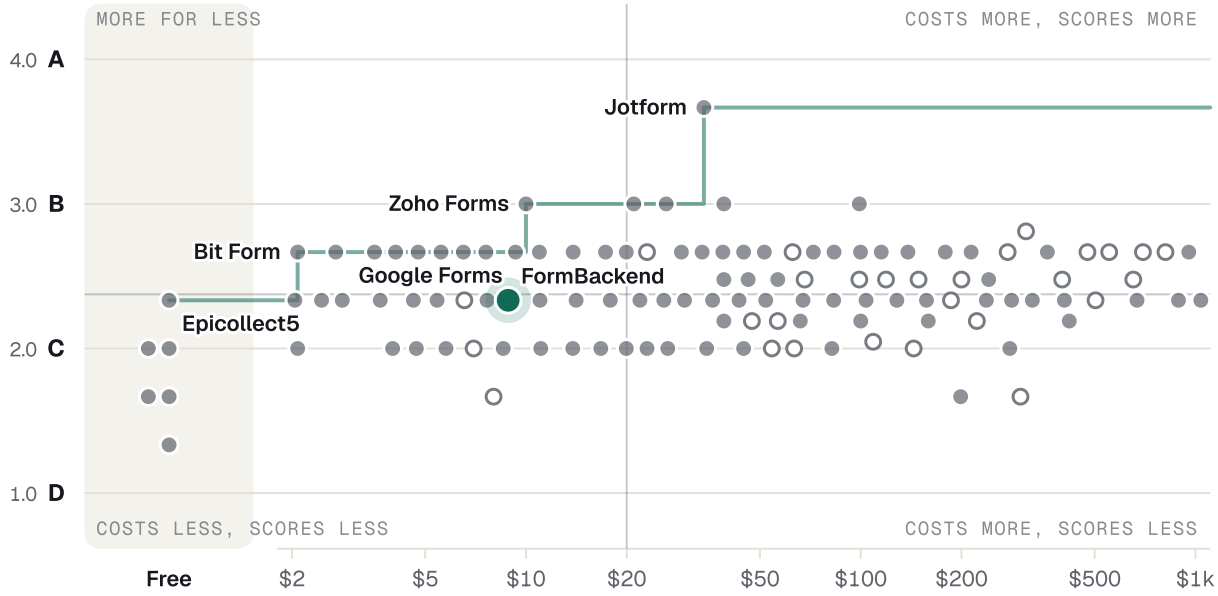

Each grade against the category

Every bar is all 149 form and survey tools we grade, cut by the letter each got. FormBackend's own letter is outlined.

Price against what you get

Each dot is one of 121 form and survey tools. Further left costs less; higher up scores better on features, ease of use and platforms. FormBackend is the marked dot.

What paid plans start at, a month (each step along is roughly double) ⍰

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace FormBackend you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

It costs $60 a year.

What you could make

- Forms: an app builder makes this well.

What you could not

- Connections to other products, each kept working as those products change.

What this rests on. FormBackend's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Formspree, Basin, Formspark, Web3Forms and Formcarry

The 5 tools FormBackend is most often weighed against, with where each one differs from it.

Formspree

2.4 GPA

Free plan · from $10/mo

Form backend that handles submissions for any website.

- Formspree also covers transactional email.

FormBackend and Formspree compared in full

Basin

2.4 GPA

Free plan · from $12.50/mo

Form backend and builder that collects submissions without code.

- Basin also covers transactional email.

FormBackend and Basin compared in full

Formspark

2.6 GPA

Free plan · from $25 one-time

Form backend that emails or forwards submissions from your own HTML.

FormBackend and Formspark compared in full

2.2
GPA

Web3Forms

Free plan

Form-to-email backend for static websites using an access key.

- FormBackend has a free plan. Web3Forms does not.
- FormBackend also covers workflow automation.
