PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

26/148

Other form and survey tools it is graded above

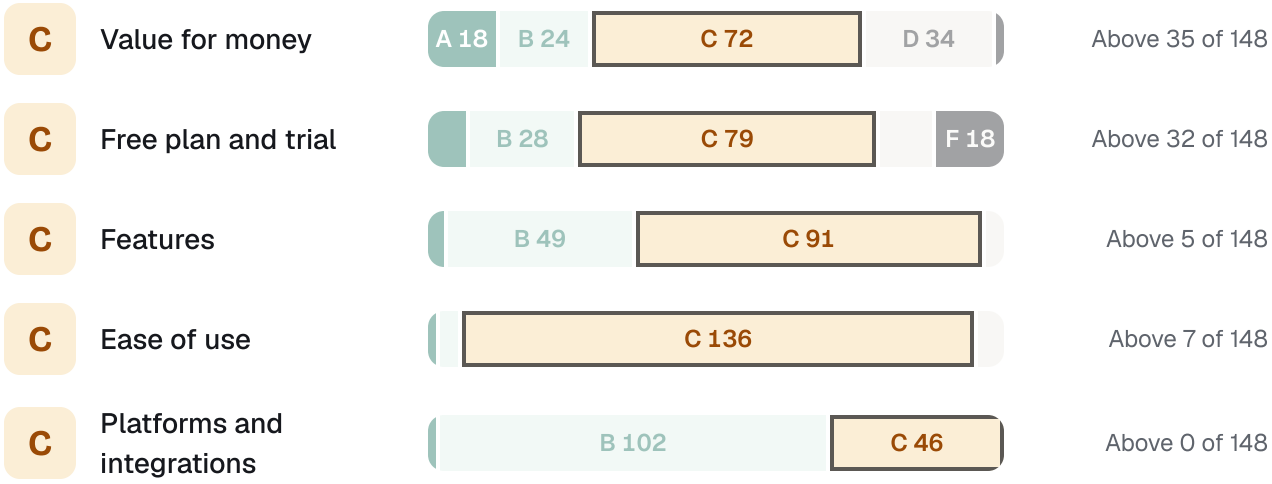

Formdesk's GPA of 2.0 is higher than 26 of the 148 other form and survey tools we grade, and level with 29.

Its paid plans start at about $6.05 a month, against a middle price of $20 for the category: 17 of the 114 others that charge start lower.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Formdesk you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 93 of the 148 other form and survey tools grade higher. It costs $72.62 a year.

What you could make

- Forms, surveys and templates: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.

What this rests on. Formdesk's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
