07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Gatekeeper's own pages, its app-store listings and our grades. Every fact in it is on Gatekeeper's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 19 of the 78 other e-signature and proposal tools we grade

Gatekeeper is a platform that puts vendor records, contracts, compliance checks and spend on one record. Contract management includes eSign, and the pricing page says every plan has unlimited users, contracts and eSign licences. Plans are sized by the number of third parties managed, and prices are quoted after a demo.

To get you started, here are **7 things to know about Gatekeeper**, taken from its own pages and our grades.

> **SSO and role-based access need Enterprise, and it is more than a team that only needs signatures wants.**
>
> From our report card of Gatekeeper

1 **Best for contracts and vendor risk in one platform**

Gatekeeper combines contract management, vendor risk and unlimited eSign licences.

2 **It runs on Web**

Web.

3 **Contract lifecycle management**

Contracts, renewals and obligations live on a unified record with vendor due diligence, so each stage feeds the next.

4 **eSign included**

The plan comparison lists unlimited eSign licences and senders on every plan, including Pro.

5 **Vendor risk and compliance**

Vendor onboarding, risk and compliance checks and performance tracking sit alongside contracts.

6 **A 2.0 GPA, above 19 of 78**

That is against the other e-signature and proposal tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Gatekeeper you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for contracts and vendor risk in one platform

Gatekeeper combines contract management, vendor risk and unlimited eSign licences. Plans are sized by third-party count, up to 250, 750 or more, and quoted after a demo. SSO and role-based access need Enterprise, and it is more than a team that only needs signatures wants.

TOOLGPA REPORT CARD

Gatekeeper

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published. Plans are sized by third-party count and quoted after a demo, so it sits in the middle with no evidence either way.
Free plan and trial	F	No free plan or trial is listed on its pages or in the listing, so nothing is free.
Features	B	Contract lifecycle, included eSign, vendor risk and compliance, AI agents and integrations. No gap in the contract job shows in the listing.
Ease of use	C	No store rating on record, and vendors and contracts have to be loaded first.
Platforms and integrations	B	Web only, with NetSuite, Jira and AWS Marketplace listed.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Gatekeeper is for

- ✓ Fits if you manage many suppliers and their contracts together
- ✓ Makes sense if you want signing included for everyone on the team

Who it is not for

- ✕ Skip it if you want signatures only, since it is a vendor and contract platform
- ✕ Watch out: no price is published, and plans are sized by third-party count
- ✕ Tight if you want SSO, SCIM or role-based access, which need Enterprise
- ✕ Not for you if you need the MCP connector without Enterprise Plus

Good to know

Good for

- ✓ Procurement and legal teams managing contracts and vendor risk together
- ✓ Teams that want signing included without per-sender fees
- ✓ Companies running NetSuite that need a home for contracts

Worth knowing

- ⓘ No prices are published; Pro, Enterprise and Enterprise Plus plans are sized by third-party count and quoted after a demo.
- ⓘ Pro covers up to 250 third parties, Enterprise up to 750, and Enterprise Plus more than 750.
- ⓘ SSO, SCIM and role-based access need Enterprise, and the MCP connector needs Enterprise Plus.
- ⓘ It is a vendor and contract platform, more than a team that only needs signatures requires.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Gatekeeper's current pricing could not be confirmed from its own site.

> **Plans are sized by third-party count and quoted after a demo, so it sits in the middle with no evidence either way.**
>
> From our grade for value for money

We could not confirm Gatekeeper's current prices from its own site, so this guide lists no plans. gatekeeperhq.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Vendor and contract management with unlimited eSign licences. Here is what it does, as its own site describes it, and what it covers: AI features, workflow automation, documents, reports.

> **Contract lifecycle, included eSign, vendor risk and compliance, AI agents and integrations.**
>
> From our grade for features

Contract lifecycle management

Contracts, renewals and obligations live on a unified record with vendor due diligence, so each stage feeds the next.

eSign included

The plan comparison lists unlimited eSign licences and senders on every plan, including Pro.

Vendor risk and compliance

Vendor onboarding, risk and compliance checks and performance tracking sit alongside contracts.

Gatekeeper AI agents

AI agents handle administrative work such as intake and renewals, with people kept in control of decisions, per the vendor.

Interconnect integrations

Gatekeeper Interconnect connects to 1,700+ applications, including NetSuite and Jira, according to the integrations page.

Where it runs

Web

What it works with

NetSuite

Jira

AWS Marketplace

Gatekeeper is made by Gatekeeper.

Where it stands

Its grades against its category, and whether to keep it or make your own

19/78

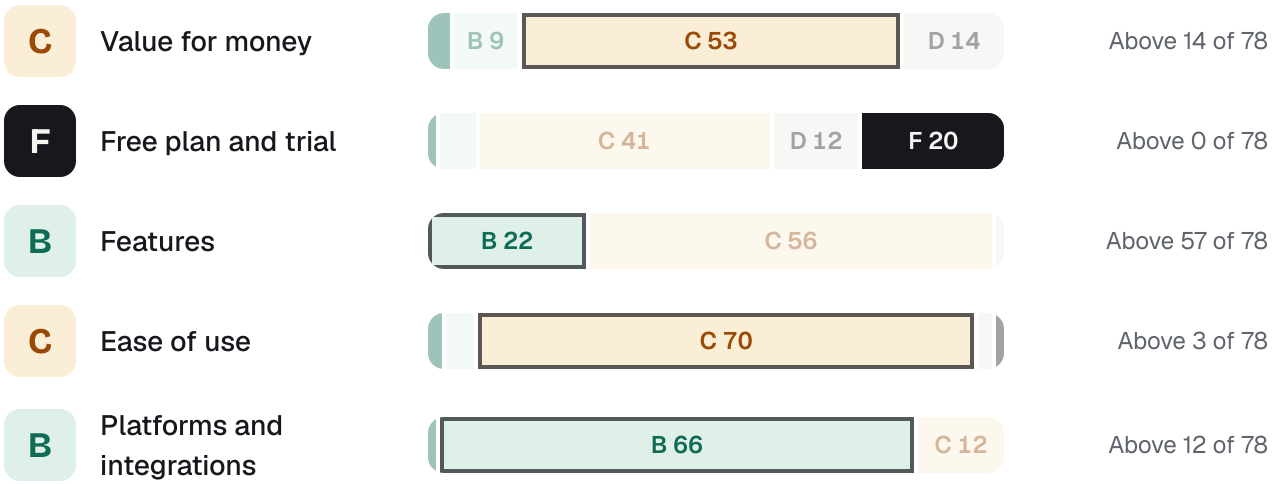

Other e-signature and proposal tools it is graded above

Gatekeeper's GPA of 2.0 is higher than 19 of the 78 other e-signature and proposal tools we grade, and level with 18.

It stands best on features (B, above 57 of 78) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 79 e-signature and proposal tools we grade, cut by the letter each got. Gatekeeper's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Gatekeeper you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 41 of the 78 other e-signature and proposal tools grade higher.

What you could make

- Documents and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Gatekeeper's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Ironclad, Icertis, Agiloft, Concord and LinkSquares

The 5 tools Gatekeeper is most often weighed against, with where each one differs from it.

2.0 GPA

Ironclad

Paid

AI contract lifecycle management with built-in eSignature.

- Gatekeeper also covers reports.
- Ironclad also covers templates.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Gatekeeper free?

No. Gatekeeper is a paid product.

What platforms does Gatekeeper work on?

Gatekeeper is available on Web.

Does Gatekeeper have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Gatekeeper is listed for Web.

Does Gatekeeper have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Gatekeeper is listed for Web.

Is Gatekeeper open source?

Gatekeeper is not described as open source on its own site, as read on Nov 13, 2026.

What does Gatekeeper integrate with?

Gatekeeper's listing names NetSuite, Jira and AWS Marketplace. A listing names up to eight integrations, so it may connect to more.

Who makes Gatekeeper?

Gatekeeper is made by a company of the same name.

What are the alternatives to Gatekeeper?

The closest alternatives to Gatekeeper in our directory are Ironclad, Icertis, Agiloft, Concord and LinkSquares.

How does Gatekeeper compare with other e-signature and proposal tools?

Gatekeeper's GPA of 2.0 is higher than 19 of the 78 other e-signature and proposal tools we grade, and level with 18.

Could I make my own version of Gatekeeper?

To replace Gatekeeper you would be making connections to other products, each kept working as those products change.

Where this guide comes from

The prices, plans, platforms and features were read from Gatekeeper's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Gatekeeper's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Gatekeeper. Prices change, so check gatekeeperhq.com before you buy.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
