Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 28 of the 72 other inventory management tools we grade

Genius ERP is manufacturing software from Genius Solutions that covers production scheduling, shop floor, quoting, accounting and inventory. Inventory tracking goes down to serial or lot number, with materials allocated to jobs. Pricing is estimated for each shop; none is published.

To get you started, here are **7 things to know about Genius ERP**, taken from its own pages and our grades.

> **No price is published, the cost is estimated per shop, and it is a lot of software for simple stock counting.**
>
> From our report card of Genius ERP

1 **Best for manufacturing ERP with lot and serial stock**

Genius ERP covers scheduling, shop floor, quoting, accounting and inventory, with serial or lot tracking and stock allocated to jobs.

2 **It runs on Web**

Web.

3 **Serial and lot tracking**

Track inventory down to the serial number or lot and assign material statuses.

4 **Job allocation**

Allocate specific materials to jobs before production, with soft or hard allocation and back flush or front flush consumption.

5 **Replenishment**

Replenish from actual job demand or preset min-max levels, with forecasts from current and planned jobs.

6 **A 2.0 GPA, above 28 of 72**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of Genius ERP you could make: inventory, quotes and estimates and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

Genius ERP

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No list price is published; an estimate is emailed after a form, so there is no figure to set against this category's $91 middle price.
Free plan and trial	F	No free plan or trial; you get an emailed estimate.
Features	B	Serial and lot tracking, job allocation, replenishment, multi-warehouse locations and a REST API. The listing shows no gap in the core stock work.
Ease of use	C	A full manufacturing ERP takes a rollout, and no store rating is on record.
Platforms and integrations	B	Web with a cloud option and a REST API, plus SOLIDWORKS, Autodesk Inventor, HubSpot and Avalara links.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Genius ERP is for

- ✓ Fits if you run a manufacturing shop and want stock tied to jobs and lots
- ✓ Works for firms that design in SOLIDWORKS or Inventor

Who it is not for

- ✗ Not for you if you only count stock, as it is a full manufacturing ERP
- ✗ Skip it if you want a price on the page, as none is published
- ✗ Watch out: the directory lists it as Genius Inventory while the vendor sells Genius ERP
- ✗ Watch out: no free plan or trial is shown

Good to know

Good for

- ✓ Small and mid-sized manufacturers, job shops and machine shops
- ✓ Shops that need materials reserved for specific jobs
- ✓ Companies that design in SOLIDWORKS or Autodesk Inventor

Worth knowing

- ⓘ The pricing page says an estimate is emailed after a form; no list prices appear.
- ⓘ It is a full manufacturing ERP, not a stand-alone inventory tool, so it is a heavy fit for simple stock counting.
- ⓘ Listed in the directory as Genius Inventory; the vendor sells it as Genius ERP.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

28/72

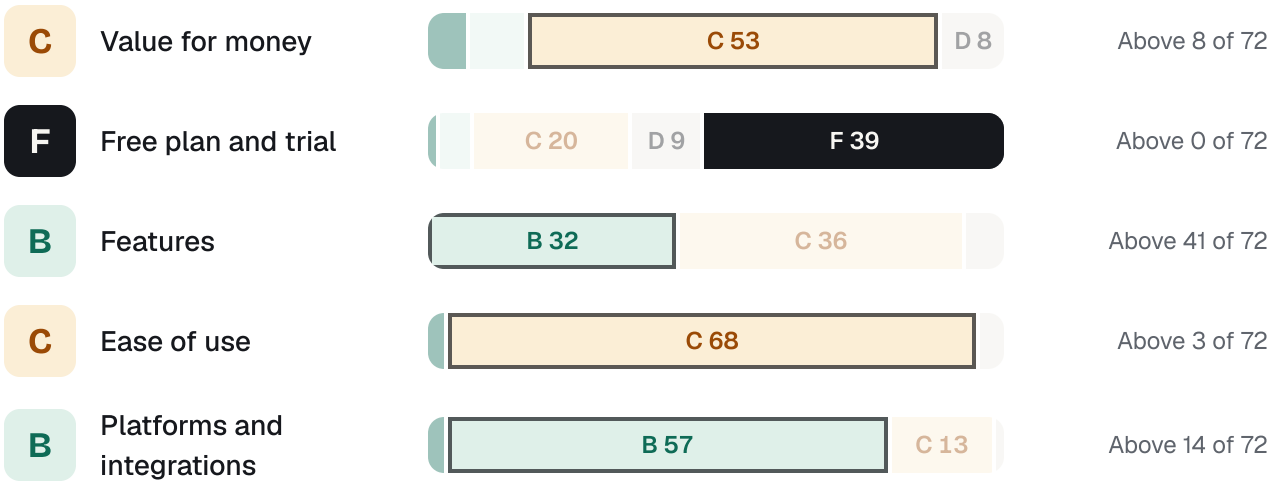

Other inventory management tools it is graded above

Genius ERP's GPA of 2.0 is higher than 28 of the 72 other inventory management tools we grade, and level with 18.

It stands best on features (B, above 41 of 72) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 73 inventory management tools we grade, cut by the letter each got. Genius ERP's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Genius ERP you could make: inventory, quotes and estimates and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

What you could make

- Inventory, quotes and estimates and reports: an app builder makes these well.

What you could not

- It plugs into other products, SOLIDWORKS, Autodesk Inventor and HubSpot among them, and has an API.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Genius ERP's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
