Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 12 of the 85 other salon, spa and studio booking apps we grade

Gym Assistant is membership management software that installs on a Windows PC rather than running in the cloud. It handles member records, check-in, recurring billing and reports for small and mid-size gyms, and is sold once instead of by subscription. An optional cloud add-on, MemberConnect, adds a member portal, texting and a member app.

To get you started, here are **9 things to know about Gym Assistant**, taken from its own pages and our grades.

> "
>
> **No store rating on record, and a Windows program with its own database means setup.**
>
> From our grade for ease of use

1 **Best for a single gym that wants software it owns**

Gym Assistant is Windows membership software sold as a one-time license from $780, with eight capacity editions.

2 **What it costs**

Paid plans start at $780 one-time, for the smallest of eight capacity editions.

3 **You can try it first**

Free demo download offered; the terms are not stated

4 **It runs on Windows**

Windows.

5 Member records and check-in

Each member screen holds payments, visit history, notes, measurements and waivers, and members can be checked in by barcode key tag in the background.

6 Recurring billing

Runs recurring membership billing with integrated card and ACH/EFT payment processing, set up through a merchant services account.

7 Door access control

Optional access control hardware opens doors on a schedule, by membership type, using digital keys, barcode tags, proximity cards or fobs.

8 A 1.8 GPA, above 12 of 85

That is against the other salon, spa and studio booking apps we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Gym Assistant you would be making texts to thousands of numbers, registered with the carriers. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for a single gym that wants software it owns

Gym Assistant is Windows membership software sold as a one-time license from $780, with eight capacity editions. It runs on Windows only and isn't cloud based, it has no class or appointment booking, and updates and support stop after a year unless you pay $190 a year.

TOOLGPA REPORT CARD — **Gym Assistant** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$780 one-time for the smallest edition, under two years of the category's $49 middle subscription. After year one, support is $190 a year.
Free plan and trial	D	A free demo download, but its terms aren't stated.
Features	C	Member records, check-in, recurring billing, door access and reports. But no class or appointment booking, and retail needs a separate add-on.
Ease of use	C	No store rating on record, and a Windows program with its own database means setup.
Platforms and integrations	D	Windows only, and not cloud based. On a Mac it needs Parallels Desktop.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Gym Assistant is for

- ✓ Fits if you run one gym on a Windows PC and want to buy once
- ✓ Works for gyms with simple memberships and no class timetable

Who it is not for

- ✗ Not for you if you use a Mac, as it needs Parallels
- ✗ Skip it if you need class or appointment booking, as there isn't any
- ✗ Watch out: updates and support stop after year one unless you pay $190 a year
- ✗ Watch out: MemberConnect needs a merchant account, a support plan and version 2.6.0
- ✗ Skip it if you want cloud access, as it isn't cloud based

Good to know

Good for

- ✓ Small and mid-size gyms that want to buy software once
- ✓ Clubs that need door access control tied to memberships
- ✓ Owners who want to keep their data on their own computer

Worth knowing

- ⓘ It runs on Windows only and is not cloud based; on a Mac it needs Parallels Desktop.
- ⓘ Software is for memberships; there is no class or appointment booking, and retail needs the separate ProShop add-on.
- ⓘ Support and updates are free for one year, after which a paid support plan is needed to keep receiving them.
- ⓘ MemberConnect needs a merchant services account, an active support plan and software version 2.6.0, and online payments work in the US and Canada only.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Windows

Windows membership software for gyms, sold as a one-time license. Here is what it does, as its own site describes it, and what it covers: one-time purchase, reports, barcode scanning, sMS marketing.

> **Member records, check-in, recurring billing, door access and reports.**

From our grade for features

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

12/85

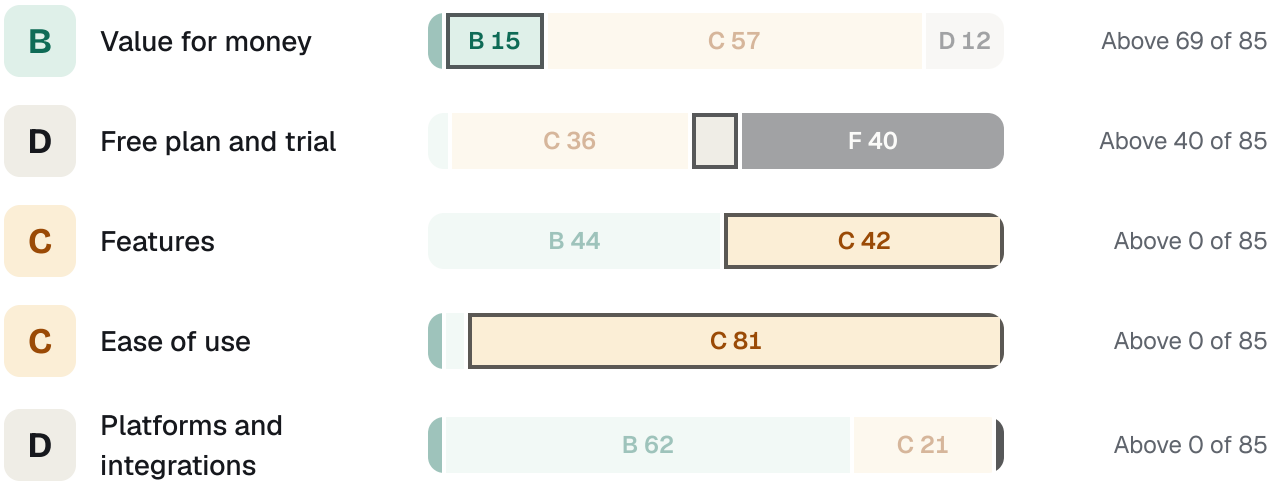

Other salon, spa and studio booking apps it is graded above

Gym Assistant's GPA of 1.8 is higher than 12 of the 85 other salon, spa and studio booking apps we grade, and level with 19.

It stands best on value for money (B, above 69 of 85) and worst on platforms and integrations (D, above 0).

Each grade against the category

Every bar is all 86 salon, spa and studio booking apps we grade, cut by the letter each got. Gym Assistant's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Gym Assistant you would be making texts to thousands of numbers, registered with the carriers. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 54 of the 85 other salon, spa and studio booking apps grade higher. It costs $780, paid once.

What you could make

- Reports: an app builder makes this well.

What you could not

- Texts to thousands of numbers, registered with the carriers.
- Scanning barcodes with a phone camera or a scanner.
- A real app for Windows. Something home-made would be a web page.

What this rests on. Gym Assistant's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
