75/85

Other salon, spa and studio booking apps it is graded above

Gymcatch's GPA of 2.6 is higher than 75 of the 85 other salon, spa and studio booking apps we grade, and level with 6.

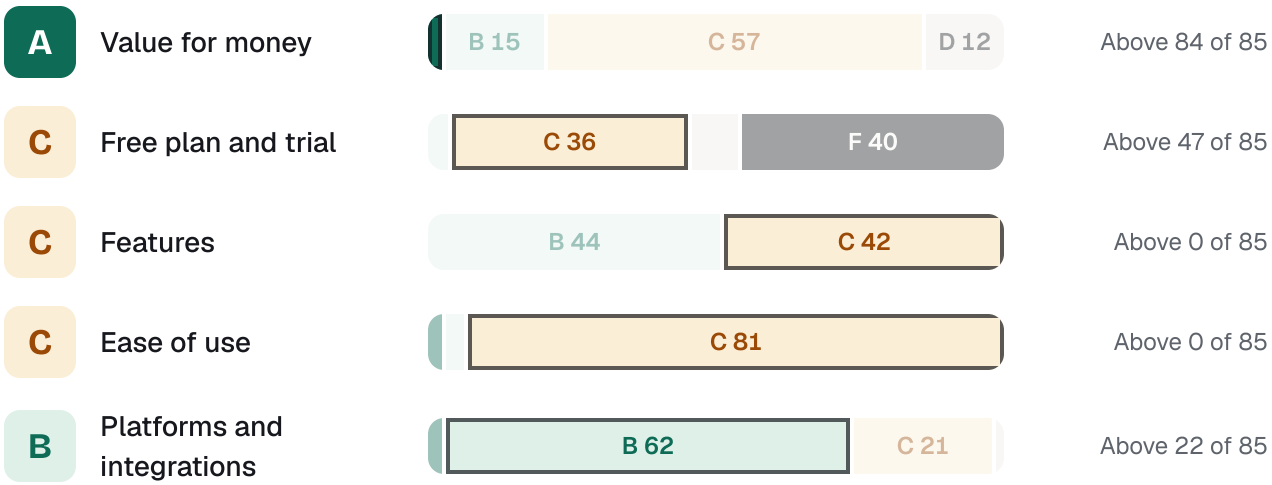

It stands best on value for money (A, above 84 of 85) and worst on features (C, above 0).

Its paid plans start at about $13.40 a month, against a middle price of $49 for the category: 1 of the 57 others that charge start lower.

Each grade against the category

Every bar is all 86 salon, spa and studio booking apps we grade, cut by the letter each got. Gymcatch's own letter is outlined.

Price against what you get

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Gymcatch you would be making checkout, card payments and sales tax handled for you. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 75 of the 85 other salon, spa and studio booking apps we grade. It costs $160.79 a year.

What you could make

- Class booking, appointment booking and reports: an app builder makes these well.

What you could not

- Checkout, card payments and sales tax handled for you.
- A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Gymcatch's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
