Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 22 of the 101 other HR software we grade

Hailey HR is an HR system from a Stockholm company that covers employee records, contracts, recruitment, onboarding, time off, performance reviews, salary reviews and surveys in one platform. HR staff work in the web app, while managers and employees mostly use the mobile app. It is sold as a single all-inclusive plan, priced per active employee on request.

To get you started, here are **7 things to know about Hailey HR**, taken from its own pages and our grades.

1 **Best for HR for Nordic companies, mobile-first**

You can't see a price, there's an implementation fee on top, it doesn't run payroll, and a demo is the only way in.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 **Employee data and contracts**

Keeps employment history, digital employee files, document folders and contracts with e-signature in one record per person.

4 **Workflows**

Custom workflows for pre-, on- and offboarding send tasks automatically, can repeat on a schedule and can be triggered by a time-off event.

5 **Recruitment and preboarding**

Job ads, a career page, a talent pool, reference checking and a portal where candidates complete preboarding steps.

6 **A 1.8 GPA, above 22 of 101**

That is against the other HR software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Hailey HR you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

TOOLGPA REPORT CARD	Hailey HR	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price published: it depends on active employees, plus a one-off implementation fee. That puts it in the middle by default.
Free plan and trial	F	No free plan or trial; you request a demo.
Features	C	Records, contracts, hiring, time off, reviews, surveys and analytics. It doesn't run payroll, and connects to Fortnox, Visma and Crona Lön instead.
Ease of use	C	No store rating on record. An implementation project comes first.
Platforms and integrations	B	Web for HR, mobile apps for staff, and links to Slack, Teams, Google Workspace, Entra ID and Okta. No desktop app.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

22/101

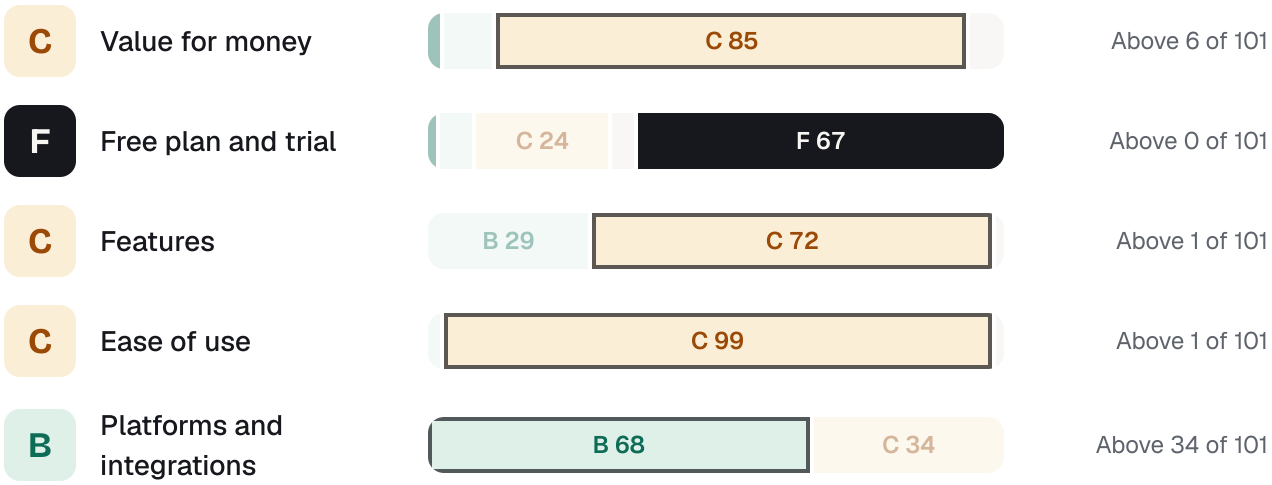

Other HR software it is graded above

Hailey HR's GPA of 1.8 is higher than 22 of the 101 other HR software we grade, and level with 33.

It stands best on platforms and integrations (B, above 34 of 101) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 102 HR software we grade, cut by the letter each got. Hailey HR's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Hailey HR you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 46 of the 101 other HR software grade higher.

What you could make

- Employee records, time off, applicant tracking, surveys and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Hailey HR's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
