TOOLGPA REPORT CARD — **Hancom Office** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT

Free plan and trial	B	Hancom Docs Free gives web and mobile apps, a Windows and Mac viewer and 2 GB of storage.

SUBJECT	GRADE	COMMENT
Features	C	Hangul word processor, spreadsheet, slides, PDF and AI add-ons. Gaps: free users get a viewer on computers, and subscription terms aren't readable.
Ease of use	C	No store rating on record. The buying pages are in Korean and in won, which adds friction for most readers.
Platforms and integrations	B	Windows, Mac, Android, iPhone and web, but no API or integrations are listed.
Grade point average		Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Hancom Office is for

- ✓ Fits if you work with Hangul or HWP files
- ✓ Works for Korean-language offices that want one suite across devices

Who it is not for

- ✗ Skip it if you want a dollar price, because the store pages show won only
- ✗ Not for you if you want a Mac or Linux download edition, since the download editions target Windows 11 or later
- ✗ Tight if you stay on the free tier, where computers get a viewer rather than an editor
- ✗ Watch out: Home licences cover one PC and subscription prices weren't readable on the pages

Good to know

Good for

- ✓ People who exchange Korean HWP documents
- ✓ Users who want one-time Windows license instead of a subscription
- ✓ Households that need an office suite across phone, tablet and PC

Worth knowing

- ⓘ The store pages that carry the prices are in Korean and priced in won; no US dollar price was readable.
- ⓘ Subscription prices for Hancom Docs Personal and Business are not shown on the pages that could be read.
- ⓘ The download editions listed target Windows 11 or later, and the store page says one PC per home license.
- ⓘ Hancom Docs Free stops at web and mobile apps and a viewer on Windows and Mac.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

76/136

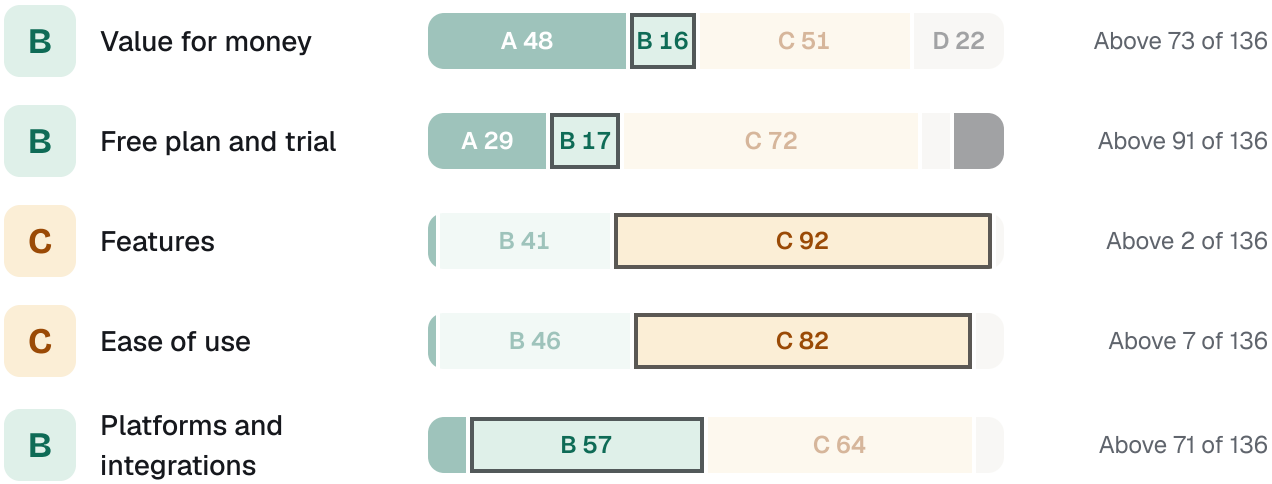

Other writing tools it is graded above

Hancom Office's GPA of 2.6 is higher than 76 of the 136 other writing tools we grade, and level with 18.

It stands best on free plan and trial (B, above 91 of 136) and worst on features (C, above 2).

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Hancom Office you would be making a spreadsheet engine with its formulas. That is not a weekend's work, with an AI app builder or without one.

What you could make

- Documents: an app builder makes this well.

What you could not

- A spreadsheet engine with its formulas.
- A slide editor.
- Editing the text inside a PDF without breaking its layout.
- Apps for macOS, Windows, iOS and Android that stay in step with each other.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Hancom Office's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
