07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Heimdal's own pages, its app-store listings and our grades. Every fact in it is on Heimdal's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 14 of the 56 other antivirus apps we grade

Heimdal is a cloud-based cybersecurity platform for enterprises, MSPs and MSSPs. Its modules cover next-gen antivirus and firewall, DNS security, patch management, privileged access, email security and threat hunting, with a 24x7 SOC service on top. It is sold through a quote request rather than a public price list.

To get you started, here are **7 things to know about Heimdal**, taken from its own pages and our grades.

> "
>
> **No prices are published and the site points buyers to a pricing request form.**
>
> From our report card of Heimdal

1 **Best for MSPs that want security modules from one vendor**

Heimdal bundles antivirus, DNS filtering and a SOC into a platform, sold as modules.

2 **It runs on Web**

Web.

3 **Next-gen antivirus and firewall**

Endpoint security modules include antivirus, firewall and ransomware encryption protection.

4 **DNS security**

DNS filtering is offered for both the network and the endpoint.

5 **Patch and asset management**

Vulnerability management with patch and asset management and unified endpoint tools such as remote desktop and BitLocker management.

6 **A 2.0 GPA, above 14 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Heimdal you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for MSPs that want security modules from one vendor

Heimdal bundles antivirus, DNS filtering and a SOC into a platform, sold as modules. No prices are published and the site points buyers to a pricing request form. The pages read list no endpoint operating systems.

TOOLGPA REPORT CARD	Heimdal	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there is nothing to set against this category's $2.58 to $6.50 a month; the listing says it is by quote. The site points to a pricing request form.
Free plan and trial	D	A trial sign-up and a demo are offered but trial terms were not stated on the pages read.
Features	C	Antivirus, DNS filtering and SOC services, sold separately and in bundles, so the cost and the job depend on the mix chosen.
Ease of use	C	Business product with a console and agents to roll out; no store rating is on record and the listing shows setup work, so it sits at the ordinary grade.
Platforms and integrations	B	A web console with ConnectWise RMM, Autotask PSA, HaloPSA, Cisco Meraki and Palo Alto integrations. No operating systems or phone apps are listed.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Heimdal is for

- ✓ Fits if you run an MSP that already uses ConnectWise or Autotask
- ✓ Works for teams that want DNS filtering and antivirus from one vendor

Who it is not for

- ✗ Not for you if you want a published price, as buyers fill in a request form
- ✗ Pricey if you add modules, since they are sold separately and the cost depends on the mix
- ✗ Watch out: trial terms were not stated on the pages read
- ✗ Watch out: no endpoint operating systems are listed on the pages read

Good to know

Good for

- ✓ MSPs and MSSPs reselling security modules
- ✓ Mid-size and enterprise IT teams consolidating several security tools

Worth knowing

- ⓘ No prices are published; the site points buyers to a pricing request form.
- ⓘ Modules are sold separately and in platform bundles, so the cost depends on the mix chosen.
- ⓘ The pages read list no endpoint operating systems, so platform support is unconfirmed.
- ⓘ The homepage offers a demo and a trial sign-up, but trial terms were not stated on the pages read.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Heimdal's current pricing could not be confirmed from its own site.

> **The site points to a pricing request form.**
>
> From our grade for value for money

We could not confirm Heimdal's current prices from its own site, so this guide lists no plans. heimdalsecurity.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Unified security platform with antivirus, DNS filtering and SOC. Here is what it does, as its own site describes it, and what it covers: AI features, reports, malware protection.

> **Antivirus, DNS filtering and SOC services, sold separately and in bundles, so the cost and the job depend on the mix chosen.**
>
> From our grade for features

Next-gen antivirus and firewall

Endpoint security modules include antivirus, firewall and ransomware encryption protection.

DNS security

DNS filtering is offered for both the network and the endpoint.

Patch and asset management

Vulnerability management with patch and asset management and unified endpoint tools such as remote desktop and BitLocker management.

Privileged access and application control

Privilege elevation, privileged account and session management, and application control modules.

EDR, XDR and 24x7 SOC

Platform services range from endpoint detection to managed extended detection and response with a 24x7 SOC.

Where it runs

Web

What it works with

ConnectWise RMM

Autotask PSA

HaloPSA

Cisco Meraki Firewall

Palo Alto

Heimdal is made by Heimdal.

Where it stands

Its grades against its category, and whether to keep it or make your own

14/56

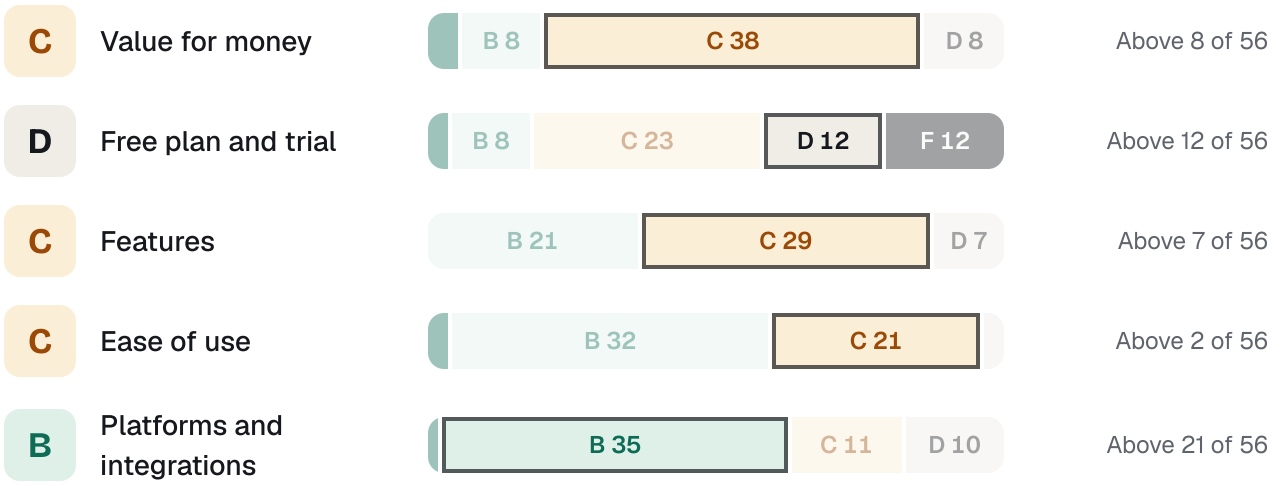

Other antivirus apps it is graded above

Heimdal's GPA of 2.0 is higher than 14 of the 56 other antivirus apps we grade, and level with 11.

It stands best on platforms and integrations (B, above 21 of 56) and worst on free plan and trial (D, above 12).

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. Heimdal's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Heimdal you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 31 of the 56 other antivirus apps grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- An engine that recognises new malware as it appears.
- It plugs into other products, ConnectWise RMM, Autotask PSA and HaloPSA among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Heimdal's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

ThreatLocker, Blackpoint Cyber, Huntress and WithSecure Elements

The 4 tools Heimdal is most often weighed against, with where each one differs from it.

1.8 GPA

ThreatLocker

Free trial

Zero trust endpoint control: allowlisting and ringfencing.

- Heimdal also covers reports.

Heimdal and ThreatLocker compared in full

1.8 GPA

Blackpoint Cyber

Free trial

24/7 managed detection and response for MSPs.

- Heimdal also covers reports.

Heimdal and Blackpoint Cyber compared in full

2.0 GPA

Huntress

Free trial · from $8.99/mo

Managed endpoint detection and response with a 24/7 human SOC.

- Only Huntress lists Windows, macOS and Linux apps.

Heimdal and Huntress compared in full

2.4
GPA

WithSecure Elements

Free trial · from €16.90/mo

Modular endpoint, exposure and MDR platform from WithSecure.

- Only WithSecure Elements lists Windows, macOS, Linux, iOS and Android apps.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Heimdal free?

No. Heimdal is a paid product.

What platforms does Heimdal work on?

Heimdal is available on Web.

Does Heimdal have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Heimdal is listed for Web.

Does Heimdal have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Heimdal is listed for Web.

Is Heimdal open source?

Heimdal is not described as open source on its own site, as read on Nov 13, 2026.

What does Heimdal integrate with?

Heimdal's listing names ConnectWise RMM, Autotask PSA, HaloPSA, Cisco Meraki Firewall and Palo Alto.

Who makes Heimdal?

Heimdal is made by a company of the same name.

What are the alternatives to Heimdal?

The closest alternatives to Heimdal in our directory are ThreatLocker, Blackpoint Cyber, Huntress and WithSecure Elements.

How does Heimdal compare with other antivirus apps?

Heimdal's GPA of 2.0 is higher than 14 of the 56 other antivirus apps we grade, and level with 11.

Could I make my own version of Heimdal?

To replace Heimdal you would be making an engine that recognises new malware as it appears.

Where this guide comes from

The prices, plans, platforms and features were read from Heimdal's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Heimdal's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Heimdal. Prices change, so check heimdalsecurity.com before you buy.

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at toolgpa.com.
