The report card

Best for an AI workspace for research, slides and video

HIX AI bundles chat models, deep research, slides, images and video, all paid for in credits. The free plan gives 20 credits, and the pricing page showed pesos from our location with no dollar prices, so paid costs aren't confirmed.

TOOLGPA REPORT CARD	HIX AI	Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No paid dollar price could be read, so it sits in the middle. About 1,500 credits buys roughly three ten-slide decks, per the vendor.
Free plan and trial	C	Free: 20 credits, a project space with 5 uploads and 100MB. That covers very little generation.
Features	C	Model library, deep research, slides, image, video and writing agents. Everything beyond chat runs on credits.
Ease of use	C	No store rating on record. A web workspace with several agents and a credit system to learn.
Platforms and integrations	C	Web and a browser extension. No phone or desktop app and no integrations are listed.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who HIX AI is for

- ✓ Fits if you want slides, images and video from one credit pool
- ✓ Works for someone who wants to compare several chat models

Who it is not for

- ✕ Tight if you stay free: 20 credits and 100MB of project storage
- ✕ Watch out: dollar prices were blank on the pricing page, so paid cost is unknown
- ✕ Watch out: credits reset each billing cycle
- ✕ Watch out: unlimited chat with standard models is for paid plans only

Good to know

Good for

- People who want slides, images and research from one login
- Marketers drafting social copy and visuals
- Anyone who wants to try several models on a free credit balance

Worth knowing

- Paid usage is metered in credits; 1,500 credits is about 3 ten-slide decks or 30 seconds of video, per the vendor.
- The free plan's 20 credits cover little generation, and the credit balance resets each billing cycle.
- The pricing page showed Philippine pesos from our location and left dollar prices blank, so paid prices are not listed.
- Chat with standard models is described as unlimited on paid plans only.

Keep it, or make your own?

Keep it

To replace HIX AI you would be making an AI model, which you can rent by the request but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 63 of the 71 other AI assistants grade higher.

What you could not

- ✕ An AI model, which you can rent by the request but not make.
- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ A library of papers and sources to search.
- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.
- ✕ A slide editor.

What this rests on. HIX AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
