3/89

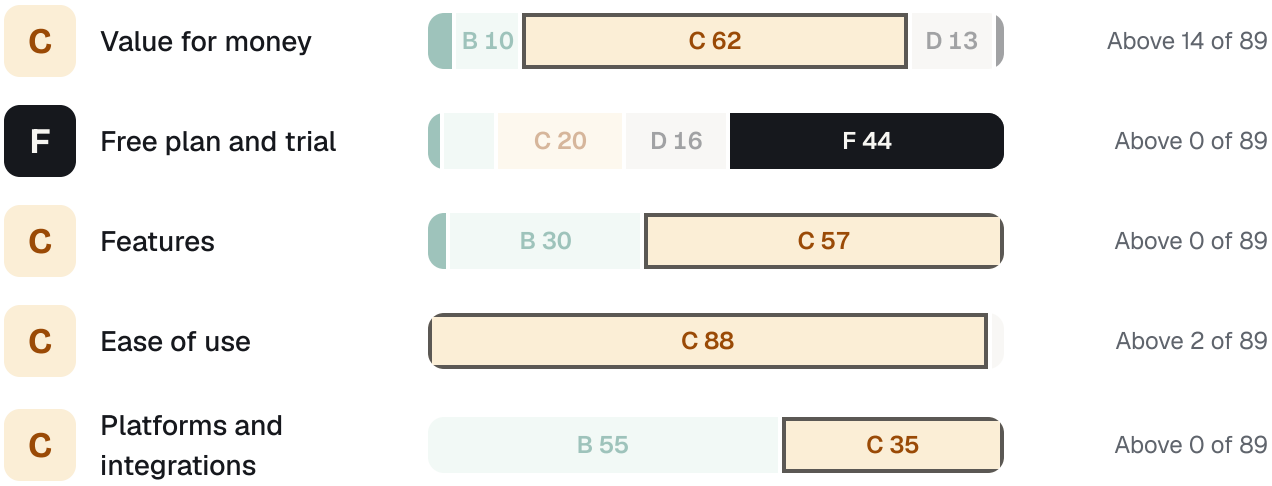

Other affiliate and referral tools it is graded above

It stands best on value for money (C, above 14 of 89) and worst on free plan and trial (F, above 0).

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Income Access you would be making payouts to partners in many countries, with their tax forms. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 68 of the 89 other affiliate and referral tools grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- Payouts to partners in many countries, with their tax forms.
- Every click and sale traced back to the right partner.

What this rests on. Income Access's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
