Interior AI redesigns a room from a photo. Pick a room type and one of 55+ styles, and it generates new interiors, or it can furnish an empty space for real estate. It also handles exteriors and gardens, sketches and SketchUp screenshots. Higher plans add editing, upscaling and walkthrough videos.

Virtual staging and editing sit on Premium, and Pro renders are low quality.

**2** **Paid plans start at $29 a month**

**3** **It runs on Web**

**6** **Sketch and SketchUp input**

Turns a sketch or a SketchUp screenshot into a photorealistic render, alongside modes for style transfer and outdoor design.

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

**8** **Keep it**

To replace Interior AI you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

PART 04 · STANDING

# Where it stands

Its grades against its category, and whether to keep it or make your own

**1**/168

Other AI image and video generators it is graded above

Interior AI's GPA of 1.4 is higher than 1 of the 168 other AI image and video generators we grade, and level with 4.

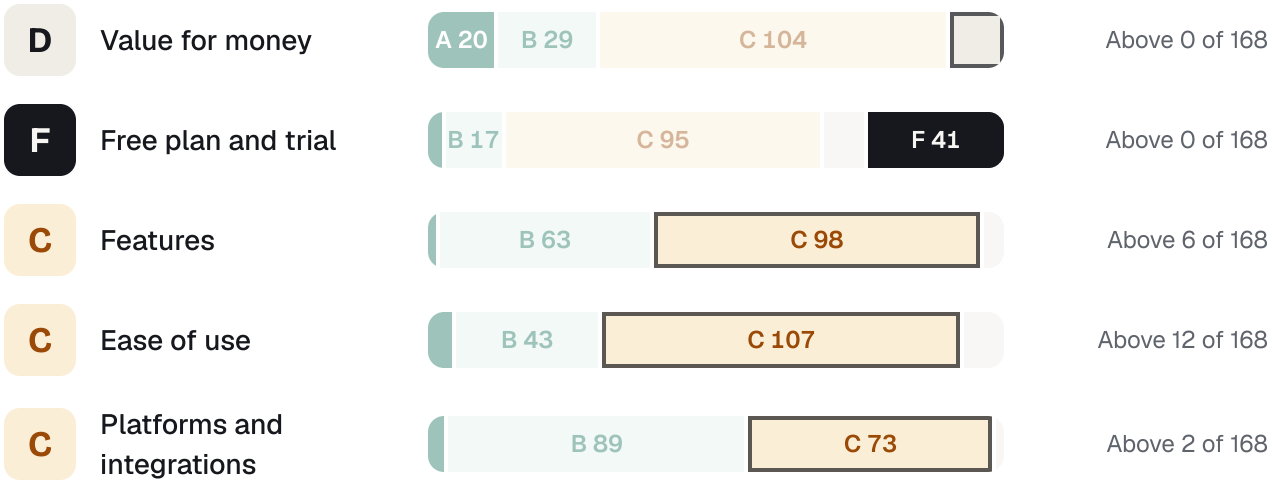

It stands best on ease of use (C, above 12 of 168) and worst on free plan and trial (F, above 0).

Its paid plans start at $29 a month, against a middle price of $11.88 for the category: 110 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 89 tools score higher and cost less.

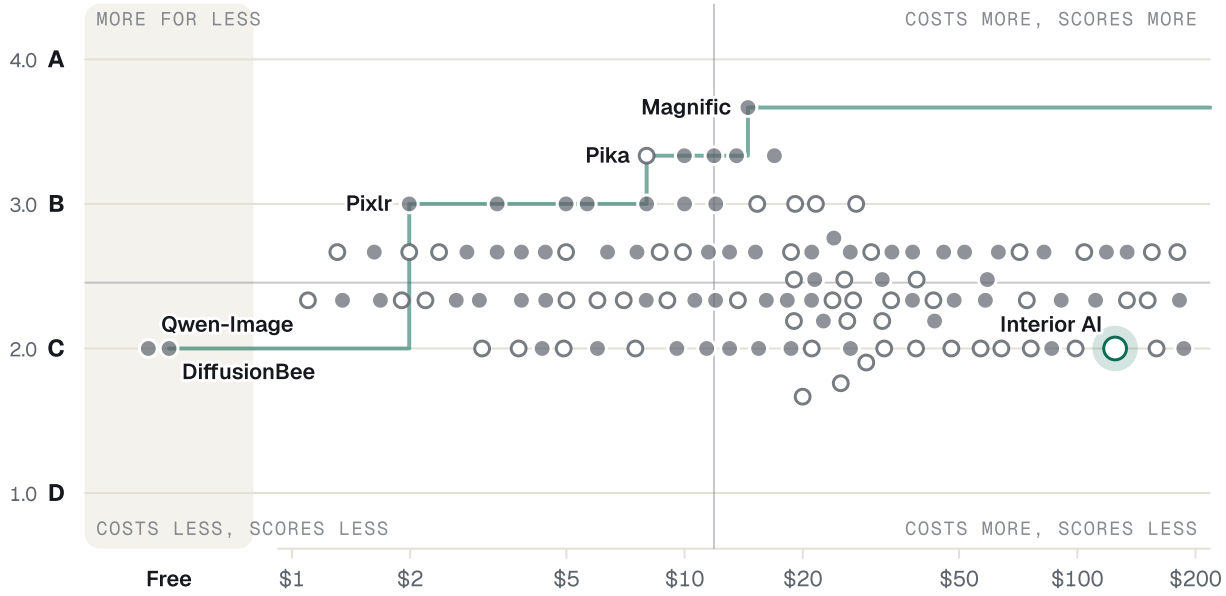

## Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Interior AI's own letter is outlined.

## Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. Interior AI is the marked dot.

What paid plans start at, a month (each step along is roughly double)

## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

### Keep it

To replace Interior AI you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 163 of the 168 other AI image and video generators grade higher. It costs $348 a year.

**What you could not**

- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.

- ✕ AI features, unless you pay a model provider for each request yourself.

**What this rests on.** Interior AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
