Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 94 of the 127 other accounting and invoicing tools we grade

Invoice Home is a web and mobile invoicing service built around more than 100 invoice templates. Users create invoices, estimates, quotes and receipts, send them as PDFs by email, and collect payment through PayPal or Stripe links. A free plan covers up to $1,000 in invoices per 30 days; one paid plan removes that cap.

To get you started, here are **9 things to know about Invoice Home**, taken from its own pages and our grades.

> **A web and phone tool where you pick a template and fill it in, and no store rating on record.**
>
> From our grade for ease of use

It is an invoicing tool only, and its website shows no pricing page.

2 **Paid plans start at $6.99 a month**

As its pricing page puts it: $6.99 per month.

3 There is a free plan

Create up to $1,000 in invoices per 30 days, with all 100+ templates.

4 It runs on 3 platforms

Web, iOS and Android.

5 Invoice templates

More than 100 designed templates, with your own logo or one of the supplied logos, in basic and advanced invoice forms.

6 Estimates, quotes and receipts

An estimate can be converted into an invoice, and invoices can be turned into receipts or copied to start a new one.

7 Online payments

Invoices can carry a payment link for PayPal or Stripe, and invoices paid that way are marked as paid automatically.

8 A 2.6 GPA, above 94 of 127

That is against the other accounting and invoicing tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

The plain part of Invoice Home you could make: invoicing, quotes and estimates and templates. What surrounds it you could not. The 1 things listed below take a company, not a weekend.

- ✕ Watch out: no pricing page is on the website, and the $6.99 figure comes from the App Store listing
- ✕ Watch out: online payments are limited to PayPal and Stripe
- ✕ Watch out: the App Store page would not load here, so the price is from the listing
