07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Island Enterprise Browser's own pages, its app-store listings and our grades. Every fact in it is on Island Enterprise Browser's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 3 of the 60 other browsers we grade

Island is a Chromium-based browser sold to organizations, with access, data and device policies built into the browser itself. Admins can set conditional access, limit actions such as copy, print and download, and review work activity, and Island also offers a browser extension for browsers a company already uses. It is sold through demos and quotes, not a public price list.

> "
>
> **It is aimed at organizations, so admins set up policies before anyone uses it.**
>
> From our grade for ease of use

To get you started, here are **7 things to know about Island Enterprise Browser**, taken from its own pages and our grades.

1 **Best for company-wide browser controls and data limits**

Island is a Chromium-based browser sold to organizations, with access, data and device rules built into it.

2 **It runs on 5 platforms**

Windows, macOS, Linux, iOS and Android, with a browser extension too.

3 **Conditional application access**

Admins set access rules that check identity, device, network, location and application, enforced inside the browser.

4 **Data controls**

Policies govern print, downloads, screenshots and copy/paste, including after data leaves the browser, to limit leakage between apps.

5 **Activity visibility**

Work activity is logged and can be shared with a SIEM, while a privacy indicator tells users when they are monitored and personal browsing stays private.

6 **A 1.8 GPA, above 3 of 60**

That is against the other browsers we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Island Enterprise Browser you would be making a web browser. That is not a weekend's work, with an AI app builder or without one.

Island Enterprise Browser at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON macOS, Windows, Linux, iOS, Android, Browser extension
MADE BY Island	CATEGORY Browsers
OUR GRADE 1.8 GPA, weak	

The report card

Best for company-wide browser controls and data limits

Island is a Chromium-based browser sold to organizations, with access, data and device rules built into it. There is no published price and no free tier, the pricing page returns an error, and the extension covers most but not all of the full browser.

TOOLGPA REPORT CARD	Island Enterprise Browser	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so it is a C: the site offers a demo and a quote request, and its pricing page returned a 404 error.
Free plan and trial	F	Nothing is free. Access runs through a demo and a quote, and the download needs a login as an existing Island user.
Features	C	Conditional access, copy, print and download limits, activity review and threat protection, but the extension supports most, not all, of the full browser.
Ease of use	C	No rating on record. It is aimed at organizations, so admins set up policies before anyone uses it.
Platforms and integrations	B	Windows, macOS, Linux, iOS, Android and a browser extension, with Zoom, Slack, Microsoft Teams and WhatsApp named.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Island Enterprise Browser is for

- ✓ Fits if your IT team wants browser rules over copy, print and download
- ✓ Makes sense if you want one policy set on laptops and phones

Who it is not for

- ✕ Skip it if you need a price before talking to sales, as none is published
- ✕ Not for you if you work alone, since it is sold to organizations
- ✕ Watch out: there is no free plan or trial listed, only a demo
- ✕ Watch out: the extension supports most but not all of the full browser's capabilities
- ✕ Tight if you cannot get a login: the download requires being an existing Island user

Good to know

Good for

- ✓ Security teams that want policy enforced inside the browser
- ✓ Companies onboarding contractors or BYOD staff
- ✓ IT teams looking to reduce virtual desktop use

Worth knowing

- ⓘ No prices are published: the site offers a demo and a quote request, and its /pricing page returns an error.
- ⓘ Aimed at organizations; the download requires logging in as an existing Island user.
- ⓘ The extension supports most but not all of the full browser's capabilities because extensions have restrictions.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Island Enterprise Browser's current pricing could not be confirmed from its own site.

> **Access runs through a demo and a quote, and the download needs a login as an existing Island user.**
>
> From our grade for free plan and trial

We could not confirm Island Enterprise Browser's current prices from its own site, so this guide lists no plans. island.io has them.

What it does

Its main features, where it runs, what it works with and who makes it

6

Places it runs: macOS, Windows, Linux, iOS, Android and Browser extension

Chromium-based work browser with built-in security controls. Here is what it does, as its own site describes it, and what it covers: AI features, web browser, ad and tracker blocking.

> **Windows, macOS, Linux, iOS, Android and a browser extension, with Zoom, Slack, Microsoft Teams and WhatsApp named.**
>
> From our grade for platforms and integrations

Conditional application access

Admins set access rules that check identity, device, network, location and application, enforced inside the browser.

Data controls

Policies govern print, downloads, screenshots and copy/paste, including after data leaves the browser, to limit leakage between apps.

Activity visibility

Work activity is logged and can be shared with a SIEM, while a privacy indicator tells users when they are monitored and personal browsing stays private.

Web threat protection

The browser includes protections against malware, phishing and session hijacking, per Island's product page.

Extension option

A browser extension covers most of the full browser's capabilities on Chrome, Edge, Safari, Firefox and other Chromium-based browsers.

Built-in productivity tools

Users get an AI assistant, a smart clipboard, an ad and tracker blocker and a geolocation anonymizer, according to Island.

Where it runs

- macOS
- Windows
- Linux
- iOS
- Android
- Browser extension

What it works with

- Zoom
- Slack
- Microsoft Teams
- WhatsApp

Island Enterprise Browser is made by Island.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

3/60

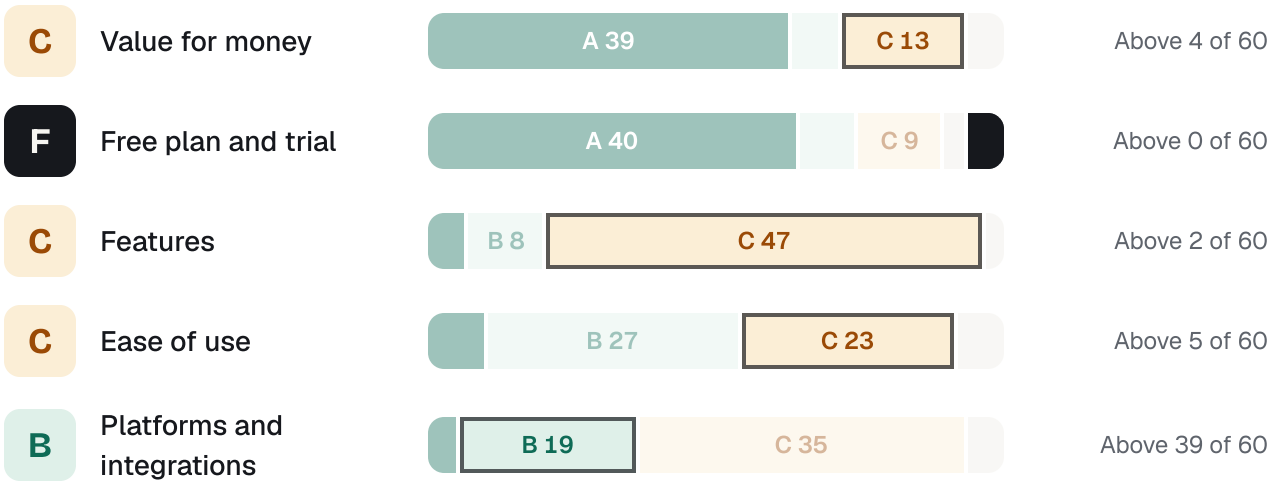

Other browsers it is graded above

Island Enterprise Browser's GPA of 1.8 is higher than 3 of the 60 other browsers we grade, and level with 2.

It stands best on platforms and integrations (B, above 39 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 browsers we grade, cut by the letter each got. Island Enterprise Browser's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Island Enterprise Browser you would be making a web browser. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 55 of the 60 other browsers grade higher.

What you could make

- Ad and tracker blocking: an app builder makes this well.

What you could not

- A web browser.
- Apps for macOS, Windows, Linux, iOS and Android that stay in step with each other.
- AI features, unless you pay a model provider for each request yourself.
- Sharing with other people, which means accounts and invitations.

What this rests on. Island Enterprise Browser's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Surf Security, Menlo Security, Authentic8 Silo and Kasm Workspaces

The 4 tools Island Enterprise Browser is most often weighed against, with where each one differs from it.

1.8 GPA

Surf Security

Paid

Zero trust Chromium browser and extension for enterprises.

- Island Enterprise Browser also covers ad and tracker blocking.

Island Enterprise Browser and Surf Security compared in full

1.6 GPA

Menlo Security

Paid

Cloud browser security platform for enterprises.

- Only Island Enterprise Browser lists Windows, macOS, Linux, iOS and Android apps.
- Only Menlo Security lists a web app.
- Island Enterprise Browser also covers ad and tracker blocking.

Island Enterprise Browser and Menlo Security compared in full

1.6
GPA

Authentic8 Silo

Free trial · from $1,450/yr

Isolated cloud browser workspace for digital investigations.

- Only Island Enterprise Browser lists Windows, macOS, Linux, iOS and Android apps.
- Only Island Enterprise Browser lists a browser extension.
- Only Authentic8 Silo lists a web app.

Island Enterprise Browser and Authentic8 Silo compared in full

2.2
GPA

Kasm Workspaces

Free plan

Containerized desktops, apps and browsers streamed to a browser.

- Kasm Workspaces has a free plan. Island Enterprise Browser does not.
- Only Island Enterprise Browser lists Windows, macOS, Linux, iOS and Android apps.
- Only Island Enterprise Browser lists a browser extension.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

8

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Island Enterprise Browser free?

No. Island Enterprise Browser is a paid product.

What platforms does Island Enterprise Browser work on?

Island Enterprise Browser is available on Windows, macOS, Linux, iOS and Android.

Is Island Enterprise Browser open source?

Island Enterprise Browser is not described as open source on its own site, as read on Nov 13, 2026.

What does Island Enterprise Browser integrate with?

Island Enterprise Browser's listing names Zoom, Slack, Microsoft Teams and WhatsApp.

Who makes Island Enterprise Browser?

Island Enterprise Browser is made by Island.

What are the alternatives to Island Enterprise Browser?

The closest alternatives to Island Enterprise Browser in our directory are Surf Security, Menlo Security, Authentic8 Silo and Kasm Workspaces.

How does Island Enterprise Browser compare with other browsers?

Island Enterprise Browser's GPA of 1.8 is higher than 3 of the 60 other browsers we grade, and level with 2.

Could I make my own version of Island Enterprise Browser?

To replace Island Enterprise Browser you would be making a web browser.

Where this guide comes from

The prices, plans, platforms and features were read from Island Enterprise Browser's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Island's own pages on 13 November 2026; its /pricing page returned a 404 error, as the listing says. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Island. Prices change, so check island.io before you buy.

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at toolgpa.com.
