07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from iThink Logistics's own pages, its app-store listings and our grades. Every fact in it is on iThink Logistics's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 12 of the 80 other shipping software we grade

iThink Logistics is a courier aggregator for Indian online sellers. Sellers ship through several courier partners from one platform that connects to stores and marketplaces, prints labels, offers white-label tracking and handles failed-delivery follow-up. Its pages do not publish rates.

To get you started, here are **7 things to know about iThink Logistics**, taken from its own pages and our grades.

> "
>
> **Channels and couriers have to be connected first.**
>
> From our grade for ease of use

1 **Best for couriers on one platform in India**

It publishes no rates or plans, and the pricing address on its site returns a not-found page.

2 **It runs on Web**

Web.

3 **Multiple couriers on one platform**

Book several courier partners across 29,000+ serviceable Indian pin codes, and international shipping, from a single dashboard.

4 **Courier recommendation**

A recommendation engine suggests the cheapest or fastest courier per order and uses auto reattempt to cut return-to-origin.

5 **NDR and COD handling**

A workflow for non-delivery reports, a weight-discrepancy process, and weekly and next-day COD remittance options.

6 **A 1.8 GPA, above 12 of 80**

That is against the other shipping software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace iThink Logistics you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for couriers on one platform in India

iThink Logistics puts several couriers on one platform for Indian sellers, with courier suggestions, cash on delivery and non-delivery handling, and branded tracking. It publishes no rates or plans, and the pricing address on its site returns a not-found page.

TOOLGPA REPORT CARD

iThink Logistics

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No rates or plans are published, so it cannot be set against the category's $9, $19 and $34.99. The home page says there are no platform integration fees.
Free plan and trial	F	No free plan or trial is listed on the pages read.
Features	C	Multiple couriers, recommendations, cash on delivery and non-delivery handling, branded tracking and channel integrations. The FAQ answer on other charges was not readable.
Ease of use	C	No store rating is on record. Channels and couriers have to be connected first.
Platforms and integrations	B	Web, with Amazon, eBay, Shopify, WordPress, OpenCart and Magento, but no phone or desktop app.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who iThink Logistics is for

- ✓ Fits if you ship within India and want several couriers in one place
- ✓ Works for sellers with cash on delivery orders and returns to chase

Who it is not for

- ✗ Skip it if you want published rates, as none are shown and its pricing page is not found
- ✗ Not for you if you want a free plan or trial, since none is listed
- ✗ Tight if you ship outside India, as it serves shipping from India
- ✗ Watch out: the FAQ answer on other charges was not readable

Good to know

Good for

- ✓ Small Indian online stores and social sellers shipping with several couriers
- ✓ Marketplace sellers without their own website

Worth knowing

- ⓘ No rates or plans are published; the pricing URL on the site returns a not-found page.
- ⓘ The home page says there are no platform integration fees, but the FAQ answer on other charges was not readable.
- ⓘ Serves shipping from India.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

iThink Logistics's current pricing could not be confirmed from its own site.

> **The home page says there are no platform integration fees.**
>
> From our grade for value for money

We could not confirm iThink Logistics's current prices from its own site, so this guide lists no plans. ithinklogistics.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Indian courier aggregator with NDR, COD remittance and tracking. Here is what it does, as its own site describes it, and what it covers: public API, AI features, workflow automation, shipping labels.

> **Multiple couriers, recommendations, cash on delivery and non-delivery handling, branded tracking and channel integrations.**
>
> From our grade for features

Multiple couriers on one platform

Book several courier partners across 29,000+ serviceable Indian pin codes, and international shipping, from a single dashboard.

Courier recommendation

A recommendation engine suggests the cheapest or fastest courier per order and uses auto reattempt to cut return-to-origin.

NDR and COD handling

A workflow for non-delivery reports, a weight-discrepancy process, and weekly and next-day COD remittance options.

Branded tracking and updates

Custom shipping labels, white-label tracking pages and WhatsApp and SMS notifications to buyers.

Channel integrations

Connects Amazon, eBay, Shopify, WordPress, OpenCart and Magento stores, and offers an API for larger sellers.

Where it runs

Web

What it works with

Amazon
eBay
Shopify
WordPress
OpenCart
Magento

iThink Logistics is made by iThink Logistic Quick Services Pvt Ltd.

Where it stands

Its grades against its category, and whether to keep it or make your own

12/80

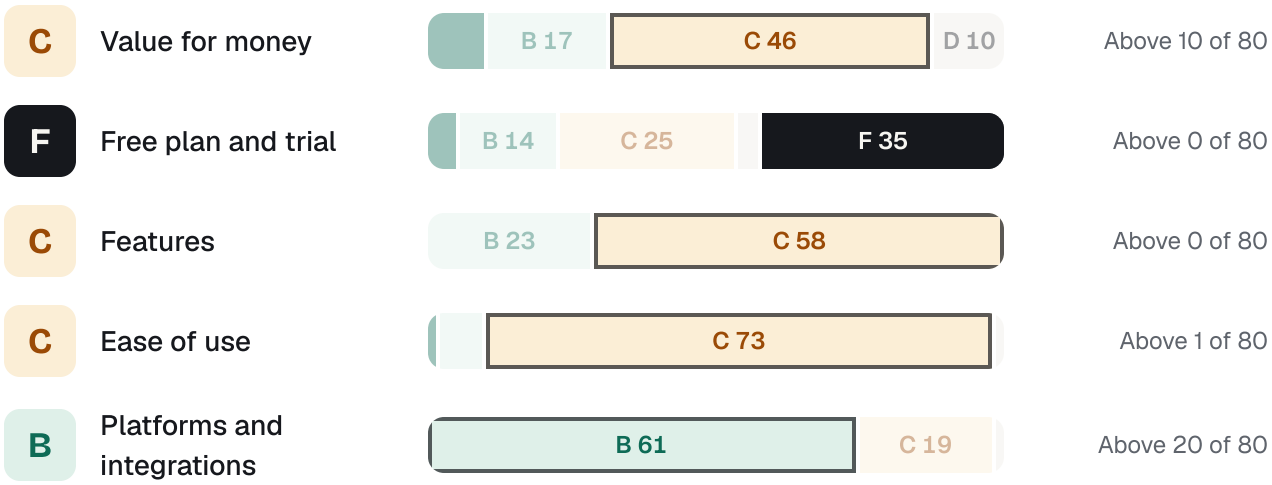

Other shipping software it is graded above

iThink Logistics's GPA of 1.8 is higher than 12 of the 80 other shipping software we grade, and level with 18.

It stands best on platforms and integrations (B, above 20 of 80) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 81 shipping software we grade, cut by the letter each got. iThink Logistics's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace iThink Logistics you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 50 of the 80 other shipping software grade higher.

What you could not

- ✕ Discounted carrier rates and labels, which take an agreement with each carrier.
- ✕ Connections to other products, each kept working as those products change.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. iThink Logistics's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Shiprocket, NimbusPost, Delhivery, ShipGlobal and ClickPost

The 5 tools iThink Logistics is most often weighed against, with where each one differs from it.
