TOOLGPA REPORT CARD — **Jobsoid** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$49 a month on yearly billing ($59 monthly) for 3 jobs puts it inside the category's cheaper quarter, which starts at $74. Video screening and scorecards need the $99 plan.

SUBJECT	GRADE	COMMENT
Free plan and trial	C	A free plan covers 1 job posting and 1 user with unlimited candidates, and the Standard plan has a 14-day trial with no card. One open job is a cap you'll hit.
Features	C	Job posting, careers page, workflow, screening and agency tools. The resume parser and email inbox are paid add-ons, which the listing names as gaps.
Ease of use	C	No store rating on record, and the listing shows a careers page and hiring workflow to set up. That puts it at C.
Platforms and integrations	B	Web, iPhone, Android and a browser extension, with LinkedIn and Facebook listed. No desktop program, so B.
Grade point average		Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

88/101

Other hiring and applicant tracking tools it is graded above

Jobsoid's GPA of 2.4 is higher than 88 of the 101 other hiring and applicant tracking tools we grade, and level with 8.

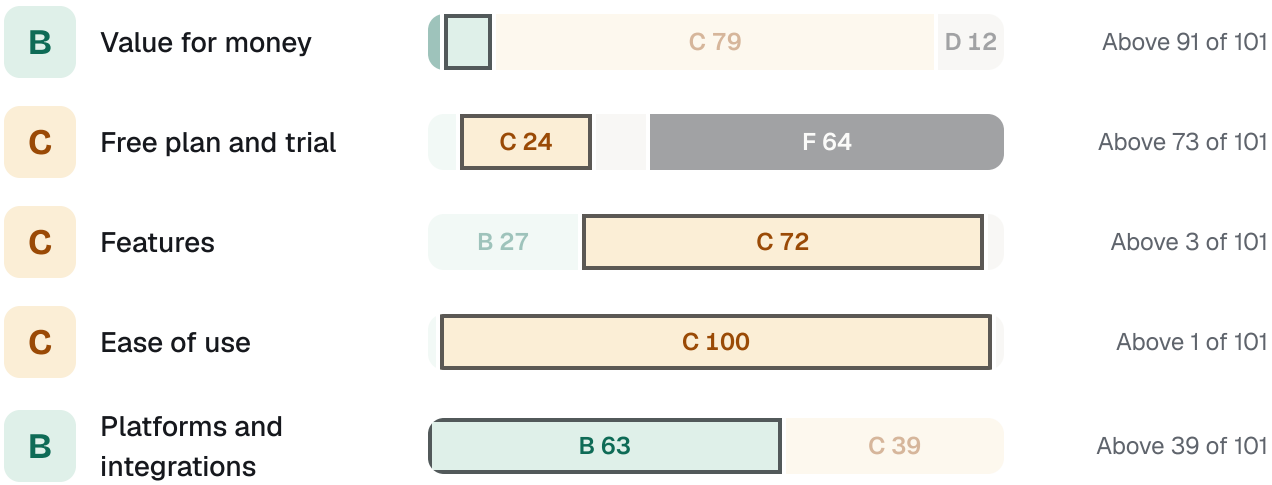

It stands best on value for money (B, above 91 of 101) and worst on ease of use (C, above 1).

Its paid plans start at $49 a month, against a middle price of $99 for the category: 5 of the 42 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 2 tools score higher and cost less.

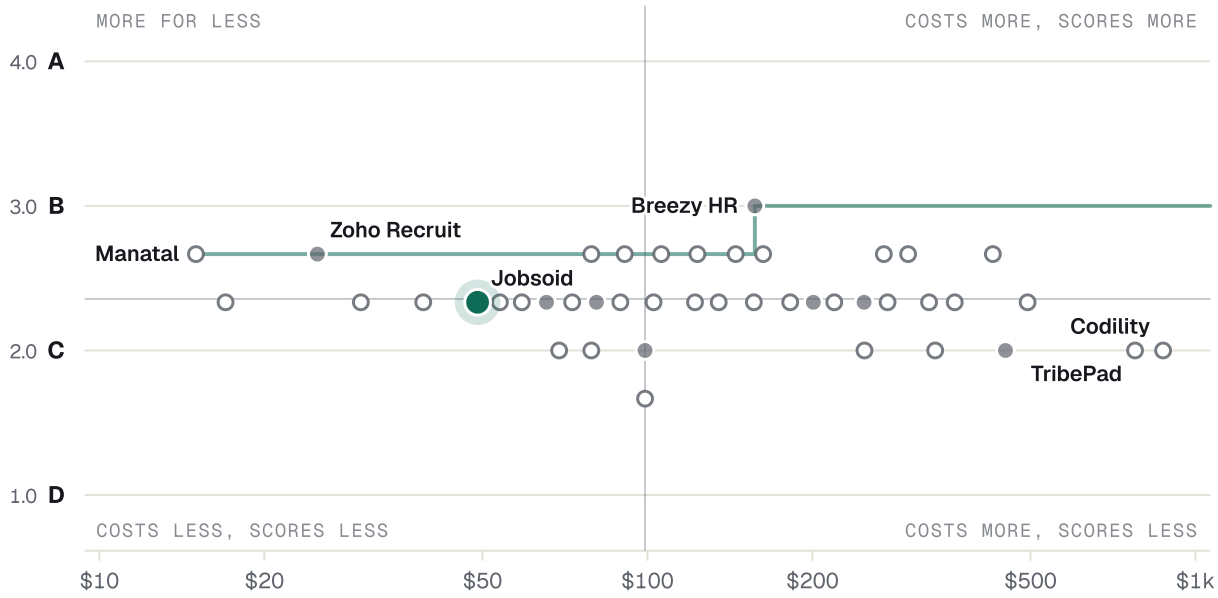

Each grade against the category

Every bar is all 102 hiring and applicant tracking tools we grade, cut by the letter each got. Jobsoid's own letter is outlined.

Price against what you get

Each dot is one of 43 hiring and applicant tracking tools. Further left costs less; higher up scores better on features, ease of use and platforms. Jobsoid is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Jobsoid you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.4 is higher than 88 of the 101 other hiring and applicant tracking tools we grade. It costs $588 a year.

What you could make

- Applicant tracking and reports: an app builder makes these well.

What you could not

- Jobs posted to dozens of job boards at once, which takes an agreement with each board.
- Connections to other products, each kept working as those products change.
- A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Jobsoid's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
