It costs $1,188 a year.

What you could make

- Applicant tracking: an app builder makes this well.

What you could not

- An AI agent, with the models and the safeguards behind it.

- ✕ It is priced for each person, which means accounts and billing for a team.

What this rests on. Juicebox's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
