Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 8 of the 15 other digital business cards we grade

KADO makes digital business cards that are shared by QR code, link, wallet pass or NFC, with a contact capture form built into each card. Team plans add branding controls, a card scanner, notes and tasks, and syncing of contacts to Salesforce, HubSpot or Dynamics. A free plan covers one user.

To get you started, here are **9 things to know about Kado Networks**, taken from its own pages and our grades.

> **You set up a profile, link your own NFC cards and connect accounts.**
>
> From our grade for ease of use

1 **Best for digital business cards for a small team**

KADO makes interactive digital business cards, with a free plan for one user and team plans from $2.50 a user a month.

2 **Paid plans start at $2.50 a month for each person**

As its pricing page puts it: $2.50 per user / month, billed monthly (Networker).

3 There is a free plan

Networker Lite: one user, interactive digital cards with full branding and animated backgrounds, video content and buttons, offline QR codes and a contact capture tool with CSV download.

4 It runs on 3 platforms

Web, iOS and Android.

5 Interactive digital cards

Cards carry your logo, colors, links and video, and are shared by QR code, link, wallet pass or NFC. A QR code can still be shown offline.

6 Contact capture

A form on each card collects leads. Contacts download as CSV on every plan, including the free one.

7 Card scanner

The Business Developer plan adds an intelligent scanner for QR codes, paper cards and similar sources.

8 A 2.6 GPA, above 8 of 15

That is against the other digital business cards we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Kado Networks you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for digital business cards for a small team

KADO makes interactive digital business cards, with a free plan for one user and team plans from $2.50 a user a month. The card scanner, notes, tasks and every integration start at Business Developer at $4, it sells no NFC cards of its own, and the email and calendar sync is partly beta or not out yet.

TOOLGPA REPORT CARD — **Kado Networks** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$2.50 per user a month for Networker, inside the cheapest quarter of business card tools, which start at $3.
Free plan and trial	B	Networker Lite is free for one user, with full branding, QR codes and contact capture with CSV download.

SUBJECT	GRADE	COMMENT
Features	C	Cards, contact capture, scanner and CRM sync. The listing names gaps: no NFC cards of its own, and scanner and integrations sit on Business Developer.
Ease of use	C	No store rating on record. You set up a profile, link your own NFC cards and connect accounts.
Platforms and integrations	B	Web, iPhone and Android, with Salesforce, HubSpot, Dynamics, Outlook and Zapier. No desktop app is listed.
Grade point average		Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Kado Networks is for

- ✓ Fits if you are one person who wants a branded digital card for free
- ✓ Works for small teams who already run Salesforce or HubSpot

Who it is not for

- ✗ Tight if you are staying free, as Lite is one user with no team management or analytics
- ✗ Skip it if you want NFC cards from the maker, as you buy them elsewhere
- ✗ Pricey if you need the card scanner, notes, tasks or integrations, which start at Business Developer at $4
- ✗ Watch out: Outlook sync is listed as beta and Gmail and Google Calendar sync as coming soon
- ✗ Watch out: the Business Developer trial length is not stated

Good to know

Good for

- ✓ Individuals who want a free branded digital card with a lead form
- ✓ Teams that want matching branded cards at a low per-seat price
- ✓ Sales teams that need captured contacts pushed into Salesforce or HubSpot

Worth knowing

- ⓘ KADO does not make or sell NFC cards; you source them from a third party and link them to your profile, and only Enterprise includes partner NFC supply.
- ⓘ The free plan is for one user and has no team management or analytics.
- ⓘ The card scanner, notes, tasks and all integrations need Business Developer or higher.
- ⓘ The pricing page lists Outlook email and calendar sync as beta, and Gmail and Google Calendar sync as coming soon.

Kado Networks is made by Kado Networks.

Where it stands

Its grades against its category, and whether to keep it or make your own

8/15

Other digital business cards it is graded above

Kado Networks's GPA of 2.6 is higher than 8 of the 15 other digital business cards we grade, and level with 2.

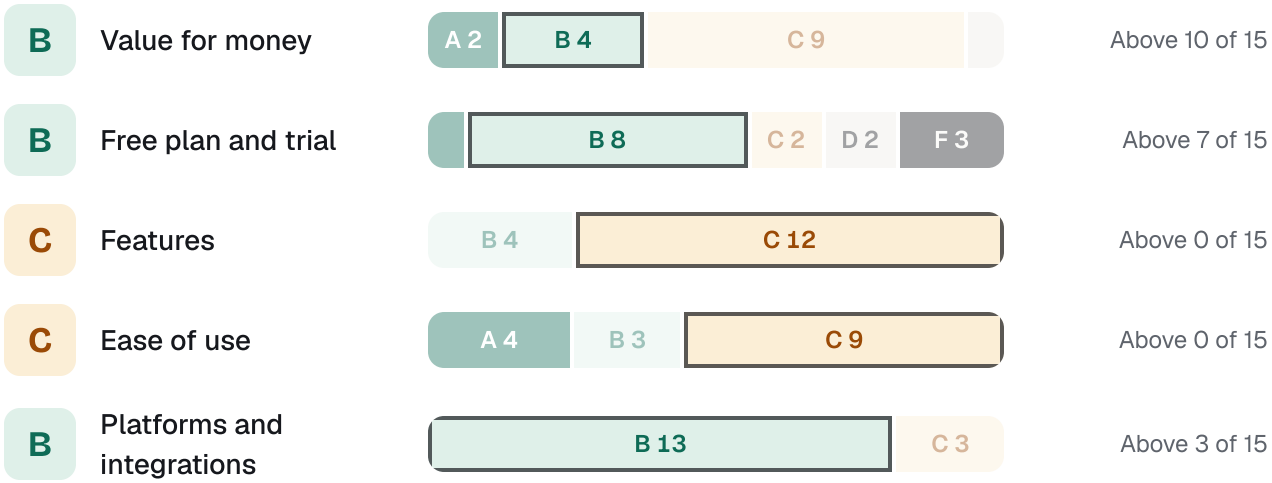

It stands best on value for money (B, above 10 of 15) and worst on features (C, above 0).

Its paid plans start at $2.50 a month for each person, against a middle price of $5 for the category: 0 of the 10 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

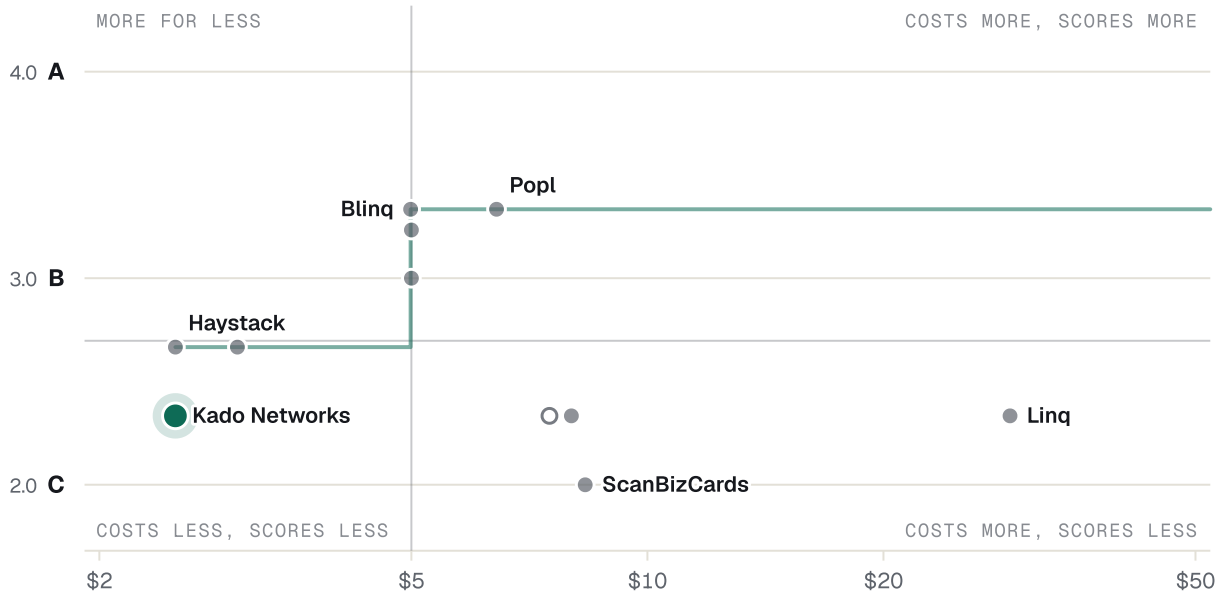

Each grade against the category

Every bar is all 16 digital business cards we grade, cut by the letter each got. Kado Networks's own letter is outlined.

Price against what you get

Each dot is one of 11 digital business cards. Further left costs less; higher up scores better on features, ease of use and platforms. Kado Networks is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Kado Networks you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

It costs $30 a year.

What you could make

- Digital business card, qR codes, sales pipeline and tasks: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.

- A real app for iOS and Android. Something home-made would be a web page.
- It is priced for each person, which means accounts and billing for a team.
- What a company asks for before it lets staff use something: SOC 2.

What this rests on. Kado Networks's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

HiHello, Blinq, Popl, Linq and Mobilo
