SUBJECT	GRADE	COMMENT
Value for money	B	Kahoot!+ Bronze is $3 a month billed annually, under 60% of the $7.95 that the cheaper quarter of presentation tools starts at. The tiers people use for bigger groups run $9, $15 and $25.
Free plan and trial	C	Kahoot! Go is free but caps a live game at 40 participants, which a full class can pass.
Features	C	Live and self-paced quizzes, polls and flashcards. The listing shows question types and AI limits that depend on the tier, so there are gaps on the cheaper plans.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

53/89

Other presentation tools it is graded above

Kahoot's GPA of 2.4 is higher than 53 of the 89 other presentation tools we grade, and level with 11.

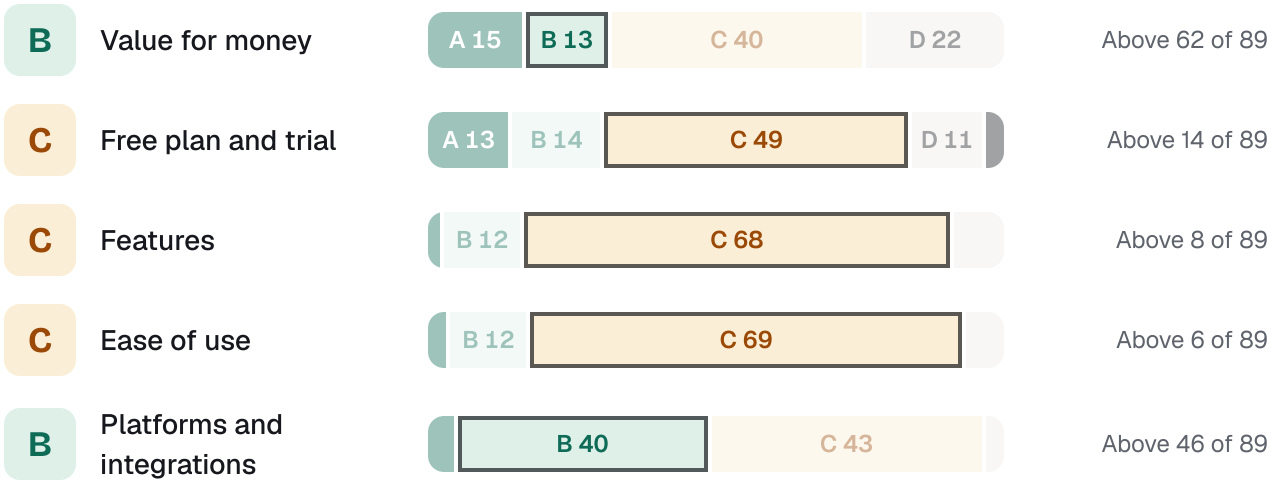

It stands best on value for money (B, above 62 of 89) and worst on ease of use (C, above 6).

Its paid plans start at $3 a month, against a middle price of $10 for the category: 1 of the 63 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 1 tool scores higher and costs less.

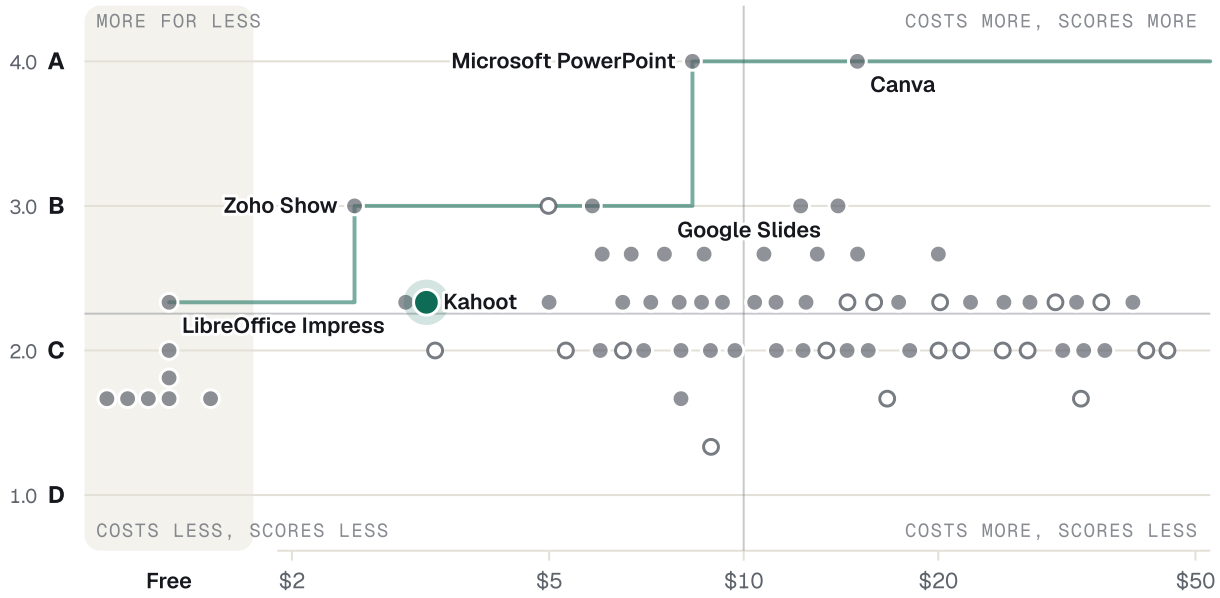

Each grade against the category

Every bar is all 90 presentation tools we grade, cut by the letter each got. Kahoot's own letter is outlined.

Price against what you get

Each dot is one of 72 presentation tools. Further left costs less; higher up scores better on features, ease of use and platforms. Kahoot is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Kahoot you could make: surveys. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

It costs $36 a year.

What you could make

- Surveys: an app builder makes this well.

What you could not

- A slide editor.

- ✕ A real app for iOS and Android. Something home-made would be a web page.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Kahoot's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
