07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Kindo's own pages, its app-store listings and our grades. Every fact in it is on Kindo's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 0 of the 178 other AI agents we grade

Kindo is an AI agent management platform where IT, security, finance and compliance teams set rules for how agents use data, models and tools, then see and meter the results. It includes data loss prevention policies, an agent builder, a cybersecurity model called Deep Hat for red teams and security operations, and an event triage model called Deep Hat Sift. It can run on premises, in a private or Kindo cloud, or air-gapped.

To get you started, here are **7 things to know about Kindo**, taken from its own pages and our grades.

> **It is built for enterprise buyers, no price is published, and the pricing address redirects to the platform page.**
>
> From our report card of Kindo

1 **Best for governing and metering company AI agents**

Kindo is a control centre where IT and security teams set rules for how company AI agents use data, models and tools.

2 **It runs on Web**

Web.

3 Agent oversight

Shows every AI agent, its owner and its state in one place, and lets teams stop a run and meter what each agent uses.

4 Policy and DLP

Enforces data boundaries at runtime to prevent leaks when agents touch data, models and tools.

5 Deep Hat and Deep Hat Sift

Deep Hat is a cybersecurity model for red teams and security operations; Sift filters alerts, tickets and logs so only events needing analysis reach an agent.

6 A 1.6 GPA, above 0 of 178

That is against the other AI agents we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Kindo you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

Kindo at a glance

The report card

Best for governing and metering company AI agents

Kindo is a control centre where IT and security teams set rules for how company AI agents use data, models and tools. It is built for enterprise buyers, no price is published, and the pricing address redirects to the platform page.

TOOLGPA REPORT CARD **Kindo** Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the pricing address redirects and the site points to a demo or a free assessment.
Free plan and trial	F	No free plan or trial on record. The path in is a demo or an assessment.
Features	C	Agent oversight, data-loss policies, an agent builder, shadow-AI discovery and security models. It is a governance tool, not a general agent builder.
Ease of use	C	No rating on record. Rules, policies and deployment choices all need setting up, including on-prem or air-gapped options.
Platforms and integrations	C	Web platform only, with no integrations named on the pages read.

Grade point average Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Kindo is for

- ✓ Fits if you are an IT or security team that has to control how staff use AI agents
- ✓ Works for regulated companies that need on-prem or air-gapped deployment

Who it is not for

- ✗ Not for you if you want self-serve signup, as no plan or trial is described
- ✗ Skip it if you need a published price, because none is
- ✗ Not for you if you are a small shop, since it is built for enterprise buyers
- ✗ Watch out: the SOC 2, ISO 27001 and HIPAA claims are the vendor's own

Good to know

Good for

- ✓ Security and IT teams that need to govern agents across a company
- ✓ SOC teams automating alert triage and authorized pentesting
- ✓ Organizations that need air-gapped or on-premises AI

Worth knowing

- ⓘ No prices are published; the pricing address redirects to the platform page and the site points to a demo and a free assessment.
- ⓘ The product is built for enterprise buyers, and no self-serve plan or free trial is described on the pages read.
- ⓘ The vendor says it holds SOC 2 Type II and supports ISO 27001, PCI DSS, HIPAA, GDPR and NIST CSF; these are its own claims.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Kindo's current pricing could not be confirmed from its own site.

> **No price is published; the pricing address redirects and the site points to a demo or a free assessment.**
>
> From our grade for value for money

We could not confirm Kindo's current prices from its own site, so this guide lists no plans. kindo.ai has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Control center for governing and metering enterprise AI agents. Here is what it does, as its own site describes it, and what it covers: self-hostable, public API, AI features, workflow automation, AI agents.

> **Agent oversight, data-loss policies, an agent builder, shadow-AI discovery and security models.**
>
> From our grade for features

Agent oversight

Shows every AI agent, its owner and its state in one place, and lets teams stop a run and meter what each agent uses.

Policy and DLP

Enforces data boundaries at runtime to prevent leaks when agents touch data, models and tools.

Deep Hat and Deep Hat Sift

Deep Hat is a cybersecurity model for red teams and security operations; Sift filters alerts, tickets and logs so only events needing analysis reach an agent.

Agent Builder and Action Chat

Tools for building agents for critical work, with the vendor offering 24x7 central support.

Shadow AI discovery

A free assessment connects a few data sources and builds a first AI registry that includes unsanctioned AI accounts and tools.

Flexible deployment

Runs on premises, in your own cloud, in Kindo's cloud, or air-gapped.

Where it runs

Web

What it works with

Its own pages name no integrations.

Kindo is made by Kindo.

Where it stands

Its grades against its category, and whether to keep it or make your own

0/178

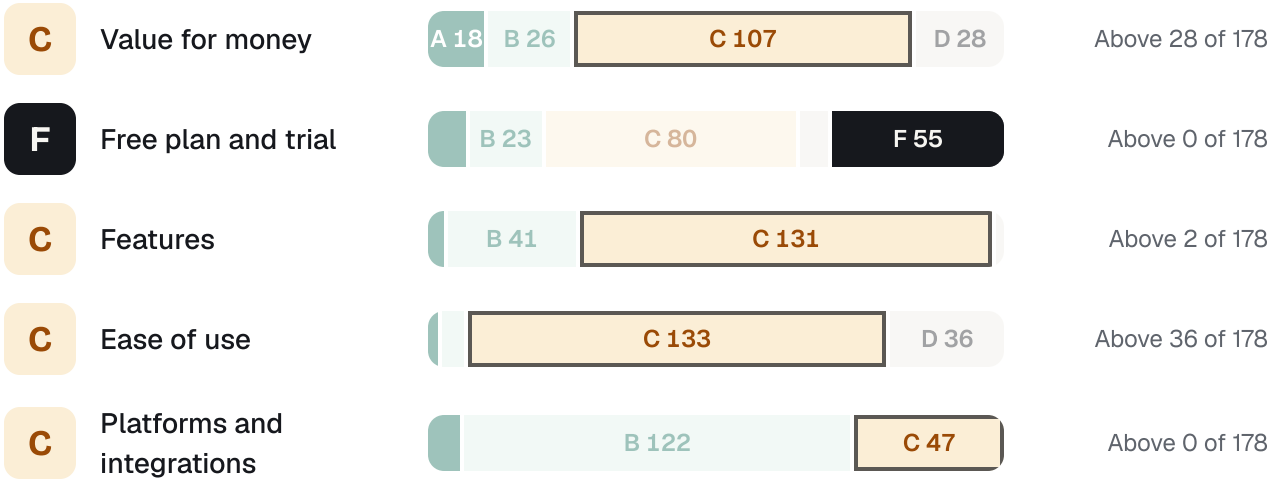

Other AI agents it is graded above

Kindo's GPA of 1.6 is higher than 0 of the 178 other AI agents we grade, and level with 29.

It stands best on ease of use (C, above 36 of 178) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 179 AI agents we grade, cut by the letter each got. Kindo's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Kindo you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 149 of the 178 other AI agents grade higher.

What you could not

- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ Connections to other products, each kept working as those products change.

What this rests on. Kindo's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Sema4.ai, Kore.ai, Cognigy, Aisera and Dust

The 5 tools Kindo is most often weighed against, with where each one differs from it.

1.6 GPA

Sema4.ai

Paid

Governed workspace for enterprise agents, projects and workflows.

Kindo and Sema4.ai compared in full

1.6 GPA

Kore.ai

Paid

Enterprise agent platform for service, work and process automation.

- Kindo is self-hostable, according to its own site.
- Kore.ai also covers AI search, AI support agent and chatbots.

Kindo and Kore.ai compared in full

1.8
GPA

Cognigy

Paid

Enterprise AI agents for voice and chat in the contact center.

- Kindo is self-hostable, according to its own site.
- Kindo also covers workflow automation.
- Cognigy also covers live chat, AI support agent and chatbots.

Kindo and Cognigy compared in full

1.6
GPA

Aisera

Paid

AI service desk and IT operations agents for the enterprise.

- Kindo is self-hostable, according to its own site.
- Aisera also covers help desk and chatbots.

Kindo and Aisera compared in full

2.2
GPA

Dust

Free trial · from $24/mo

Platform for building AI agents on your company's knowledge.

- Only Dust lists a browser extension.
- Kindo is self-hostable, according to its own site.
- Dust also covers AI search.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

11

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Kindo free?

No. Kindo is a paid product.

What platforms does Kindo work on?

Kindo is available on Web.

Does Kindo have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Kindo is listed for Web.

Does Kindo have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Kindo is listed for Web.

Is Kindo open source?

Kindo is not described as open source on its own site, as read on Nov 13, 2026.

Can Kindo be self-hosted?

Yes. Kindo's own site says it can be run on a server of your own.

Does Kindo have an API?

Yes. Kindo offers a public API, according to its own site.

Who makes Kindo?

Kindo is made by a company of the same name.

What are the alternatives to Kindo?

The closest alternatives to Kindo in our directory are Sema4.ai, Kore.ai, Cognigy, Aisera and Dust.

How does Kindo compare with other AI agents?

Kindo's GPA of 1.6 is higher than 0 of the 178 other AI agents we grade, and level with 29.

Could I make my own version of Kindo?

To replace Kindo you would be making an AI agent, with the models and the safeguards behind it.

Where this guide comes from

The prices, plans, platforms and features were read from Kindo's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Kindo's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Kindo. Prices change, so check kindo.ai before you buy.
