Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 3 of the 55 other field service apps we grade

Knowify is job management software for trade contractors that covers both long-running projects and service calls. It handles estimates, proposals, contracts, scheduling, time tracking, change orders, job costing and invoicing, and syncs with QuickBooks. Plans are priced by a flat monthly fee that includes a set number of users.

> "
>
> **Estimates, cost codes and accounting sync have to be set up first.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about Knowify**, taken from its own pages and our grades.

1 **Best for specialty contractors tracking job costs**

Knowify handles estimates, proposals, scheduling, job costing and billing, and syncs with QuickBooks.

2 **Paid plans start at $99 a month**

As its pricing page puts it: $99 per month for 1 user, billed yearly ($149 billed monthly).

3 **You can try it first**

14-day free trial

4 **It runs on 3 platforms**

Web, iOS and Android.

5 Estimates, proposals and contracts

Estimates can follow any pricing model and go out as proposals and contracts for signature. Core covers fixed-price jobs; cost-plus and T&M need Advanced.

6 Scheduling and time tracking

Drag-and-drop scheduling covers employees, subcontractors and equipment. Crews clock in through a geofenced mobile app, and time can flow to QuickBooks Payroll.

7 Job costing and billing

Projects carry budgets and update costs and percent complete as work happens. Billing includes AIA-style progress invoices and change orders.

8 A 1.8 GPA, above 3 of 55

That is against the other field service apps we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

The plain part of Knowify you could make: quotes and estimates, invoicing, job scheduling, time tracking, reports and kanban boards. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

The report card

Best for specialty contractors tracking job costs

Knowify handles estimates, proposals, scheduling, job costing and billing, and syncs with QuickBooks. Core is $99 a month for one user billed yearly, but project budgets, daily logs and subcontracts only start at Advanced for $329, and dispatching is an extra add-on.

TOOLGPA REPORT CARD — **Knowify** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Core is $99 a month for 1 user billed yearly ($149 monthly), the start of the dearer quarter. The useful job-costing pieces sit on Advanced at $329 for up to 10 users, and extra users are $29.
Free plan and trial	D	A 14-day free trial is offered, but nothing says it needs no card. There is no free plan.
Features	C	Estimates, scheduling, time tracking, job costing and billing, with QuickBooks sync. Core has no project budgets, daily logs, subcontracts or cost-plus contracts, and Service Pro dispatching is a separate add-on.
Ease of use	C	No store rating on record. Estimates, cost codes and accounting sync have to be set up first.
Platforms and integrations	B	Web, iPhone and Android, with QuickBooks Online and Desktop, payroll, time and payments, FleetSharp, Claude and ChatGPT. No desktop app.

Grade point average	Weak, out of 4.0	1.8

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Knowify is for

- ✓ Fits if you are a specialty contractor who bills in stages and needs job costs against budgets
- ✓ Works for firms that keep their books in QuickBooks

Who it is not for

- ✕ Pricey if you are on Core, as $99 a month for one user leaves out budgets, daily logs and subcontracts
- ✕ Tight if you want dispatching, because Service Pro is an extra $99 a month billed yearly
- ✕ Watch out: users beyond 1 or 10 cost $29 each, and unlimited users need Enterprise
- ✕ Watch out: fleet tracking hardware is sold at cost on annual plans and included only on 2- and 3-year terms

Good to know

Good for

- ✓ Trade contractors who bid projects and also run service calls
- ✓ Contractors who keep their books in QuickBooks
- ✓ Small crews that start with one user and add seats as they grow

Worth knowing

- ⓘ Service Pro, with dispatching and equipment history, is an add-on at $99 a month yearly ($199 monthly).
- ⓘ Core has no project budgets, daily logs, subcontracts or cost-plus contracts; those start at Advanced.
- ⓘ Users beyond the included 1 or 10 cost $29 a month each; unlimited users need Enterprise.
- ⓘ Fleet tracking hardware is sold at cost on annual plans and included only on 2- and 3-year terms.

Where it stands

Its grades against its category, and whether to keep it or make your own

3/55

Other field service apps it is graded above

Knowify's GPA of 1.8 is higher than 3 of the 55 other field service apps we grade, and level with 17.

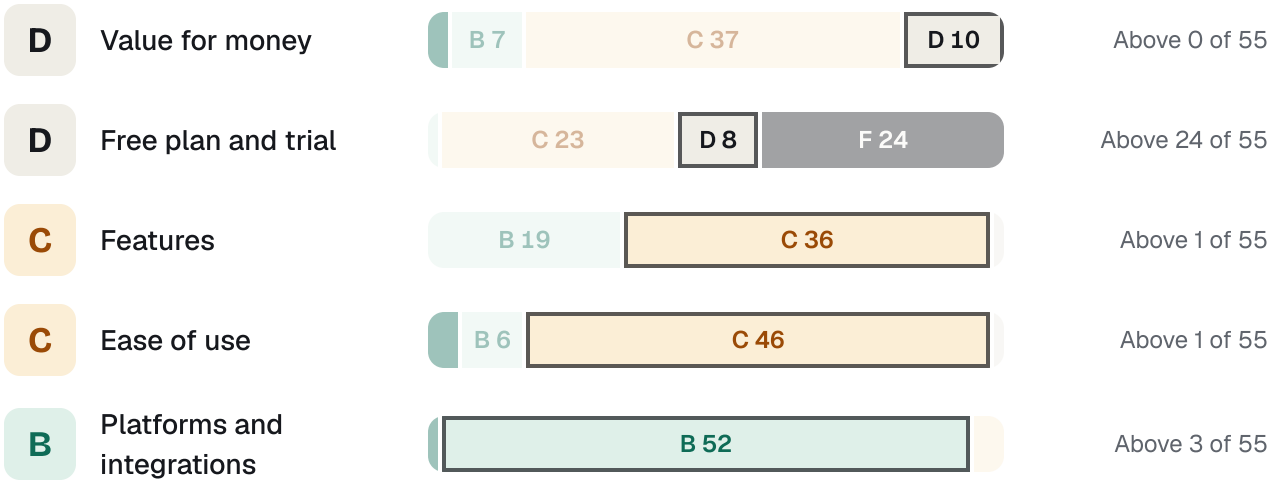

It stands best on platforms and integrations (B, above 3 of 55) and worst on value for money (D, above 0).

Its paid plans start at $99 a month, against a middle price of $49 for the category: 28 of the 36 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 11 tools score higher and cost less.

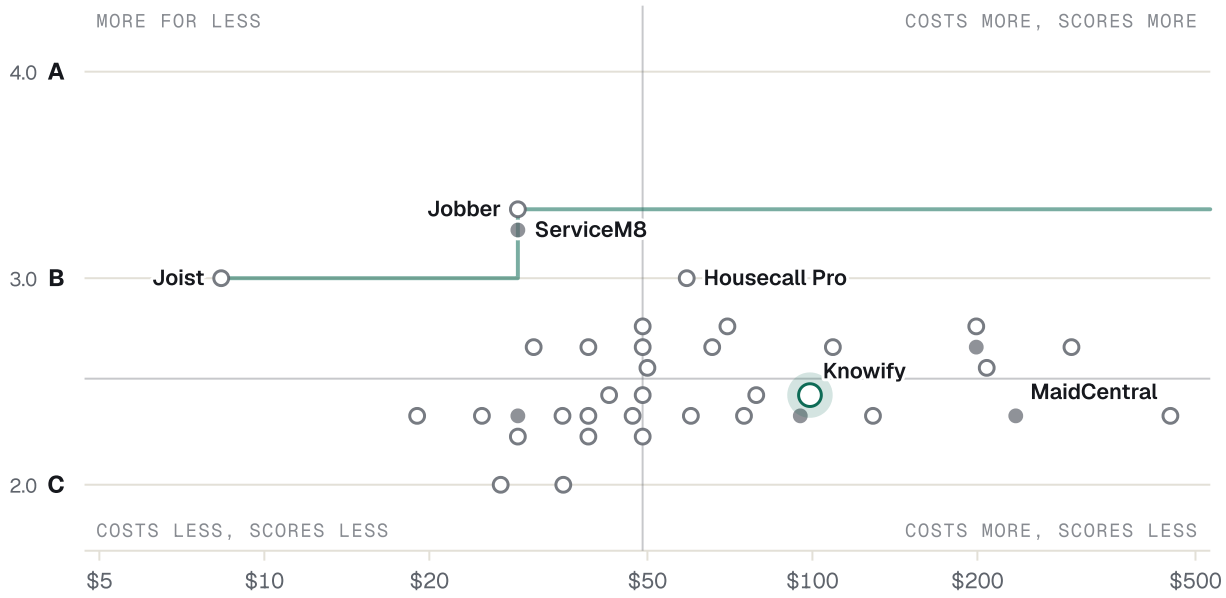

Each grade against the category

Every bar is all 56 field service apps we grade, cut by the letter each got. Knowify's own letter is outlined.

Price against what you get

Each dot is one of 37 field service apps. Further left costs less; higher up scores better on features, ease of use and platforms. Knowify is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Knowify you could make: quotes and estimates, invoicing, job scheduling, time tracking, reports and kanban boards. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 35 of the 55 other field service apps grade higher. It costs $1,188 a year.

What you could make

- Quotes and estimates, invoicing, job scheduling, time tracking, reports and kanban boards: an app builder makes these well.

What you could not

- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, QuickBooks Online, QuickBooks Desktop and QuickBooks Payroll among them.

What this rests on. Knowify's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
