Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 67 of the 89 other AI app builders we grade

Kodular is a browser-based builder for Android apps. You lay out screens from a palette of components and program the logic with visual blocks instead of code, then download the APK or share it by QR code. Projects are stored in the cloud, and a paid Premium tier removes the limits on projects and extensions.

To get you started, here are **9 things to know about Kodular**, taken from its own pages and our grades.

1 **Best for free Android apps built with blocks**

Kodular is a browser builder for Android apps, where you lay out screens and program with blocks, then download the APK.

2 **Paid plans start at about $3.82 a month**

As its pricing page puts it: €3.99 per month, or €40.99 per year (Premium).

3 **There is a free plan**

10 projects, 10 MB total asset size and 5 extensions per project; monetization extensions cannot be used.

4 **It runs on Web**

Web.

5 **Visual designer**

Drag components from a palette onto a screen with a live preview, using Material Design components.

6 **Block programming**

App logic is built by connecting visual blocks, so no syntax errors are possible.

7 **APK build and QR sharing**

One click generates the Android app; download the APK or share it with a QR code for testing.

8 **A 2.6 GPA, above 67 of 89**

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Kodular you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

Kodular

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	A	Premium is €3.99 a month, or €40.99 a year, well under the $9 that is 60% of what the cheapest quarter pays. Free covers 10 projects.
Free plan and trial	B	Free gives 10 projects, 10 MB of assets and 5 extensions per project, with ads shown in the editor and not in your app. One person could build a small app on that.
Features	C	Visual designer, block programming, APK builds, QR sharing and cloud projects. Android only, no AI generation, and monetization is a €15 activation plus usage fees.
Ease of use	C	A web builder where the work is laying out screens and wiring blocks. No store rating on record.
Platforms and integrations	C	Web only, and it makes Android apps only. No integrations are listed.

Grade point average Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Kodular is for

- ✓ Fits if you want to make an Android app without writing code and pay little
- ✓ Works for learners who would rather snap blocks together than type code

Who it is not for

- ✕ Skip it if you need an iOS app, as the site mentions no iOS output
- ✕ Not for you if you want an AI to build the app from a description, as the pages show none
- ✕ Tight if you stay free: 10 projects, 10 MB of assets and 5 extensions each, and no monetization
- ✕ Watch out: Monetize charges a €15 one-time activation plus usage-based pricing

Good to know

Good for

- ✓ Beginners making simple Android apps without code
- ✓ Hobbyists and students who want a low-cost paid tier
- ✓ Developers adding ads or other monetization through extensions

Worth knowing

- ⓘ Builds Android apps only; the site mentions no iOS output.
- ⓘ Prices are shown in euros.
- ⓘ Monetization extensions cannot be used in projects on the Free plan, and Monetize carries a €15 one-time activation fee plus usage-based pricing.
- ⓘ The pages read describe a visual builder and mention no AI app-generation feature.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Kodular you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 67 of the 89 other AI app builders we grade. It costs $45.79 a year.

What you could not

- ✕ A tool that builds and hosts other apps.
- ✕ A builder that other people can use without writing code.
