PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

13/72

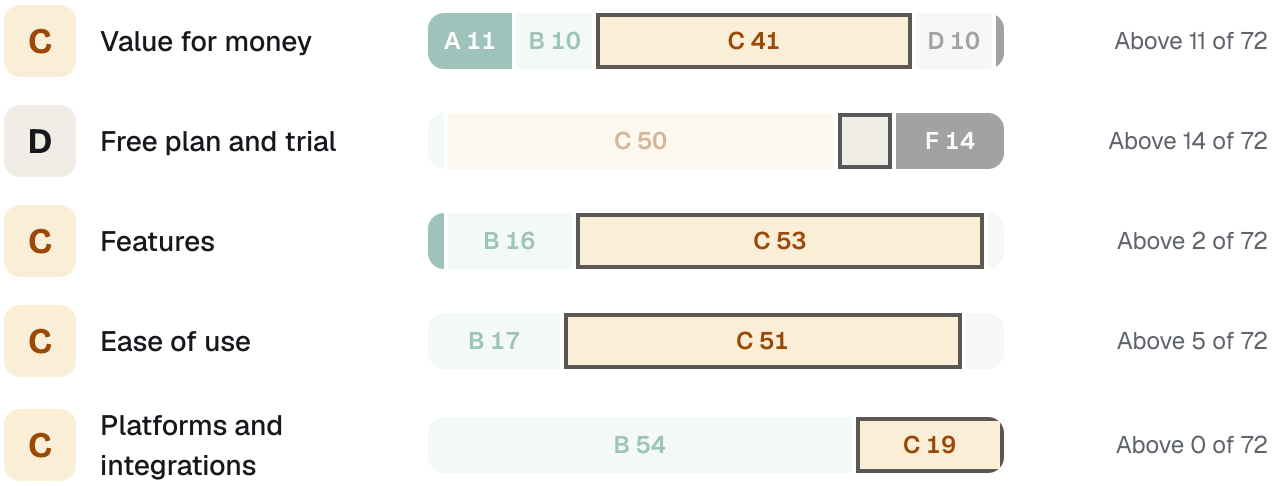

Other lead and email finders it is graded above

Leadzen.ai's GPA of 1.8 is higher than 13 of the 72 other lead and email finders we grade, and level with 5.

It stands best on value for money (C, above 11 of 72) and worst on free plan and trial (D, above 14).

Each grade against the category

Every bar is all 73 lead and email finders we grade, cut by the letter each got. Leadzen.ai's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Leadzen.ai you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 54 of the 72 other lead and email finders grade higher.

What you could not

- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ Newsletters sent to thousands of people that still reach the inbox.

What this rests on. Leadzen.ai's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
