07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from LearnCube's own pages, its app-store listings and our grades. Every fact in it is on LearnCube's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 83 of the 98 other course and community platforms we grade

LearnCube is a browser-based virtual classroom with a whiteboard, video, audio and a materials library, aimed at tutors, language schools and corporate trainers. Larger plans add an online school platform with student accounts, scheduling, reminders and attendance reporting. A developer API and enterprise tier are sold separately.

> "
>
> **You set up classes, materials and branding.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about LearnCube**, taken from its own pages and our grades.

1 **Best for a virtual classroom for online teachers**

LearnCube is a browser classroom with video, whiteboard and recording, and the free plan covers unlimited 1:1 classes.

2 **What it costs**

Paid plans start at $19 (billing period not shown on the page).

3 **There is a free plan**

Virtual Classroom Basic: unlimited 1:1 classes, video, audio and chat, and a materials library holding up to 10 files.

4 **It runs on 3 platforms**

Web, iOS and Android.

5 **Interactive whiteboard**

Draw, type, annotate and switch between multiple whiteboards while teaching.

6 **Browser-based video classroom**

Audio and video run in the browser over WebRTC, so students do not download software.

7 **White-label branding**

Logo, colors and domain can be set to the customer's own brand; branding options start on the Pro plan.

8 **A 2.6 GPA, above 83 of 98**

That is against the other course and community platforms we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace LearnCube you would be making video calls. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for a virtual classroom for online teachers

LearnCube is a browser classroom with video, whiteboard and recording, and the free plan covers unlimited 1:1 classes. Group classes, branding and bigger

libraries need Pro from $19, and the page does not say if that is monthly or yearly.

TOOLGPA REPORT CARD	LearnCube	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	B	Free for unlimited 1:1 classes, and Pro is from $19, though the billing period is not shown, so it is left out of the category figures.
Free plan and trial	B	Basic is free for unlimited 1:1 classes with video, audio and chat, which one tutor could live on. The library holds only 10 files.
Features	C	A live classroom with whiteboard and recording. It does that job fully, but it is a smaller job than a course builder and has no self-paced lessons or checkout.
Ease of use	C	No store rating on record. You set up classes, materials and branding.
Platforms and integrations	B	Web, iOS and Android, with developer APIs on Enterprise only.
Grade point average		Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who LearnCube is for

- ✓ Fits if you teach one-to-one lessons online
- ✓ Works for language tutors and small schools

Who it is not for

- ✗ Tight if you teach groups, as group classes start at Pro
- ✗ Watch out: the page shows 'From $19' and 'From $99' with no billing period
- ✗ Skip it if you want self-paced courses, as this is a live-class tool
- ✗ Watch out: learning analytics, SSO and APIs are Enterprise, and the AI teacher assistant is beta

Good to know

Good for

- ✓ Independent tutors who teach live online, especially languages and math
- ✓ Language schools that need scheduling and attendance alongside the classroom

Worth knowing

- ⓘ The pricing page shows 'From $19' and 'From $99' without saying whether they are monthly or yearly.
- ⓘ It is a live-class tool, not a course builder with self-paced lessons and checkout.
- ⓘ ESL materials, company, learning analytics and homework are optional add-ons on Online School Premium.
- ⓘ The vendor recommends its Online School Platform once a team has more than 10 teachers.

PART 02 · PRICING

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$19

To start. There is a free plan too

LearnCube has a free plan. Paid plans start at $19 (billing period not shown on the page).

PART 03 · FEATURES

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, iOS and Android

Virtual classroom and online school software for teaching languages. Here is what it does, as its own site describes it, and what it covers: public API, AI features, whiteboard, video calls, reports, class booking.

> "A live classroom with whiteboard and recording."

From our grade for features

Interactive whiteboard

Draw, type, annotate and switch between multiple whiteboards while teaching.

Browser-based video classroom

Audio and video run in the browser over WebRTC, so students do not download software.

White-label branding

Logo, colors and domain can be set to the customer's own brand; branding options start on the Pro plan.

Lesson materials and recording

Upload and reuse multimedia materials, and record live sessions for review.

Online school platform

Scheduling, reminders, attendance and class reporting for schools with many teachers.

AI teacher assistant

A beta tool that generates language exercises such as reading comprehension and fill-in-the-blanks.

Where it runs

Web iOS Android

What it works with

Its own pages name no integrations.

LearnCube is made by LearnCube.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

83/98

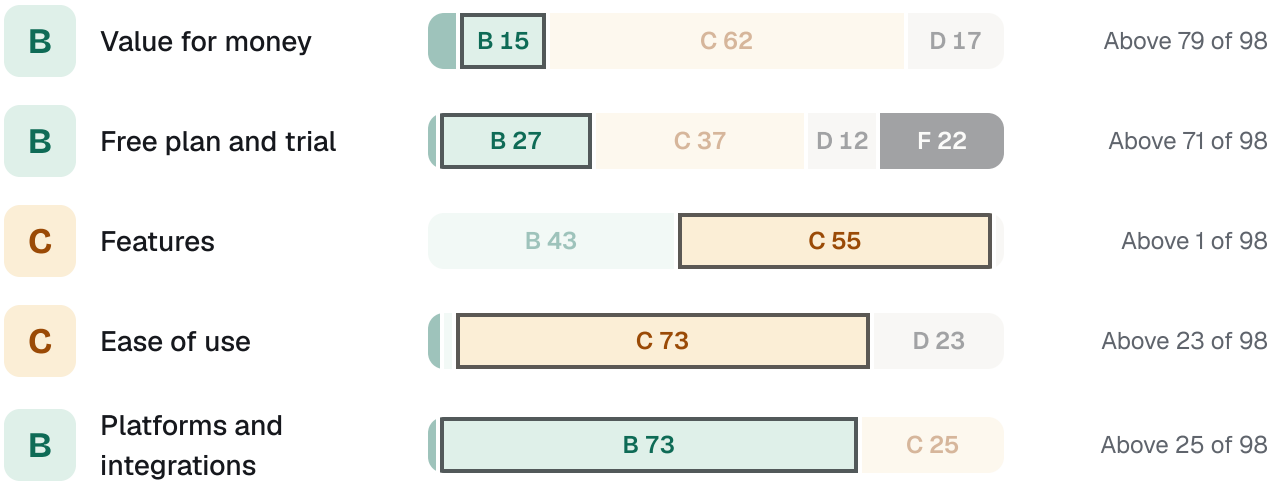

Other course and community platforms it is graded above

LearnCube's GPA of 2.6 is higher than 83 of the 98 other course and community platforms we grade, and level with 8.

It stands best on value for money (B, above 79 of 98) and worst on features (C, above 1).

Each grade against the category

Every bar is all 99 course and community platforms we grade, cut by the letter each got. LearnCube's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace LearnCube you would be making video calls. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 83 of the 98 other course and community platforms we grade.

What you could make

- Class booking and reports: an app builder makes these well.

What you could not

- Video calls.
- An endless canvas that stays smooth with hundreds of things on it.
- A real app for iOS and Android. Something home-made would be a web page.
- An API that other software can build on.
- AI features, unless you pay a model provider for each request yourself.
- People on the other end: live sessions. No app builder makes those.

What this rests on. LearnCube's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

LearnWorlds, Thinkific and TalentLMS

The 3 tools LearnCube is most often weighed against, with where each one differs from it.

2.4 GPA

LearnWorlds

Free trial · from $24/mo

Online academy builder for course creators and training teams.

- LearnCube has a free plan. LearnWorlds does not, though it has a free trial.
- Only LearnCube lists iOS and Android apps.
- LearnCube also covers whiteboard, video calls, reports and class booking.

LearnCube and LearnWorlds compared in full

2.4 GPA

Thinkific

Free trial · from $82/mo

Course, community and membership platform for experts and academies.

- LearnCube has a free plan. Thinkific does not, though it has a free trial.
- Only LearnCube lists iOS and Android apps.
- LearnCube also covers whiteboard, video calls, reports and class booking.

LearnCube and Thinkific compared in full

2.2
GPA

TalentLMS

Free plan · from $119/mo

Cloud LMS for employee, partner and customer training.

- Only LearnCube lists iOS and Android apps.
- LearnCube also covers whiteboard, video calls and class booking.
- TalentLMS also covers online courses.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
