07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Leaseweb's own pages, its app-store listings and our grades. Every fact in it is on Leaseweb's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 5 of the 122 other web hosts we grade

Leaseweb is an infrastructure provider whose knowledge base describes dedicated servers, VPS built on KVM with NVMe storage, and a CloudStack-based Public Cloud with general-purpose, compute, memory and GPU instances. Services are ordered and managed through a customer portal and an API. Its price pages could not be read, so no prices are listed here.

To get you started, here are **7 things to know about Leaseweb**, taken from its own pages and our grades.

> **No prices are on record, and it is server infrastructure rather than web hosting for a small site.**
>
> From our report card of Leaseweb

1 **Best for dedicated servers and cloud infrastructure**

Leaseweb rents dedicated servers, VPS and public cloud, with a customer portal and API.

2 **It runs on Web**

Web.

3 **Dedicated servers**

Single servers or large deployments, customizable or built to order, delivered between on-demand and a maximum of 5 working days, with Windows or Linux and cPanel or Plesk options.

4 **Leaseweb VPS**

Virtual private servers on KVM hypervisors with local NVMe storage, SSH access, optional control panels and 5 to 30TB data traffic packs depending on plan and location.

5 **Public Cloud**

Instances on a CloudStack-based KVM platform, bought monthly or hourly, in general purpose, compute optimized, memory optimized and GPU optimized types.

6 **A 1.6 GPA, above 5 of 122**

That is against the other web hosts we grade, on value, the free plan, features, ease of use and platforms.

7 **Your call**

Leaseweb sits between: not beyond making, and not a weekend's work either.

OUR GRADE 1.6 GPA, weak	

The report card

Best for dedicated servers and cloud infrastructure

Leaseweb rents dedicated servers, VPS and public cloud, with a customer portal and API. No prices are on record, and it is server infrastructure rather than web hosting for a small site.

TOOLGPA REPORT CARD	Leaseweb	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No prices are on record, so it sits in the middle by default. Traffic above the included pack on a VPS is billed on the next invoice.
Free plan and trial	F	Nothing free and no trial on record, so you pay from day one.
Features	C	Dedicated servers, VPS, public cloud, a portal and API, basic firewall and monitoring. VPS use local storage, so a hypervisor failure means recovery time.
Ease of use	D	This is general server infrastructure that you configure yourself.
Platforms and integrations	B	Web customer portal and an API, with no phone or desktop app.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Leaseweb is for

- ✓ Fits if you need a dedicated server or cloud servers from a large provider
- ✓ Works for teams who manage their own infrastructure

Who it is not for

- ✕ Skip it if you want a price up front, as none was readable on the pages we checked
- ✕ Not for you if you want simple shared web hosting
- ✕ Watch out: VPS traffic above the included pack is billed on the next invoice
- ✕ Tight if you need high availability from a VPS, which points you to Public Cloud

Good to know

Good for

- ✓ Companies that need dedicated servers or cloud instances from a large host
- ✓ Buyers who want to order and manage servers through an API
- ✓ Workloads that need GPU or memory-optimized cloud instances

Worth knowing

- ⓘ No prices were read: the Leaseweb website loads its pages with scripts and returned no readable pricing.
- ⓘ VPS traffic above the included pack is billed on the next invoice.
- ⓘ The knowledge base says VPS use local storage, so a hypervisor failure carries a recovery time, and points to Public Cloud for higher availability.
- ⓘ It is general server infrastructure rather than a shared web hosting product.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Leaseweb's current pricing could not be confirmed from its own site.

> **No prices are on record, so it sits in the middle by default.**
>
> From our grade for value for money

We could not confirm Leaseweb's current prices from its own site, so this guide lists no plans. leaseweb.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Dedicated servers, VPS and public cloud infrastructure. Here is what it does, as its own site describes it, and what it covers: public API, system monitor.

> "
>
> **Dedicated servers, VPS, public cloud, a portal and API, basic firewall and monitoring.**
>
> From our grade for features

Dedicated servers

Single servers or large deployments, customizable or built to order, delivered between on-demand and a maximum of 5 working days, with Windows or Linux and cPanel or Plesk options.

Leaseweb VPS

Virtual private servers on KVM hypervisors with local NVMe storage, SSH access, optional control panels and 5 to 30TB data traffic packs depending on plan and location.

Public Cloud

Instances on a CloudStack-based KVM platform, bought monthly or hourly, in general purpose, compute optimized, memory optimized and GPU optimized types.

Customer portal and API

Services are managed through a customer portal with a developer API, and ordering APIs exist for dedicated servers and VPS.

Basic firewall and monitoring

VPS include a free basic firewall, and the knowledge base documents service monitoring and data-traffic notifications.

Where it runs

Web

What it works with

Its own pages name no integrations.

Leaseweb is made by Leaseweb.

Where it stands

Its grades against its category, and whether to keep it or make your own

5/122

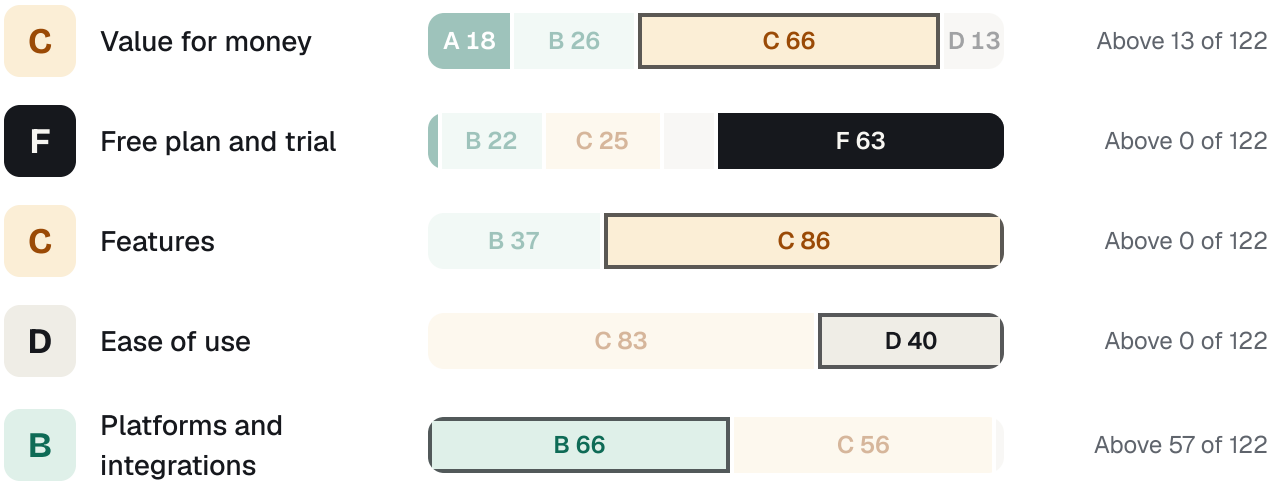

Other web hosts it is graded above

Leaseweb's GPA of 1.6 is higher than 5 of the 122 other web hosts we grade, and level with 23.

It stands best on platforms and integrations (B, above 57 of 122) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 123 web hosts we grade, cut by the letter each got. Leaseweb's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

Leaseweb sits between: not beyond making, and not a weekend's work either.

What you would give up is listed below. Whether that is worth the price is your call.

What you could make

- It runs in a browser, which is where something home-made would run too.

What you could not

- Readings from inside the operating system.
- An API that other software can build on.

What this rests on. Leaseweb's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Hetzner, OVHcloud, Contabo, Vultr and DigitalOcean

The 5 tools Leaseweb is most often weighed against, with where each one differs from it.

2.4 GPA

Hetzner

From €1.60/mo

German hosting: web hosting, cloud servers and dedicated servers.

- Leaseweb also covers system monitor.
- Hetzner also covers file sharing.

Leaseweb and Hetzner compared in full

2.0 GPA

OVHcloud

From $4.54/mo

VPS, public cloud, web hosting and dedicated servers.

- Leaseweb also covers system monitor.
- OVHcloud also covers databases.

Leaseweb and OVHcloud compared in full

1.6 GPA

Contabo

From $5.28/mo

Low-priced VPS and dedicated servers from a German host.

- Leaseweb also covers system monitor.

Leaseweb and Contabo compared in full

1.8
GPA

Vultr

From $2.50/mo

Cloud servers, bare metal and GPUs billed hourly or monthly.

- Leaseweb also covers system monitor.

Leaseweb and Vultr compared in full

2.2
GPA

DigitalOcean

Free plan · from $4/mo

Cloud servers, app hosting and managed databases for developers.

- DigitalOcean has a free plan. Leaseweb does not.
- Leaseweb also covers system monitor.
- DigitalOcean also covers databases.
