07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Legora's own pages, its app-store listings and our grades. Every fact in it is on Legora's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 30 of the 178 other AI agents we grade

Legora is an AI platform for law firms and in-house legal teams. Its Agent plans and carries out legal tasks, and the suite adds a Word add-in, an Outlook add-in, tabular document review, legal research, workflows and a mobile app. It is sold through demos, and no prices are published.

To get you started, here are **7 things to know about Legora**, taken from its own pages and our grades.

> **There is no price, plan or trial on the site, and its pricing address returns not found, so you see a demo first.**
>
> From our report card of Legora

1 **Best for AI for legal research and document review**

Legora is an AI workspace for lawyers, with an agent, table-style review of many documents, legal research and add-ins for Word and Outlook.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 Agent

The Agent plans, executes, reviews and delivers multi-step legal work, such as drafting from your documents, and keeps its history in sync across desktop and mobile.

4 Tabular Review

An AI-powered spreadsheet that extracts data from large sets of documents, used for diligence and contract analysis.

5 Word and Outlook add-ins

Reviewing and drafting tools work inside Microsoft Word, and a separate add-in covers Outlook.

6 A 1.8 GPA, above 30 of 178

That is against the other AI agents we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Legora you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for AI for legal research and document review

Legora is an AI workspace for lawyers, with an agent, table-style review of many documents, legal research and add-ins for Word and Outlook. There is no price, plan or trial on the site, and its pricing address returns not found, so you see a demo first.

TOOLGPA REPORT CARD — **Legora** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published and the pricing address returns not found, so it stays at the ordinary grade.
Free plan and trial	F	No free plan and no trial: access starts with a demo request.
Features	C	Agent, tabular review, research, Word and Outlook add-ins, monitors and lists. The security certifications named on the site are the vendor's statements.
Ease of use	C	No store rating on record, and firm-wide rollout involves setup and training.
Platforms and integrations	B	Web plus iOS and Android apps, and Word and Outlook add-ins. No desktop app is listed, and the integration list is short.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Legora is for

- ✓ Fits if your firm reviews many documents at once and works in Word and Outlook
- ✓ Works for lawyers who want to carry on agent tasks from a phone

Who it is not for

- ✕ Skip it if you want a price, as none is published and the pricing page returns not found
- ✕ Not for you if you want a trial: access starts with a demo
- ✕ Watch out: the mobile app is for reviewing documents and continuing agent work, not full drafting
- ✕ Watch out: the security claims on the site are the vendor's statements

Good to know

Good for

- ✓ Law firms handling M&A, litigation, banking and tax work
- ✓ In-house legal teams managing incoming requests and contracts
- ✓ Firms that need to keep ethical walls in place around AI work

Worth knowing

- ⓘ No prices, plans or free trial are published; access starts with a demo request.
- ⓘ The Legora pricing page address returns a not-found error.
- ⓘ Security claims on the site include SOC 2 Type II, ISO 27001, ISO 42001, GDPR and HIPAA, which are the vendor's statements.
- ⓘ The mobile app covers iOS and Android and is aimed at reviewing documents and continuing Agent work on the go.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Legora's current pricing could not be confirmed from its own site.

> **No price is published and the pricing address returns not found, so it stays at the ordinary grade.**
>
> From our grade for value for money

We could not confirm Legora's current prices from its own site, so this guide lists no plans. legora.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, iOS and Android

Agentic AI workspace for lawyers and legal teams. Here is what it does, as its own site describes it, and what it covers: AI features, AI agents, research, documents.

"

Agent, tabular review, research, Word and Outlook add-ins, monitors and lists.

From our grade for features

Agent

The Agent plans, executes, reviews and delivers multi-step legal work, such as drafting from your documents, and keeps its history in sync across desktop and mobile.

Tabular Review

An AI-powered spreadsheet that extracts data from large sets of documents, used for diligence and contract analysis.

Word and Outlook add-ins

Reviewing and drafting tools work inside Microsoft Word, and a separate add-in covers Outlook.

Legal research

Answers are backed by citations from legal data sources, with agentic research across jurisdictions.

Monitors and Lists

Monitors scan global regulation for changes, and Lists keep legal tasks organized and can be generated by the Agent from documents.

Where it runs

Web iOS Android

What it works with

Microsoft Word

Microsoft Outlook

Legora is made by Legora.

Where it stands

Its grades against its category, and whether to keep it or make your own

30/178

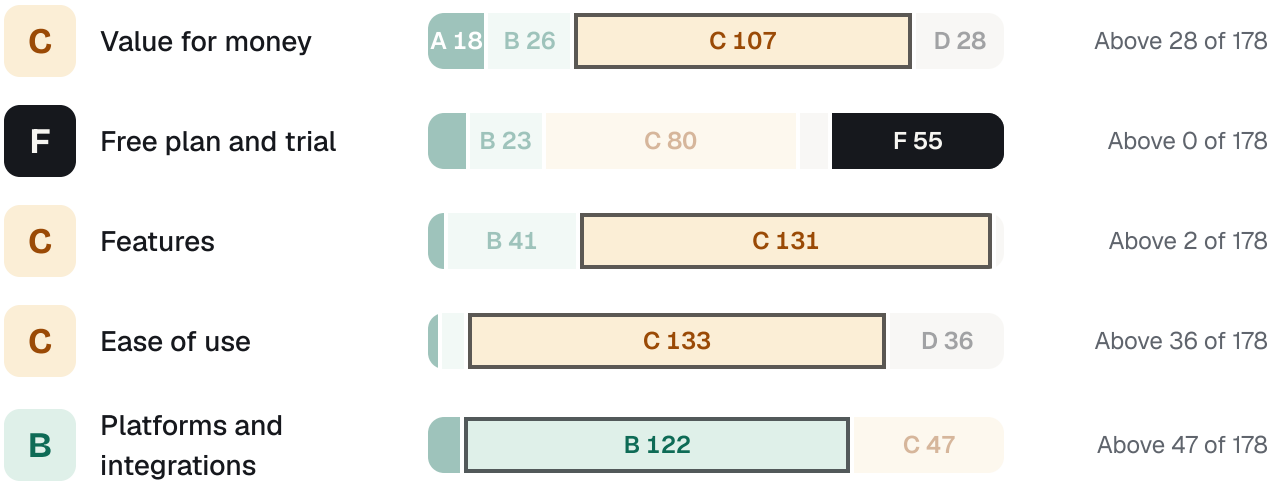

Other AI agents it is graded above

Legora's GPA of 1.8 is higher than 30 of the 178 other AI agents we grade, and level with 33.

It stands best on platforms and integrations (B, above 47 of 178) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 179 AI agents we grade, cut by the letter each got. Legora's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Legora you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 115 of the 178 other AI agents grade higher.

What you could make

- Documents: an app builder makes this well.

What you could not

- An AI agent, with the models and the safeguards behind it.
- A library of papers and sources to search.
- A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Legora's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Spellbook, Harvey, Hebbia and Eve

The 4 tools Legora is most often weighed against, with where each one differs from it.

Spellbook

2.0 GPA

Free trial

AI contract review and drafting for legal teams.
