TOOLGPA REPORT CARD — **Lemwarm** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$24 an inbox a month on yearly billing ($29 monthly), just under the $25 that opens the cheaper quarter of cold-outreach tools. It is priced per inbox, so ten inboxes cost $240.
Free plan and trial	F	No free plan and no trial on the pricing page.
Features	D	Warm-up, a deliverability score and a setup check, and nothing else. It needs a separate tool to find leads and send campaigns.
Ease of use	C	No store rating on record. You connect each mailbox and read the reports.
Platforms and integrations	C	Web only, and the listing names no integrations.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

It stands best on value for money (B, above 56 of 81) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 82 cold outreach tools we grade, cut by the letter each got. Lemwarm's own letter is outlined.

Price against what you get

Each dot is one of 74 cold outreach tools. Further left costs less; higher up scores better on features, ease of use and platforms. Lemwarm is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Lemwarm you would be making a network of real inboxes that open and answer your emails. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 64 of the 81 other cold outreach tools grade higher. It costs $288 a year.

What you could not

- ✕ A network of real inboxes that open and answer your emails.
- ✕ Newsletters sent to thousands of people that still reach the inbox.

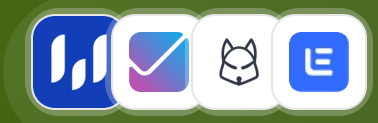

- ✕ Reading the reports inbox providers send about your domain.

What this rests on. Lemwarm's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
