Welcome

What it is, who it suits, its grades and the ten things to know first

1.4

GPA, above 0 of the 127 other accounting and invoicing tools we grade

Less Accounting is a bookkeeping service rather than self-serve software: a dedicated virtual bookkeeper handles categorization, reconciliation and monthly reports in QuickBooks Online. Plans are flat monthly fees set by the business's annual revenue, with no long-term contract. Cleanup of overdue books is quoted separately.

To get you started, here are **8 things to know about Less Accounting**, taken from its own pages and our grades.

> **A service rather than an app: you book a call and send in your accounts, and no store rating is on record.**
>
> From our grade for ease of use

1 **Best for hands-off monthly bookkeeping for small US businesses**

Less Accounting is a monthly bookkeeping service where a bookkeeper does the work, with QuickBooks Online included.

2 **Paid plans start at $299 a month**

As its pricing page puts it: $299 per month and up (Simple, under $300K revenue).

3 **It runs on Web**

Web.

4 **Dedicated virtual bookkeeper**

Each client has a named bookkeeper with direct access, handling categorization and reconciliation every month.

5 **Monthly financial reporting**

A monthly reporting package is delivered, and the site says books are ready within 15 business days of receiving documents.

6 **QuickBooks Online included**

The plans include a QuickBooks Online subscription, so there is no separate software bill.

7 **A 1.4 GPA, above 0 of 127**

That is against the other accounting and invoicing tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Less Accounting you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for hands-off monthly bookkeeping for small US businesses

Less Accounting is a monthly bookkeeping service where a bookkeeper does the work, with QuickBooks Online included. It starts at $299 a month and the final fee follows a discovery call.

TOOLGPA REPORT CARD — **Less Accounting** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	$299 a month and up, against an accounting-software middle of $20 and a dearest tenth from $75. It includes a bookkeeper, which software does not.
Free plan and trial	F	No free plan and no trial is listed on the pricing page.
Features	C	Monthly bookkeeping, reports, receivables help and historical cleanup, but no tax filing, and add-on and cleanup prices are not published.
Ease of use	C	A service rather than an app: you book a call and send in your accounts, and no store rating is on record.
Platforms and integrations	C	Web only, working through QuickBooks Online.

Grade point average — Weak, out of 4.0 **1.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Less Accounting is for

- ✓ Fits if you run a US business under $300K in revenue and want someone else to keep the books
- ✓ Makes sense if you already use or will accept QuickBooks Online

Who it is not for

- ✗ Pricey if you only want software, as the Simple plan is $299 a month and up
- ✗ Not for you if you are above $5M in revenue or have several entities, as you are sent to a custom plan
- ✗ Watch out: the prices are 'starting at' figures that the discovery call sets
- ✗ Watch out: cleanup and add-on prices are not published
- ✗ Skip it if your business is not a US entity, as it supports US entities only

Good to know

Good for

- ✓ Founders who want to hand bookkeeping to a person
- ✓ Small US businesses with a few financial accounts
- ✓ Businesses behind on their books

Worth knowing

- ⓘ Plans are "starting at" prices set by annual revenue, and the final fee follows a discovery call.
- ⓘ The service supports US entities only, though they can be owned from anywhere.
- ⓘ Businesses above $5M revenue or with multiple entities are sent to a custom plan.
- ⓘ Add-on prices and the cleanup fee are not published.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

0/127

Other accounting and invoicing tools it is graded above

Less Accounting's GPA of 1.4 is higher than 0 of the 127 other accounting and invoicing tools we grade, and level with 1.

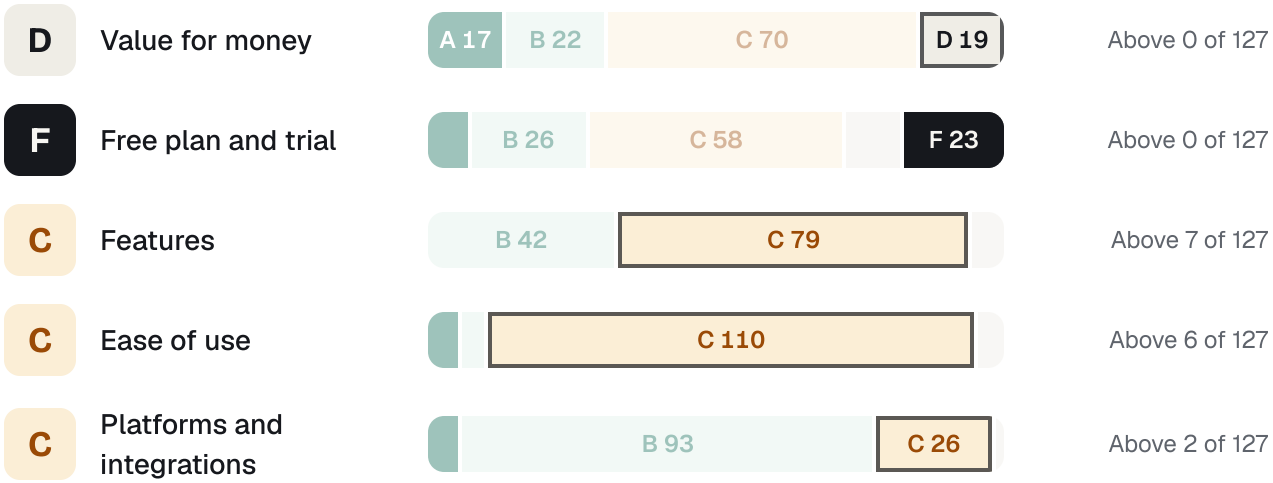

It stands best on features (C, above 7 of 127) and worst on free plan and trial (F, above 0).

Its paid plans start at $299 a month, against a middle price of $18.09 for the category: 89 of the 90 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 78 tools score higher and cost less.

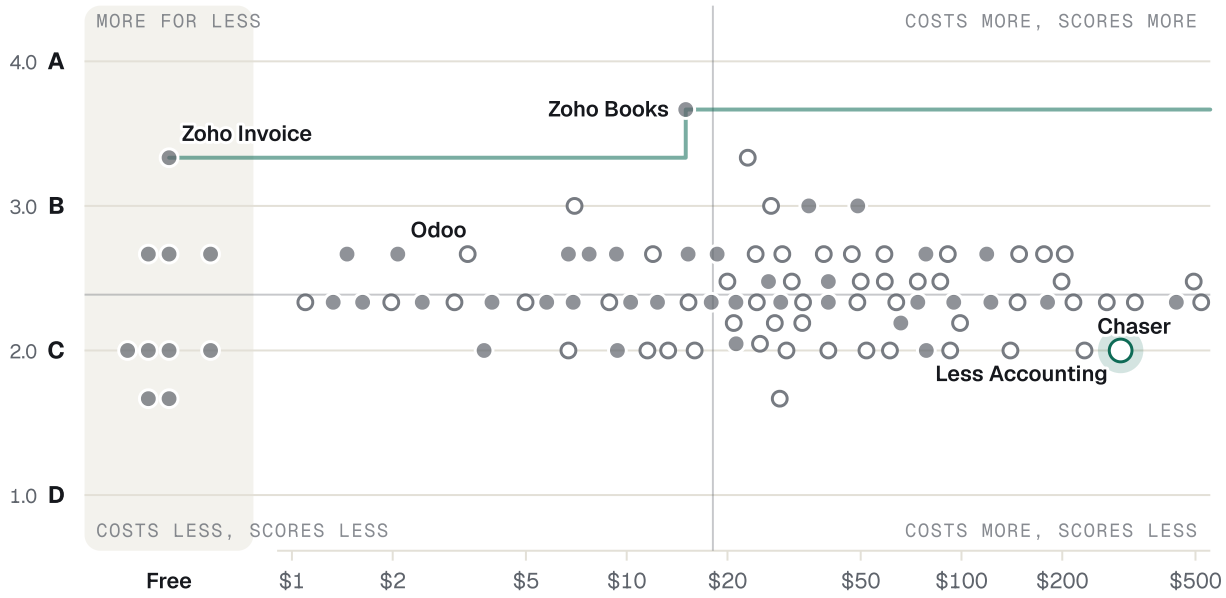

Each grade against the category

Every bar is all 128 accounting and invoicing tools we grade, cut by the letter each got. Less Accounting's own letter is outlined.

Price against what you get

Each dot is one of 101 accounting and invoicing tools. Further left costs less; higher up scores better on features, ease of use and platforms. Less Accounting is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Less Accounting you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 126 of the 127 other accounting and invoicing tools grade higher. It costs $3,588 a year.

What you could make

- Reports and expense tracking: an app builder makes these well.

What you could not

- Live feeds from your bank, which take an agreement with each bank or a service that has them.

What this rests on. Less Accounting's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
