Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 30 of the 89 other AI image and video generators we grade

LimeWire AI Studio turns a written description into an image or a short video in the browser. It is part of LimeWire's file-sharing platform: generated results land in the same activity list as uploads and can be downloaded or shared by link. Generation spends credits, and every account gets a weekly allowance.

To get you started, here are **9 things to know about LimeWire AI**, taken from its own pages and our grades.

> "
>
> **Generate with no account to start, nothing to set up.**
>
> From our grade for ease of use

1 **Best for text to image and video, tucked inside a file-sharing site**

The paid plans buy file storage rather than more AI, so the allowance is the same whatever you pay.

2 **Paid plans start at $9.99 a month**

As its pricing page puts it: $9.99 per month (LimeWire Pro, a file-storage plan).

3 **There is a free plan**

60 free AI credits a week on every account; the Generate button shows each generation's cost. Free accounts can upload up to 4 GB with 40 GB of storage.

4 **It runs on Web**

Web.

5 **Text to image**

Describe a picture and pick a model: Google Gemini 2.5 (the default), Stable Diffusion Core, Stable Diffusion Ultra or Stable Diffusion XL v1.0.

6 **Text to video**

A Video tab turns a description into a short clip, in the browser with nothing to install.

7 **Credit-based use**

Generating spends credits, with 60 free credits a week on every plan and the cost shown before each generation.

8 **A 2.2 GPA, above 30 of 89**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace LimeWire AI you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

Best for text to image and video, tucked inside a file-sharing site

LimeWire AI Studio makes images and short videos in the browser, with 60 free credits a week on every account. The paid plans buy file storage rather than more AI, so the allowance is the same whatever you pay.

TOOLGPA REPORT CARD	LimeWire AI	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	Pro is $9.99 a month, but it raises uploads and storage, not the 60 weekly AI credits.
Free plan and trial	C	60 free credits a week on every account, and a weekly cap is one you will reach.
Features	C	Text to image and text to video, with results kept alongside your files. The pages list four image models and don't name the video models.
Ease of use	B	Generate with no account to start, nothing to set up.
Platforms and integrations	C	Browser only, with no integrations listed.
Grade point average		Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who LimeWire AI is for

- ✓ Fits if you want a few images a week without paying
- ✓ Works for people who already share files on LimeWire

Who it is not for

- ✗ Skip it if you want more AI credits for money, as paid plans don't raise them
- ✗ Not for you if your prompts are adult, because they aren't allowed
- ✗ Watch out: the video models aren't named on the vendor's pages
- ✗ Watch out: this is a file-sharing site first, and the AI is a side feature

Good to know

Good for

- ✓ Occasional image or clip generation without a separate subscription
- ✓ People who already use LimeWire to send files and want to share results by link

Worth knowing

- ⓘ The paid plans raise upload size, storage and file lifetime, not the AI allowance, which is 60 credits a week on every plan.
- ⓘ Adult content is not allowed in prompts or results; violations can suspend the account.
- ⓘ The vendor's pages list four image models and do not name the video models.

Where it stands

Its grades against its category, and whether to keep it or make your own

30/89

Other AI image and video generators it is graded above

LimeWire AI's GPA of 2.2 is higher than 30 of the 89 other AI image and video generators we grade, and level with 18.

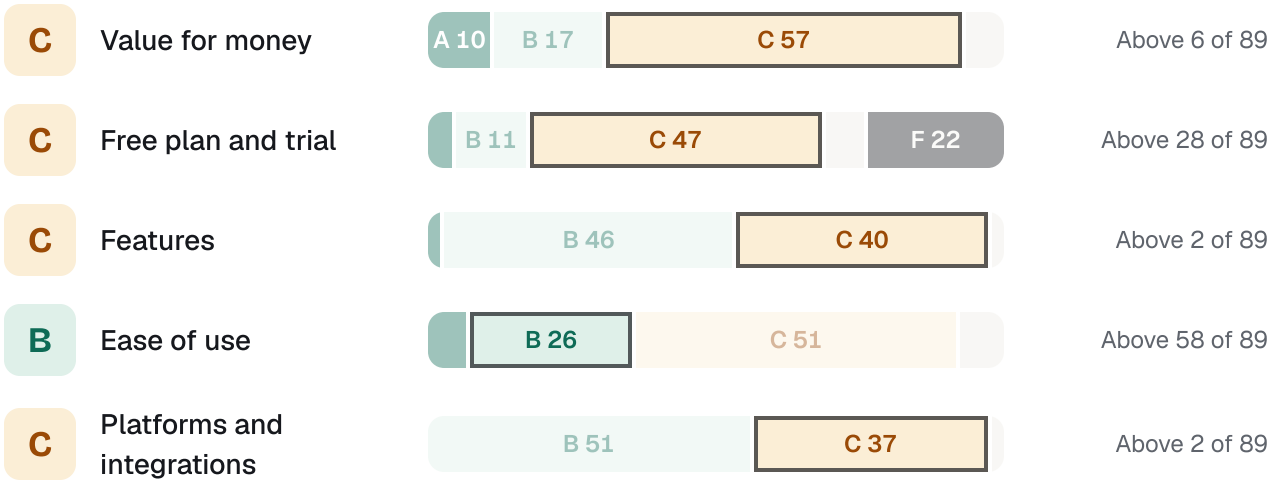

It stands best on ease of use (B, above 58 of 89) and worst on features (C, above 2).

Its paid plans start at $9.99 a month, against a middle price of $10 for the category: 27 of the 65 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 12 tools score higher and cost less.

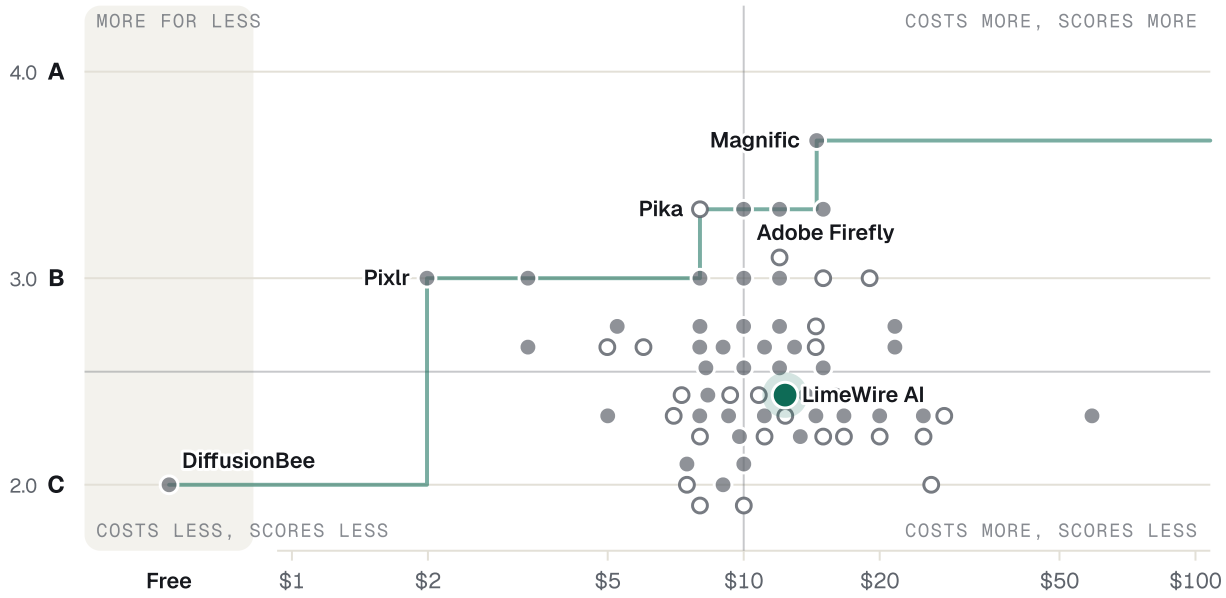

Each grade against the category

Every bar is all 90 AI image and video generators we grade, cut by the letter each got. LimeWire AI's own letter is outlined.

Price against what you get

Each dot is one of 67 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. LimeWire AI is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace LimeWire AI you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

It costs $119.88 a year.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.

- ✕ Storing and serving files for other people.
- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ Sharing with other people, which means accounts and invitations.

What this rests on. LimeWire AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
