07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from LiteManager's own pages, its app-store listings and our grades. Every fact in it is on LiteManager's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

3.2

GPA, above 79 of the 85 other remote desktop apps we grade

LiteManager is remote desktop and remote support software with a Viewer for the technician and a Server module installed on each controlled computer. A free edition controls up to 30 computers, and the Pro edition is bought once per controlled computer as a lifetime license. Connections work by IP address or by an ID the user picks.

To get you started, here are **9 things to know about LiteManager**, taken from its own pages and our grades.

> **A Server module goes on each controlled computer and a Viewer on yours, so there is some setup.**
>
> From our grade for ease of use

1 **Best for remote desktop control with a free edition**

LiteManager controls up to 30 computers for free, or any number for a one-time $10 licence per controlled computer.

2 **What it costs**

Paid plans start at $10 per controlled computer, one-time license.

3 **There is a free plan**

Free edition for individuals and companies that controls up to 30 computers, with no session time or speed limits.

4 **It runs on 5 platforms**

Windows, macOS, Linux, iOS and Android.

5 **Remote desktop control**

Controls the desktop of a remote computer in real time, with access to its file system, processes and services.

6 **Connect by ID**

Reaches computers without a public IP address by an ID the user chooses, or through your own ID server (NoIP).

7 **QuickSupport**

A module for instant support that runs without installation or administrator rights on the user's Windows PC.

8 **A 3.2 GPA, above 79 of 85**

That is against the other remote desktop apps we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace LiteManager you would be making a fast, secure link to another computer through any network. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE
3.2 GPA, very good

The report card

Best for remote desktop control with a free edition

LiteManager controls up to 30 computers for free, or any number for a one-time $10 licence per controlled computer. Antivirus programs may flag it, the licence has to be bought for every machine you control, and its site is built around ruble payment links.

TOOLGPA REPORT CARD	LiteManager	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	A	Free for up to 30 computers, and the paid licence is $10 per computer once, against a category middle of $8.33 a month. A year of the middle price pays for ten licences.

SUBJECT	GRADE	COMMENT
Free plan and trial	A	The free edition covers up to 30 computers for individuals and companies, with no session time or speed limits. Few people will reach that cap.
Features	B	Remote control, connect by ID, QuickSupport, a portable edition, a network map with inventory and two-factor sign-in cover the core of remote desktop work.
Ease of use	C	No store rating on record. A Server module goes on each controlled computer and a Viewer on yours, so there is some setup.
Platforms and integrations	B	Windows, macOS, Linux, iPhone and Android are listed. No web version and no integrations or API are listed.
Grade point average		Very good, out of 4.0 **3.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who LiteManager is for

- ✓ Fits if you manage up to 30 computers and want the free edition
- ✓ Makes sense if you want a one-time licence and not a subscription

Who it is not for

- ✕ Skip it if you need to control more than 30 computers on a budget, because each one then needs a $10 licence
- ✕ Watch out: the site says antivirus programs may flag it as potentially unsafe, since it gives unattended access
- ✕ Watch out: the buy page says no refund is given because there is a 30-day trial
- ✕ Tight if you pay by card, as prices go through payment links and convert at the current ruble rate

Good to know

Good for

- ✓ Small IT shops that want a one-time license instead of a subscription
- ✓ Administrators controlling up to 30 computers at no cost
- ✓ Support companies that need an unlimited number of technicians

Worth knowing

- ⓘ The Server module must be licensed on each controlled computer, so the Pro price grows with the number of machines.
- ⓘ The site says antivirus programs may flag LiteManager as a potentially unsafe program because it gives unattended access.
- ⓘ Prices are paid through payment links, and the buy page says amounts convert at the current ruble exchange rate.
- ⓘ The buy page says no refund is given because the product has a 30-day trial.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$10 one-time

To start. There is a free plan too

LiteManager has a free plan. Paid plans start at $10 per controlled computer, one-time license.

> **A year of the middle price pays for ten licences.**
>
> From our grade for value for money

FREE

$0

Controls up to 30 computers at once, for individuals and companies; more computers need a license key.

PRO LICENSE

$10

per controlled computer, one-time license

Perpetual key with free upgrades. Volume rates are $9 from 50, $8 from 100 and $7 from 300 licenses.

HELPDESK LICENSE

$300

per active channel, one-time license

For support providers: priced by simultaneous contacts, with servers and viewers not counted toward the price.

The free plan

Free edition for individuals and companies that controls up to 30 computers, with no session time or speed limits.

Trying it first

30-day trial period, mentioned in the buy page refund note.

Read from litemanager.com on Nov 13, 2026.

Ways to pay less

OTHER SAVINGS

Volume discounts on Pro licenses

The per-license price falls from $10 to $9 at 50 licenses, $8 at 100 and $7 at 300, with an unlimited license listed at $5,000.

Stated on litemanager.com

What it does

Its main features, where it runs, what it works with and who makes it

5

Places it runs: macOS, Windows, Linux, iOS and Android

Remote desktop software with a free edition and lifetime licenses. Here is what it does, as its own site describes it, and what it covers: one-time purchase, file sharing, remote desktop.

> "
>
> **Windows, macOS, Linux, iPhone and Android are listed.**
>
> From our grade for platforms and integrations

Remote desktop control

Controls the desktop of a remote computer in real time, with access to its file system, processes and services.

Connect by ID

Reaches computers without a public IP address by an ID the user chooses, or through your own ID server (NoIP).

QuickSupport

A module for instant support that runs without installation or administrator rights on the user's Windows PC.

Portable edition

Runs from a USB stick without installing anything, with the full feature set the vendor lists.

Network map and inventory

Built-in tools for drawing a network map and collecting technical data about computers.

Two-factor authentication

Version 5.2 adds an emailed code on the LM Server, sent through your own SMTP server.

Where it runs

macOS · Windows · Linux · iOS · Android

What it works with

Its own pages name no integrations.

LiteManager is made by LiteManagerTeam.

Where it stands

Its grades against its category, and whether to keep it or make your own

79/85

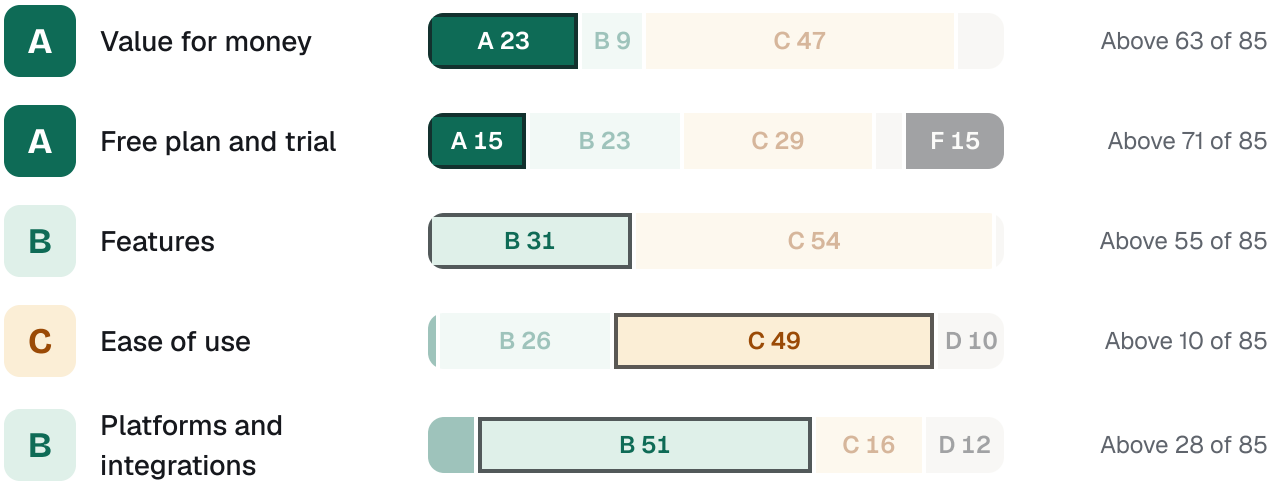

Other remote desktop apps it is graded above

LiteManager's GPA of 3.2 is higher than 79 of the 85 other remote desktop apps we grade, and level with 6.

It stands best on free plan and trial (A, above 71 of 85) and worst on ease of use (C, above 10).

Each grade against the category

Every bar is all 86 remote desktop apps we grade, cut by the letter each got. LiteManager's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace LiteManager you would be making a fast, secure link to another computer through any network. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 3.2 is higher than 79 of the 85 other remote desktop apps we grade. It costs $10, paid once.

What you could not

- ✕ A fast, secure link to another computer through any network.
- ✕ Storing and serving files for other people.
- ✕ Apps for macOS, Windows, Linux, iOS and Android that stay in step with each other.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. LiteManager's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

UltraVNC, Remote Utilities, AnyDesk, TeamViewer and RemotePC

The 5 tools LiteManager is most often weighed against, with where each one differs from it.

U

2.6
GPA

UltraVNC

Free

Free open-source VNC remote control for Windows computers.

- Only LiteManager lists macOS, Linux, iOS and Android apps.
- LiteManager can be bought with a one-time purchase.
- UltraVNC is open source and self-hostable, according to its own site.

LiteManager and UltraVNC compared in full

2.2
GPA

Remote Utilities

Free plan

Remote administration tool with a self-hosted server option.

- LiteManager can be bought with a one-time purchase.
- Remote Utilities is self-hostable, according to its own site.
- LiteManager also covers file sharing.

LiteManager and Remote Utilities compared in full

2.4
GPA

AnyDesk

Free plan

Remote desktop app, free for personal use, licensed for business.

- LiteManager can be bought with a one-time purchase.
- AnyDesk is self-hostable, according to its own site.
- LiteManager also covers file sharing.

LiteManager and AnyDesk compared in full

2.6
GPA

TeamViewer

Free plan · from $619.99/yr

Remote access and IT support, free for personal use only.

- Only TeamViewer lists a web app.
- LiteManager can be bought with a one-time purchase.
- TeamViewer is end-to-end encrypted, according to its own site.
