To get you started, here are **9 things to know about LiveWebinar**, taken from its own pages and our grades.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace LiveWebinar you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.4 is higher than 24 of the 34 other webinar and live streaming tools we grade. It costs $249.60 a year.

What you could not

- ✕ Live video to hundreds of people at once.
- ✕ Video calls.

- ✕ One live stream sent to several platforms at once.
- ✕ It plugs into other products, YouTube, Vimeo and Facebook among them, and has an API.

What this rests on. LiveWebinar's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
