Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Locofy's own pages, its app-store listings and our grades. Every fact in it is on Locofy's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 1 of the 89 other AI app builders we grade

Locofy converts designs from Figma, Penpot and Adobe XD into front-end code for frameworks such as React, Next.js, Vue, Angular, HTML/CSS, React Native and Flutter. It is priced by LDMtokens, which are spent each time a design is converted, and it offers MCP access for AI code editors.

To get you started, here are **9 things to know about Locofy**, taken from its own pages and our grades.

> **No store rating on record, and designs must be prepared with grouped layers, clear names and Auto Layout.**
>
> From our grade for ease of use

1 **Best for turning Figma designs into front-end code**

Locofy converts Figma designs into front-end code for React, Next.js, React Native, Flutter and more, and it plugs into AI code editors.

2 **Paid plans start at $40 a month**

As its pricing page puts it: $40 per month, billed monthly.

3 **You can try it first**

7-day trial of Hobby features with 2,000 LDMtokens; converts to Hobby afterward

4 **It runs on Web**

Web.

5 **Design-to-code conversion**

Converts Figma designs to React, Next.js, Gatsby, Vue, Angular, HTML/CSS, React Native or Flutter; Penpot and Adobe XD are also supported.

6 **LDMtokens**

A credit system added when you pick a plan. Tokens are consumed when a design is converted into front-end code.

7 **MCP for AI code editors**

Connects to Gemini CLI, Cursor, GitHub Copilot, Windsurf and Claude Desktop, so an editor's assistant can use converted designs.

8 **A 1.8 GPA, above 1 of 89**

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Locofy you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for turning Figma designs into front-end code

Locofy converts Figma designs into front-end code for React, Next.js, React Native, Flutter and more, and it plugs into AI code editors. There is no free plan, Hobby is $40 a month and converts one frame at a time, and the output depends on how tidy your design is.

TOOLGPA REPORT CARD	Locofy	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	D	Hobby is $40 a month, above the category's $32 dearest-tenth line, and it is limited to individual use. Pro is $80.
Free plan and trial	D	Only a 7-day trial of Hobby with 2,000 tokens, and it converts to the $40 plan afterward.

SUBJECT	GRADE	COMMENT
Features	C	Design to code across many frameworks, tokens for conversions, MCP for AI editors and GitHub. Hobby handles 1 frame at a time and 10 frames a project, and quality depends on a tidy design.
Ease of use	C	No store rating on record, and designs must be prepared with grouped layers, clear names and Auto Layout.
Platforms and integrations	B	Web, with eight integrations listed including editors and GitHub. No desktop or phone app.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Locofy is for

- ✓ Fits if you have finished Figma designs and need front-end code from them
- ✓ Works for developers who want design output inside Cursor, VS Code or other editors

Who it is not for

- ✗ Pricey if you only need a little: the cheapest plan is $40 a month
- ✗ Skip it if you want a free plan, as the free tier is a 7-day trial that converts to Hobby
- ✗ Tight if you work on big projects: Hobby is 1 frame at a time and 10 frames a project
- ✗ Watch out: on Hobby, content may be used to improve the platform
- ✗ Watch out: annual billing is only offered on Enterprise

Good to know

Good for

- ✓ Front-end developers who receive designs in Figma
- ✓ Agencies turning design files into React or Next.js projects
- ✓ Teams wiring design context into AI code editors through MCP

Worth knowing

- ⓘ There is no permanent free plan: the Free tier is a 7-day trial that converts to Hobby at $40 a month.
- ⓘ Hobby is limited to 1 frame conversion at a time, 10 frames per project and individual use; on Hobby, content may be used to improve the platform.
- ⓘ Output quality depends on the design: the vendor advises grouping layers, naming them clearly and using Auto Layout.
- ⓘ Annual billing is offered only on the Enterprise plan.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$40
A month to start

Locofy is a paid product with a free trial, starting at $40 per month, billed monthly.

HOBBY

$40

per month, billed monthly

2,000 LDMtokens, 1 frame converted at a time, 10 frames per project, individual use, code export and MCP.

PRO

$80

per month, billed monthly

4,000 LDMtokens, 25 frames per project, content never used for training, includes a UIPro Pro account.

ENTERPRISES

Custom

Custom token tiers, unlimited frames and teams, GitHub integration, SSO, private cloud or on-premise options. Annual billing.

Trying it first

7-day trial of Hobby features with 2,000 LDMtokens; converts to Hobby afterward

Read from locofy.ai on Nov 13, 2026.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Converts Figma, Penpot and Adobe XD designs into front-end code. Here is what it does, as its own site describes it, and what it covers: public API, AI features, app builder.

> **Design to code across many frameworks, tokens for conversions, MCP for AI editors and GitHub.**
>
> From our grade for features

Design-to-code conversion

Converts Figma designs to React, Next.js, Gatsby, Vue, Angular, HTML/CSS, React Native or Flutter; Penpot and Adobe XD are also supported.

LDMtokens

A credit system added when you pick a plan. Tokens are consumed when a design is converted into front-end code.

MCP for AI code editors

Connects to Gemini CLI, Cursor, GitHub Copilot, Windsurf and Claude Desktop, so an editor's assistant can use converted designs.

Editor and GitHub integrations

A VS Code extension is listed, and GitHub integration is part of the Enterprise plan.

Enterprise deployment options

Enterprise customers can pick shared SaaS cloud, a dedicated private cloud, or a self-hosted setup, with SAML SSO.

Where it runs

- Adobe XD
- GitHub
- VS Code
- Cursor
- GitHub Copilot
- Claude Desktop

Locofy is made by Locofy Pte Ltd.

Where it stands

Its grades against its category, and whether to keep it or make your own

1/89

Other AI app builders it is graded above

Locofy's GPA of 1.8 is higher than 1 of the 89 other AI app builders we grade, and level with 8.

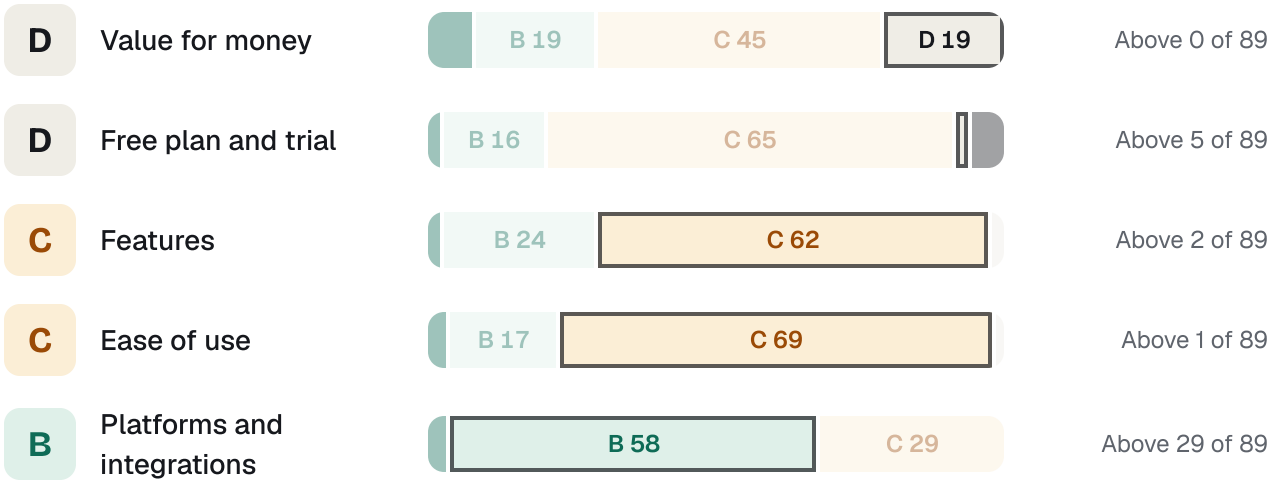

It stands best on platforms and integrations (B, above 29 of 89) and worst on value for money (D, above 0).

Its paid plans start at $40 a month, against a middle price of $20 for the category: 76 of the 82 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 28 tools score higher and cost less.

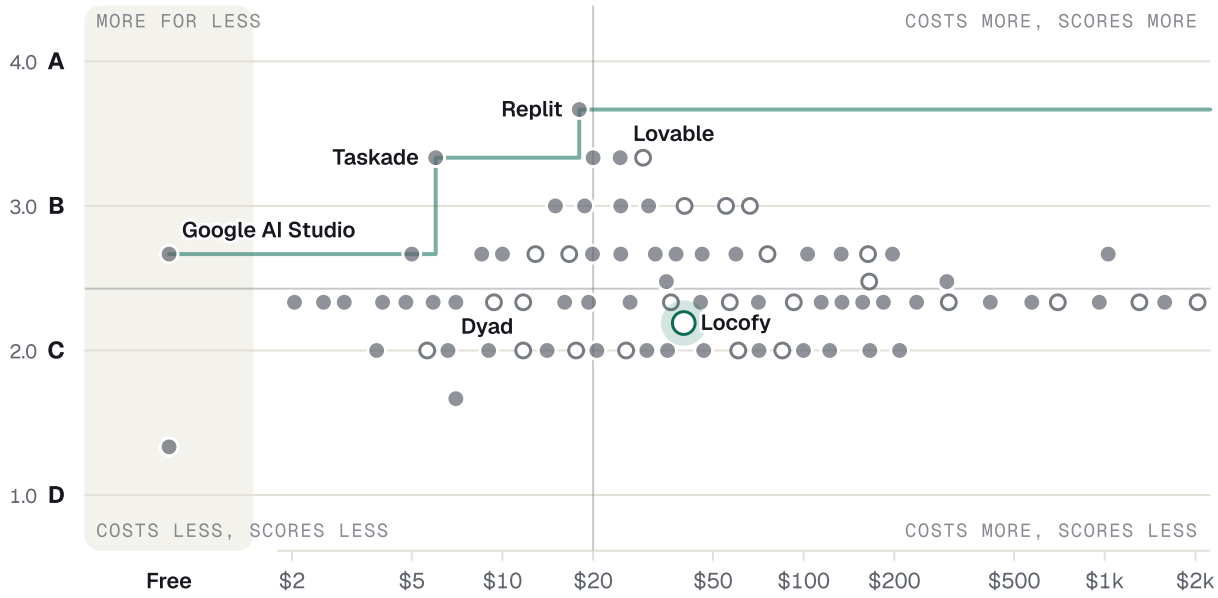

Each grade against the category

Every bar is all 90 AI app builders we grade, cut by the letter each got. Locofy's own letter is outlined.

Price against what you get

Each dot is one of 85 AI app builders. Further left costs less; higher up scores better on features, ease of use and platforms. Locofy is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Locofy you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 80 of the 89 other AI app builders grade higher. It costs $480 a year.

What you could not

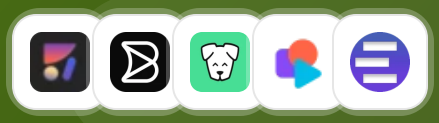

- ✕ A tool that builds and hosts other apps.
- ✕ It plugs into other products, Figma, Penpot and Adobe XD among them, and has an API.

- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ What a company asks for before it lets staff use something: single sign-on.

What this rests on. Locofy's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Anima, Builder.io, Kombai, TeleportHQ and Codia AI

The 5 tools Locofy is most often weighed against, with where each one differs from it.

2.2 GPA

Anima

Free plan · from $20/mo

Turns Figma designs, prompts and websites into HTML or React apps.

- Anima has a free plan. Locofy does not, though it has a free trial.
- Anima also covers templates.

Locofy and Anima compared in full

2.2 GPA

Builder.io

Free plan · from $24/mo

Visual IDE and CMS with an AI agent for shipping product UI.

- Builder.io has a free plan. Locofy does not, though it has a free trial.
- Only Builder.io lists a browser extension.
- Builder.io also covers AI agents.

Locofy and Builder.io compared in full

2.2 GPA

Kombai

Free plan · from $16/mo

AI design engineer that designs on a canvas and codes in your repo.

- Kombai has a free plan. Locofy does not, though it has a free trial.
- Only Locofy lists a web app.
- Only Kombai lists macOS, Windows and Linux apps.

Locofy and Kombai compared in full

2.4 GPA

TeleportHQ

Free trial · from $14/mo

AI website builder that exports code and grows into web apps.

- TeleportHQ also covers online store and web analytics.

Locofy and TeleportHQ compared in full

2.0 GPA

Codia AI

From $16/mo

AI design studio that rebuilds images and slides as editable files.

- Locofy also covers app builder.
- Codia AI also covers presentations and image generation.

Locofy and Codia AI compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

13

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Locofy free?

No, Locofy is a paid product, but you can try it first. 7-day trial of Hobby features with 2,000 LDMtokens; converts to Hobby afterward.

How much does Locofy cost?

Locofy lists 3 plans. Hobby: $40 per month, billed monthly.

What platforms does Locofy work on?

Locofy is available on Web.

Does Locofy have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Locofy is listed for Web.

Does Locofy have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Locofy is listed for Web.

Is Locofy open source?

Locofy is not described as open source on its own site, as read on Nov 13, 2026.

Does Locofy have an API?

Yes. Locofy offers a public API, according to its own site.

What does Locofy integrate with?

Locofy's listing names Figma, Penpot, Adobe XD, GitHub, VS Code, Cursor, GitHub Copilot and Claude Desktop.

Who makes Locofy?

Locofy is made by Locofy Pte Ltd.

What are the alternatives to Locofy?

The closest alternatives to Locofy in our directory are Anima, Builder.io, Kombai, TeleportHQ and Codia AI.

How does Locofy compare with other AI app builders?

Locofy's GPA of 1.8 is higher than 1 of the 89 other AI app builders we grade, and level with 8.

Is Locofy good value for money?

ToolGPA grades Locofy D for value for money. Its paid plans start at $40 a month, against a middle price of $20 for the category: 76 of the 82 others that charge start lower.

Could I make my own version of Locofy?

To replace Locofy you would be making a tool that builds and hosts other apps.

Where this guide comes from

The prices, plans, platforms and features were read from Locofy's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Locofy's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews. Its pricing page would not load in full, so the prices come from the listing.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Locofy Pte Ltd. Prices change, so check locofy.ai before you buy.
