Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 10 of the 61 other payroll services we grade

Loket is an online payroll and HR platform from the Netherlands, used by employers and by accounting firms that run payroll for clients. It covers payroll, leave, sickness absence, expense claims, digital employee files, workflows, dashboards and an AI HR assistant. Pricing is quoted per organization.

To get you started, here are **7 things to know about Loket**, taken from its own pages and our grades.

> "
>
> **Pricing is quoted per organization, the site is in Dutch, and it is sold by demo.**
>
> From our report card of Loket

1 **Best for Dutch payroll for employers and accountants**

Loket is a Dutch online payroll and HR platform with leave, absence, expenses and an AI assistant.

2 **It runs on Web**

Web.

3 **Payroll**

Online payroll processing, with salary benchmarking as a separate insight feature.

4 **Leave, absence and expenses**

Leave, sickness absence and expense claims run through an employee portal called Werknemerloket.

5 **Workflows and automation**

Workflows, automatic processing and HR process management take over manual steps between payroll and HR.

6 **A 1.8 GPA, above 10 of 61**

That is against the other payroll services we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Loket you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for Dutch payroll for employers and accountants

Loket is a Dutch online payroll and HR platform with leave, absence, expenses and an AI assistant. Pricing is quoted per organization, the site is in Dutch, and it is sold by demo.

TOOLGPA REPORT CARD	Loket	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, as the FAQ says costs depend on the organization, so it sits in the middle of payroll tools.
Free plan and trial	F	No free plan and no trial; you request a demo.
Features	B	Payroll, leave, sickness absence, expenses, digital files, workflows, dashboards and an AI assistant. The listing names no gap in the job.
Ease of use	C	No store rating on record. It is sold by demo and tied to Dutch rules, so there is setup.
Platforms and integrations	C	Web only; the site does not list mobile apps and no integrations are recorded.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Loket is for

- ✓ Fits if you pay Dutch employees
- ✓ Works for accountants running payroll for clients

Who it is not for

- ✗ Skip it if you do not read Dutch, as the site is in Dutch
- ✗ Not for you if you pay staff outside the Netherlands
- ✗ Watch out: pricing is quoted per organization and not published
- ✗ Watch out: no mobile apps are listed

Good to know

Good for

- ✓ Dutch employers that want HR and payroll on one platform
- ✓ Accounting firms that run payroll for many clients
- ✓ Teams that want leave and expense claims handled by employees themselves

Worth knowing

- ⓘ The FAQ says costs depend on the organization's needs, so no prices are published and pricing is unverified.
- ⓘ It is built for Dutch payroll and the site is in Dutch.
- ⓘ Sold through a demo request rather than self-serve sign-up.
- ⓘ The site does not list mobile apps.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Loket's current pricing could not be confirmed from its own site.

> **No price is published, as the FAQ says costs depend on the organization, so it sits in the middle of payroll tools.**
>
> From our grade for value for money

We could not confirm Loket's current prices from its own site, so this guide lists no plans. loket.nl has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Dutch payroll and HR platform for employers and accountants. Here is what it does, as its own site describes it, and what it covers: workflow automation, expense tracking, payroll, employee records, time off, dashboards.

> **Payroll, leave, sickness absence, expenses, digital files, workflows, dashboards and an AI assistant.**
>
> From our grade for features

Payroll

Online payroll processing, with salary benchmarking as a separate insight feature.

Leave, absence and expenses

Leave, sickness absence and expense claims run through an employee portal called Werknemerloket.

Workflows and automation

Workflows, automatic processing and HR process management take over manual steps between payroll and HR.

Integrations

The platform is described as API-first and modular, with links to other software.

AI HR assistant

An HR buddy answers HR and payroll questions for users, and an earlier assistant named Robin handles error codes and navigation.

What it works with

Loket is made by Loket, and has been around since 2005.

Where it stands

Its grades against its category, and whether to keep it or make your own

10/61

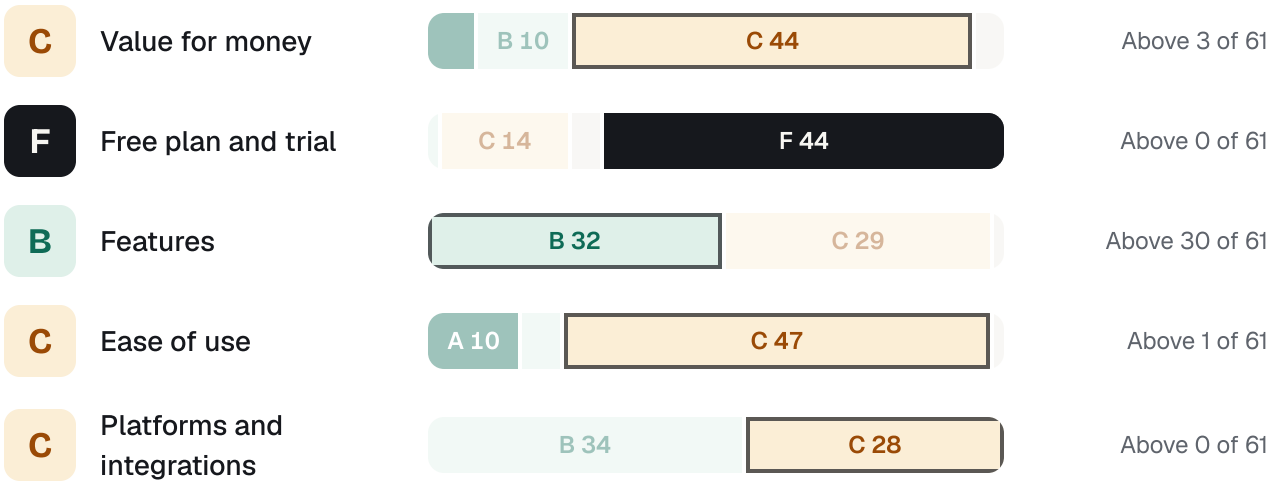

Other payroll services it is graded above

Loket's GPA of 1.8 is higher than 10 of the 61 other payroll services we grade, and level with 15.

It stands best on features (B, above 30 of 61) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 62 payroll services we grade, cut by the letter each got. Loket's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Loket you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 36 of the 61 other payroll services grade higher.

What you could make

- Employee records, time off and expense tracking: an app builder makes these well.

What you could not

- Payroll taxes worked out and filed with the government for you.
- Connections to other products, each kept working as those products change.
- Connections that pull numbers from dozens of other services.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Loket's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
