Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Magic xpi's own pages, its app-store listings and our grades. Every fact in it is on Magic xpi's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 10 of the 134 other automation tools we grade

Magic xpi is an integration platform from Magic Software Enterprises that connects applications, databases and APIs across cloud, on-premises and hybrid setups. Flows are built with drag-and-drop tools and a visual data mapper, with custom code available where needed. The vendor also offers a Kubernetes-based cloud-native deployment.

To get you started, here are **7 things to know about Magic xpi**, taken from its own pages and our grades.

> **But no price is published, nothing is free, and it is aimed at IT teams in larger companies.**
>
> From our report card of Magic xpi

1 **Best for enterprise integration with drag-and-drop flows**

Magic xpi connects applications, databases and APIs with a drag-and-drop builder and a visual data mapper.

2 **It runs on Web**

Web.

3 Prebuilt connectors

The vendor says Magic xpi ships with more than 100 prebuilt and certified connectors for apps, databases, APIs and platforms, in the cloud and on premises.

4 Visual flow builder

Integration flows are built with a drag-and-drop interface and wizards, and developers can add custom code when a flow needs it.

5 Visual data mapper

A visual mapper connects multiple endpoints and nodes and defines how data moves between them.

6 A 1.8 GPA, above 10 of 134

That is against the other automation tools we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Magic xpi you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for enterprise integration with drag-and-drop flows

Magic xpi connects applications, databases and APIs with a drag-and-drop builder and a visual data mapper. But no price is published, nothing is free, and it is aimed at IT teams in larger companies.

TOOLGPA REPORT CARD

Magic xpi

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published on the vendor pages, so cost cannot be checked without contacting sales.
Free plan and trial	F	No free plan and no trial on the pages read.
Features	C	Prebuilt connectors, a visual flow builder and data mapper, and a web monitoring dashboard. It does the integration job, aimed at enterprise use.
Ease of use	C	No store rating on record. Flows are built in a studio, which takes learning.
Platforms and integrations	B	Web, with Oracle JD Edwards, Dynamics 365, SharePoint, Salesforce and SAP Business One listed. The studio's operating systems are not stated.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Magic xpi is for

- ✓ Fits if you are an IT team linking ERP and business systems
- ✓ Works for companies that already run SAP or Microsoft products

Who it is not for

- ✗ Skip it if you want a price to check, as none is published
- ✗ Not for you if you need something free, since there is no free plan or trial
- ✗ Too heavy for small teams who only want simple task automation
- ✗ Watch out: the pages do not say which operating systems the studio runs on

Good to know

Good for

- ✓ IT teams integrating ERP and line-of-business systems
- ✓ Hybrid setups mixing cloud and on-premises applications

Worth knowing

- ⓘ No prices are published on the vendor pages read, so cost cannot be checked without contacting sales.
- ⓘ The pages read do not list which operating systems the development studio runs on.
- ⓘ Aimed at IT and integration teams; the vendor frames it for enterprise use, not small-team task automation.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Magic xpi's current pricing could not be confirmed from its own site.

> **No price is published on the vendor pages, so cost cannot be checked without contacting sales.**
>
> From our grade for value for money

We could not confirm Magic xpi's current prices from its own site, so this guide lists no plans. magicsoftware.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Integration platform for cloud, on-premises and hybrid systems. Here is what it does, as its own site describes it, and what it covers: workflow automation, no-code.

> **Prebuilt connectors, a visual flow builder and data mapper, and a web monitoring dashboard.**
>
> From our grade for features

Prebuilt connectors

The vendor says Magic xpi ships with more than 100 prebuilt and certified connectors for apps, databases, APIs and platforms, in the cloud and on premises.

Visual flow builder

Integration flows are built with a drag-and-drop interface and wizards, and developers can add custom code when a flow needs it.

Visual data mapper

A visual mapper connects multiple endpoints and nodes and defines how data moves between them.

Cloud-native deployment

The xpi Cloud Native option runs on Kubernetes, with a Cloud Manager that deploys and clusters environments through REST APIs and supports continuous deployment.

In-memory middleware

A purpose-built in-memory middleware layer is described as designed for performance and high availability.

Web monitoring dashboard

A web-based dashboard shows project overviews and drill-downs, with real-time graphs, charts and alerts.

Where it runs

- Web

What it works with

- Oracle JD Edwards
- Microsoft Dynamics 365
- Microsoft SharePoint
- Salesforce
- SAP Business One
- SAP ERP
- SugarCRM
- SYSPRO

Magic xpi is made by Magic Software Enterprises.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

10/134

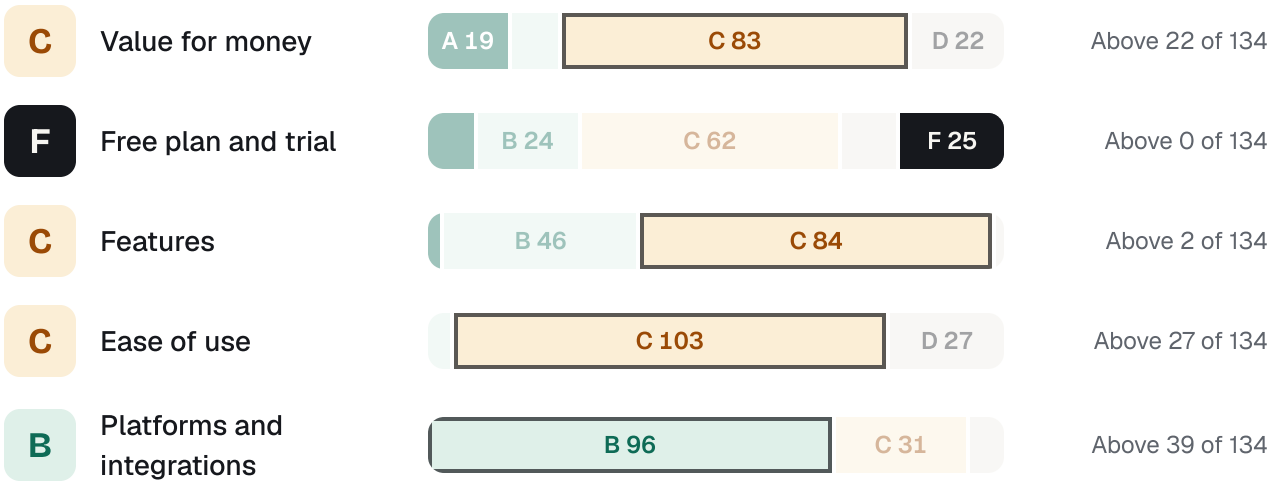

Other automation tools it is graded above

Magic xpi's GPA of 1.8 is higher than 10 of the 134 other automation tools we grade, and level with 15.

It stands best on platforms and integrations (B, above 39 of 134) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 135 automation tools we grade, cut by the letter each got. Magic xpi's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Magic xpi you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 109 of the 134 other automation tools grade higher.

What you could not

- ✕ Connections to other products, each kept working as those products change.
- ✕ A builder that other people can use without writing code.

What this rests on. Magic xpi's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Magic xpi free?

No. Magic xpi is a paid product.

What platforms does Magic xpi work on?

Magic xpi is available on Web.

Does Magic xpi have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Magic xpi is listed for Web.

Does Magic xpi have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Magic xpi is listed for Web.

Is Magic xpi open source?

Magic xpi is not described as open source on its own site, as read on Nov 13, 2026.

What does Magic xpi integrate with?

Magic xpi's listing names Oracle JD Edwards, Microsoft Dynamics 365, Microsoft SharePoint, Salesforce, SAP Business One, SAP ERP, SugarCRM and SYSPRO.

Who makes Magic xpi?

Magic xpi is made by Magic Software Enterprises.

What are the alternatives to Magic xpi?

The closest alternatives to Magic xpi in our directory are Boomi, MuleSoft, Jitterbit, SnapLogic and Informatica.

How does Magic xpi compare with other automation tools?

Magic xpi's GPA of 1.8 is higher than 10 of the 134 other automation tools we grade, and level with 15.

Could I make my own version of Magic xpi?

To replace Magic xpi you would be making connections to other products, each kept working as those products change.

Where this guide comes from

The prices, plans, platforms and features were read from Magic xpi's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Magic xpi's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Magic Software Enterprises. Prices change, so check magicsoftware.com before you buy.
