07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from MagicPath's own pages, its app-store listings and our grades. Every fact in it is on MagicPath's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 67 of the 89 other AI app builders we grade

MagicPath is a visual workspace where a team and AI agents create screens, prototypes and apps on one shared canvas. Several agents can work from a single request, and external coding agents such as Claude Code, Codex and Cursor can drive the canvas. Code can be downloaded and opened in any IDE.

To get you started, here are **9 things to know about MagicPath**, taken from its own pages and our grades.

> **No store rating on record, and getting good results means learning how to direct the agents.**
>
> From our grade for ease of use

1 **Best for designing interfaces with AI agents on a shared canvas**

MagicPath is a canvas where you and several AI agents design interfaces together, with Figma import and code download.

2 **Paid plans start at $7 a month**

As its pricing page puts it: $7 per month, billed annually.

3 There is a free plan

20 credits a day (up to 120 a month), 5 Figma imports and 3 exports a month, 50 external agent calls a week.

4 It runs on 2 platforms

Web and macOS, with a browser extension too.

5 Multiple agents on one canvas

One request can start several agents that create screens or variations of an idea at the same time, visible to everyone on the canvas.

6 External agents

Codex, Claude Code and Cursor can connect and work directly on the canvas. Their usage is billed by the agent provider, not MagicPath credits.

7 Real-time collaboration

Teammates and agents move across the canvas together, so a team can see every change as it happens.

8 A 2.6 GPA, above 67 of 89

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace MagicPath you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for designing interfaces with AI agents on a shared canvas

MagicPath is a canvas where you and several AI agents design interfaces together, with Figma import and code download. Paid plans start at $7 a month billed yearly, but credits cover design generation only and reset each cycle, and the free plan stops at 120 credits a month.

TOOLGPA REPORT CARD — **MagicPath** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	A	Builder is $7 a month billed yearly, under 60% of the category's $15 cheaper-quarter line. Pro is $21.
Free plan and trial	C	The free plan gives 20 credits a day, 120 a month, with 5 Figma imports and 3 exports a month, which you will hit.
Features	C	Agents on one canvas, outside agents, live collaboration, design systems with Figma and code download. Credits cover design generation only, and unused credits do not roll over.
Ease of use	C	No store rating on record, and getting good results means learning how to direct the agents.
Platforms and integrations	B	Web, a Mac app and a browser extension, with six integrations listed. No phone app.

Grade point average — Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who MagicPath is for

- ✓ Fits if you want to explore interface ideas with several AI agents at once
- ✓ Works for teams that design on a shared canvas and bring Figma files in

Who it is not for

- ✗ Tight if you stay free: 120 credits a month, 5 Figma imports and 3 exports
- ✗ Watch out: unused credits do not roll over and reset each billing cycle
- ✗ Watch out: the default pricing view shows yearly prices, and the monthly price was not shown
- ✗ Skip it if you need team pricing on the page, as Teams is sold through a demo

Good to know

Good for

- ✓ Design teams exploring several directions for a product at once
- ✓ Developers who want a visual canvas for Claude Code, Codex or Cursor
- ✓ Solo builders trying AI design on a free daily credit allowance

Worth knowing

- ⓘ Credits cover AI design generation only; unused credits do not roll over and reset each billing cycle.
- ⓘ The free plan stops at 120 credits a month, 5 Figma imports and 3 Figma exports.
- ⓘ The pricing page's default view shows annual-billing prices; the monthly-billing price was not shown.
- ⓘ Teams pricing is not published; it is sold through a demo.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$7

A month to start. There is a free plan too

MagicPath has a free plan. Paid plans start at $7 per month, billed annually.

FREE

$0

20 credits a day, 5 Figma imports and 3 exports a month, 50 external agent calls a week, code download.

BUILDER

$7

per month, billed annually

Unlimited external agent calls and Figma exports, 25 Figma imports a month. Billed $84 a year.

PRO

$21

per month, billed annually, 600-credit pack

Monthly credit packs from 600 to 3,000, unlimited Figma imports and exports, premium support. Billed $252 a year.

TEAMS

Custom

1,000 credits per seat, shared workspaces, SSO and admin controls, dedicated support. Annual contracts, invoiced.

The free plan

20 credits a day (up to 120 a month), 5 Figma imports and 3 exports a month, 50 external agent calls a week.

Read from magicpath.ai on Nov 13, 2026.

Ways to pay less

ANNUAL DISCOUNT

30% off with annual billing

The pricing page says annual billing is 30% cheaper per month, billed once a year; Builder saves $36 a year and Pro $108.

PART 03 · FEATURES

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, macOS and Browser extension

Shared canvas where people and AI agents design interfaces and apps. Here is what it does, as its own site describes it, and what it covers: AI features, real-time collaboration, AI agents, app builder.

> **Agents on one canvas, outside agents, live collaboration, design systems with Figma and code download.**
>
> From our grade for features

Multiple agents on one canvas

One request can start several agents that create screens or variations of an idea at the same time, visible to everyone on the canvas.

External agents

Codex, Claude Code and Cursor can connect and work directly on the canvas. Their usage is billed by the agent provider, not MagicPath credits.

Real-time collaboration

Teammates and agents move across the canvas together, so a team can see every change as it happens.

Design systems and Figma

Use component libraries, your own design system and custom fonts, and import from or export to Figma within monthly allowances.

Code download

Download the generated code and open it in any IDE, on every plan including Free.

Where it runs

Web · macOS · Browser extension

What it works with

Figma · Claude Code · Codex · Cursor · Linear · ChatGPT

MagicPath is made by MagicPath.

Where it stands

Its grades against its category, and whether to keep it or make your own

67/89

Other AI app builders it is graded above

MagicPath's GPA of 2.6 is higher than 67 of the 89 other AI app builders we grade, and level with 10.

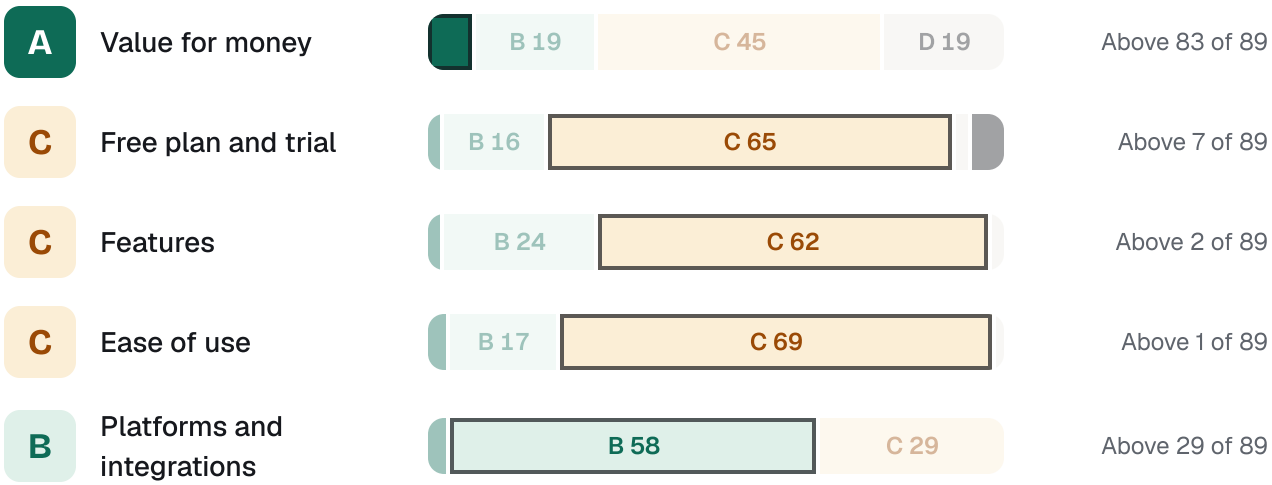

It stands best on value for money (A, above 83 of 89) and worst on ease of use (C, above 1).

Its paid plans start at $7 a month, against a middle price of $20 for the category: 4 of the 82 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 3 tools score higher and cost less.

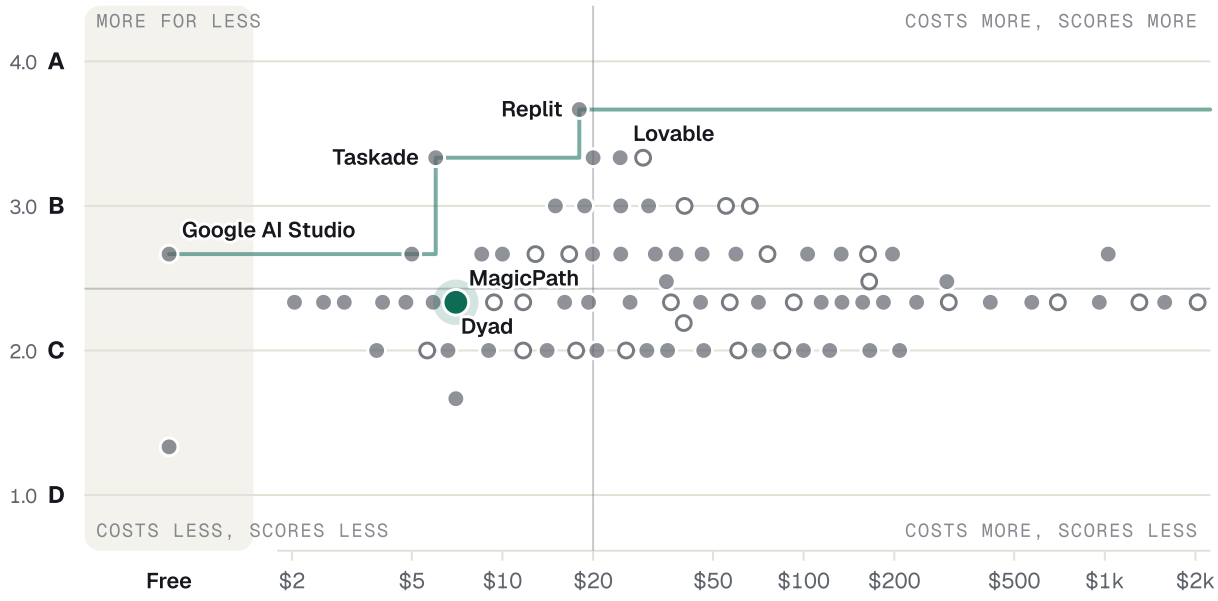

Each grade against the category

Every bar is all 90 AI app builders we grade, cut by the letter each got. MagicPath's own letter is outlined.

Price against what you get

Each dot is one of 85 AI app builders. Further left costs less; higher up scores better on features, ease of use and platforms. MagicPath is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace MagicPath you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 67 of the 89 other AI app builders we grade. It costs $84 a year.

What you could not

- ✕ A tool that builds and hosts other apps.
- ✕ An AI agent, with the models and the safeguards behind it.

- ✕ A real app for macOS. Something home-made would be a web page.
- ✕ Several people working in it at the same moment.
- ✕ It plugs into other products, Figma, Claude Code and Codex among them.

What this rests on. MagicPath's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Magic Patterns, Subframe, Uizard and v0

The 4 tools MagicPath is most often weighed against, with where each one differs from it.

2.2 GPA

Magic Patterns

Free plan · from $17/mo

AI prototyping tool that builds product UIs from prompts.

- Only MagicPath lists a macOS app.
- Only MagicPath lists a browser extension.
- MagicPath also covers AI agents.

MagicPath and Magic Patterns compared in full

2.2 GPA

Subframe

Free plan · from $20/mo

Design canvas, coding agent and browser in one desktop app.

- Only MagicPath lists a browser extension.
- Only Subframe lists a Windows app.

MagicPath and Subframe compared in full

2.2
GPA

Uizard

Free plan · from $12/mo

AI UI design tool for app and web mockups and prototypes.

- Only MagicPath lists a macOS app.
- Only MagicPath lists a browser extension.
- MagicPath also covers AI agents and app builder.

MagicPath and Uizard compared in full

2.4
GPA

v0

Free trial · from $30/mo

Vercel's AI agent for building and deploying full-stack web apps.

- MagicPath has a free plan. v0 does not, though it has a free trial.
- Only MagicPath lists a macOS app.
- Only MagicPath lists a browser extension.

MagicPath and v0 compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

13

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is MagicPath free?

MagicPath has a free plan. 20 credits a day (up to 120 a month), 5 Figma imports and 3 exports a month, 50 external agent calls a week.

How much does MagicPath cost?

MagicPath lists 4 plans. Free: $0.

What platforms does MagicPath work on?

MagicPath is available on Web and macOS. It also has a browser extension.

Does MagicPath offer any discounts?

MagicPath publicly lists the following: 30% off with annual billing.

Does MagicPath have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. MagicPath is listed for Web and macOS.

Does MagicPath have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. MagicPath is listed for Web and macOS.

Is MagicPath open source?

MagicPath is not described as open source on its own site, as read on Nov 13, 2026.

What does MagicPath integrate with?

MagicPath's listing names Figma, Claude Code, Codex, Cursor, Linear and ChatGPT.

Who makes MagicPath?

MagicPath is made by a company of the same name.

What are the alternatives to MagicPath?

The closest alternatives to MagicPath in our directory are Magic Patterns, Subframe, Uizard and v0.

How does MagicPath compare with other AI app builders?

MagicPath's GPA of 2.6 is higher than 67 of the 89 other AI app builders we grade, and level with 10.

Is MagicPath good value for money?

ToolGPA grades MagicPath A for value for money. Its paid plans start at $7 a month, against a middle price of $20 for the category: 4 of the 82 others that charge start lower.

Could I make my own version of MagicPath?

To replace MagicPath you would be making a tool that builds and hosts other apps.

Where this guide comes from

The prices, plans, platforms and features were read from MagicPath's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from MagicPath's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews. Its pricing page would not load in full, so the prices come from the listing.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by MagicPath. Prices change, so check magicpath.ai before you buy.
