Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from MAGIX Video Pro X's own pages, its app-store listings and our grades. Every fact in it is on MAGIX Video Pro X's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 42 of the 133 other screen recording and video tools we grade

Video Pro X is MAGIX's step-up video editor for Windows. It includes the Video deluxe feature set and adds color grading with HDR, LUTs and curves, more audio tools, extended format support and 8K. Version X18 adds offline AI voiceovers and subtitles and AI face recognition. It is sold as a licence.

To get you started, here are **9 things to know about MAGIX Video Pro X**, taken from its own pages and our grades.

> "
>
> **The prices on the page are sale prices with no end date, some AI work uses credits, and it runs on Windows only.**
>
> From our report card of MAGIX Video Pro X

1 **Best for HDR grading and audio work on Windows**

Video Pro X is a Windows editor with colour grading, offline AI voice-overs and audio tools, sold as a one-time licence.

2 **What it costs**

Paid plans start at $139.99 for a new licence of Video Pro X18, one-time.

3 **You can try it first**

A free trial is offered on the product page; its length is not shown.

4 **It runs on Windows**

Windows.

5 **Color grading**

Adjust color, contrast and exposure with HDR tools, LUTs and curves, with 8K and HDR support.

6 **Offline AI voiceovers and subtitles**

New in X18: voiceovers and subtitles are generated on the local PC without using AI credits.

7 **AI face recognition**

Finds and groups matching faces across the media library to make people and shots easier to locate.

8 **A 2.2 GPA, above 42 of 133**

That is against the other screen recording and video tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace MAGIX Video Pro X you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for HDR grading and audio work on Windows

Video Pro X is a Windows editor with colour grading, offline AI voice-overs and audio tools, sold as a one-time licence. The prices on the page are sale prices with no end date, some AI work uses credits, and it runs on Windows only.

TOOLGPA REPORT CARD — **MAGIX Video Pro X** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$139.99 one-time for Classic on sale, $199.99 list, against about $168 for a year of the category's middle subscription.
Free plan and trial	C	A free trial is offered but its length is not shown.
Features	B	Colour grading, offline AI voice-overs and subtitles, face recognition, audio editing and wide format support.
Ease of use	C	No store rating on record, and a full timeline editor has a learning curve.
Platforms and integrations	D	Windows 11 or 10 only; no Mac, phone or web version.

Grade point average — Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who MAGIX Video Pro X is for

- ✓ Fits if you edit on Windows and want to pay once
- ✓ Works for people who care about colour grading and audio

Who it is not for

- ✕ Skip it if you use a Mac, as the vendor lists Windows only
- ✕ Watch out: the sale prices have no end date, and list prices are $199.99 for Classic and $239.99 for Ultimate
- ✕ Watch out: Ultimate adds more AI credits and stock downloads, so some AI work draws on credits
- ✕ Watch out: plug-ins and add-ons can be activated on one device only
- ✕ Tight if you want a trial, as its length is not stated

Good to know

Good for

- ✓ Windows editors who want a licence instead of a subscription
- ✓ Projects that need LUTs, curves and HDR color work
- ✓ Voiceovers and subtitles generated offline for private projects

Worth knowing

- ⓘ Windows 11 or 10 only; the vendor lists no Mac version.
- ⓘ The page shows sale prices with no end date; the list prices are $199.99 for Classic and $239.99 for Ultimate.
- ⓘ Plug-ins and add-ons can only be activated on one device.
- ⓘ Ultimate adds more AI credits and stock downloads, so some AI features draw on credits.

A free trial is offered on the product page; its length is not shown.

Read from magix.com on Nov 13, 2026.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Windows

Windows video editor with HDR color grading and audio tools. Here is what it does, as its own site describes it, and what it covers: one-time purchase, AI features, video editing, text to speech.

> **Colour grading, offline AI voice-overs and subtitles, face recognition, audio editing and wide format support.**
>
> From our grade for features

Color grading

Adjust color, contrast and exposure with HDR tools, LUTs and curves, with 8K and HDR support.

Offline AI voiceovers and subtitles

New in X18: voiceovers and subtitles are generated on the local PC without using AI credits.

AI face recognition

Finds and groups matching faces across the media library to make people and shots easier to locate.

Audio editing

Adds more tools than Video deluxe for cleaning up and balancing audio and building complex mixes.

Extended format support

Works with a wider range of professional formats and codecs, and uses the GPU to speed up work.

Where it runs

Windows

What it works with

Its own pages name no integrations.

MAGIX Video Pro X is made by MAGIX Software GmbH.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

42/133

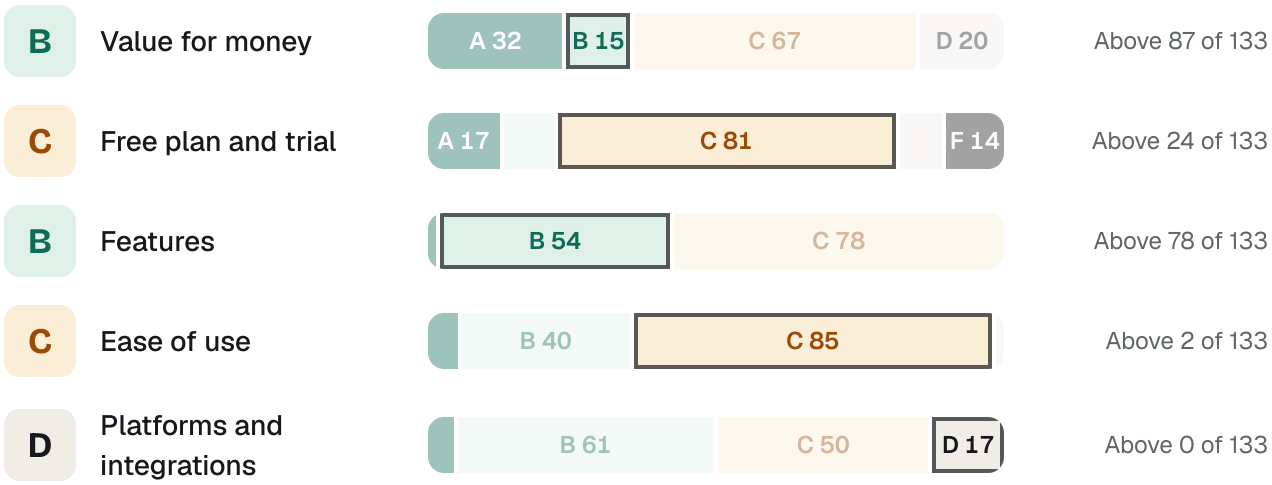

Other screen recording and video tools it is graded above

MAGIX Video Pro X's GPA of 2.2 is higher than 42 of the 133 other screen recording and video tools we grade, and level with 23.

It stands best on value for money (B, above 87 of 133) and worst on platforms and integrations (D, above 0).

Each grade against the category

Every bar is all 134 screen recording and video tools we grade, cut by the letter each got. MAGIX Video Pro X's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace MAGIX Video Pro X you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 68 of the 133 other screen recording and video tools grade higher. It costs $139.99, paid once.

What you could not

- A video editor.
- A voice model, which you can rent by the minute but not make.
- A real app for Windows. Something home-made would be a web page.
- It is priced for each person, which means accounts and billing for a team.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. MAGIX Video Pro X's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Pinnacle Studio, Corel VideoStudio, Vegas Pro, PowerDirector and DaVinci Resolve

The 5 tools MAGIX Video Pro X is most often weighed against, with where each one differs from it.

2.0 GPA
