Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 16 of the 70 other print-on-demand and dropshipping services we grade

Mpix is a professional photo printing lab in Kansas and Missouri that makes prints, wall art, photo books, cards and gifts from customers' own photos. It sells directly to shoppers and has a business service for bulk and quote-based orders. There is no subscription, and each order is priced by product.

To get you started, here are **8 things to know about Mpix**, taken from its own pages and our grades.

>
> **No store rating on record, but there is nothing to set up: upload photos and order.**
>
> From our grade for ease of use

1 **Best for photo prints, wall art and gifts for yourself or a client**

It is a shop for its own customers, with no store integrations or white-label dropshipping on the pages we read, and shipping is US-only.

2 **It is free**

Mpix has no paid plan at all. No subscription: an account is free and each order is charged per product, with photo prints listed from $0.39.

3 **It runs on Web**

Web.

4 **Photo prints**

Prints in over 30 sizes on archival papers, plus giclee, wallet, black-and-white and matted prints.

5 **Wall art**

Canvas, framed, metal, wood and acrylic prints, posters, and extra-large and textile formats for larger spaces.

6 **Books, cards and gifts**

Photo books and albums, holiday and DIY cards, calendars, blankets, mugs, puzzles and ornaments printed from uploaded photos.

7 **A 2.2 GPA, above 16 of 70**

That is against the other print-on-demand and dropshipping services we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

Mpix is free, so making your own would save you nothing.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

16/70

Other print-on-demand and dropshipping services it is graded above

Mpix's GPA of 2.2 is higher than 16 of the 70 other print-on-demand and dropshipping services we grade, and level with 16.

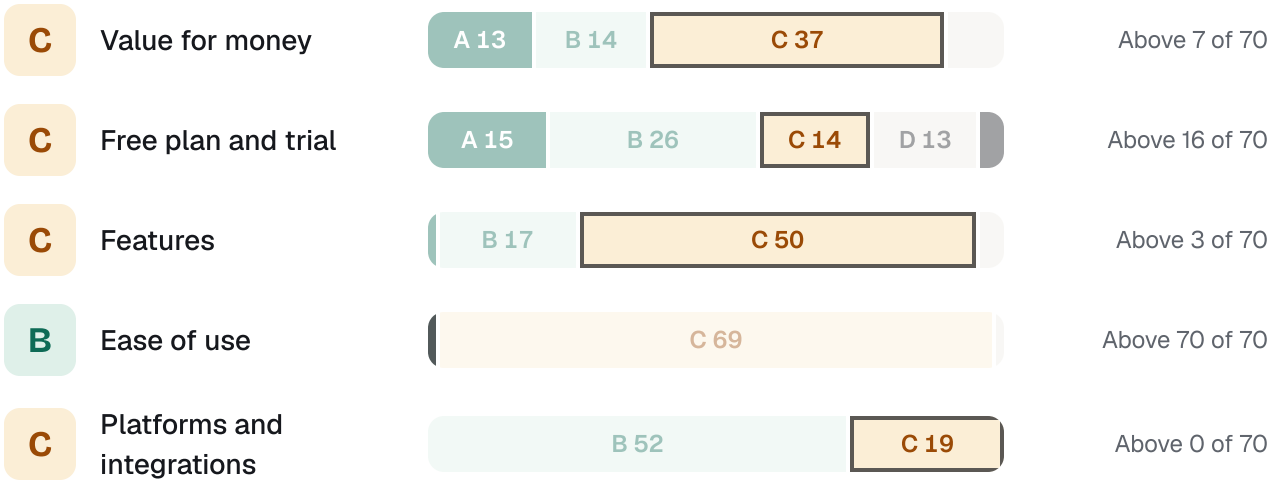

It stands best on ease of use (B, above 70 of 70) and worst on platforms and integrations (C, above 0).

Mpix has no paid plan.

On features, ease of use and platforms it scores 2.3 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

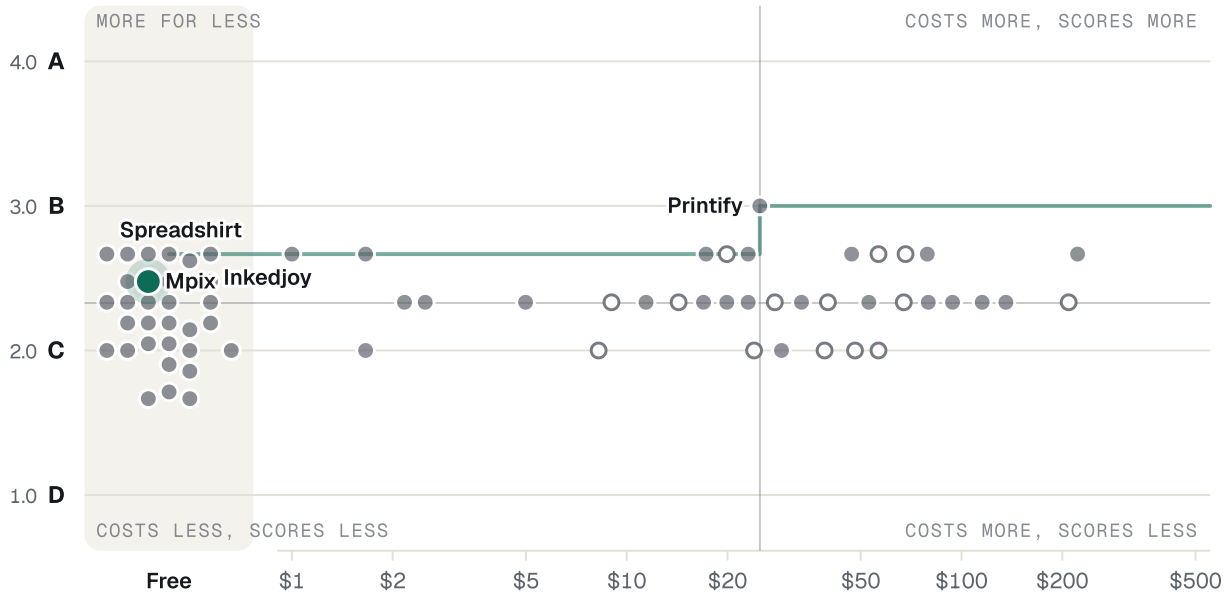

Each grade against the category

Every bar is all 71 print-on-demand and dropshipping services we grade, cut by the letter each got. Mpix's own letter is outlined.

Price against what you get

Each dot is one of 68 print-on-demand and dropshipping services. Further left costs less; higher up scores better on features, ease of use and platforms. Mpix is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Mpix is free, so making your own would save you nothing.

And it is not the kind of software a weekend replaces. That makes this kind of software worth paying for, not this one in particular: 38 of the 70 other print-on-demand and dropshipping services grade higher.

What you could not

- ✕ Printers that make and ship each order.
- ✕ Checkout, card payments and sales tax handled for you.

What this rests on. Mpix's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
