Who Mymeet.ai is for

- ✓ Fits if you want a meeting bot and a small free allowance
- ✓ Works for teams that live in Telegram or a CRM

Who it is not for

- ✕ Watch out: the site says data is stored and processed on servers in Russia
- ✕ Tight if you stay free, with 180 minutes a month
- ✕ Watch out: the Monthly, 6 months and 12 months toggle isn't tied to the prices, so the billing term isn't confirmed
- ✕ Skip it if you want unlimited minutes, as that's Pro, $28 a user a month
- ✕ Watch out: Business is for 3 or more users on 6-month terms

Good to know

Good for

- ✓ Sales and recruiting teams that want call reports from templates
- ✓ Teams that prefer a Telegram bot or browser extension workflow
- ✓ Organizations that need data kept on servers in Russia

Worth knowing

- ⓘ The pricing page shows a Monthly, 6 months and 12 months toggle; the figures shown could not be tied to one term, so the billing basis is not confirmed.
- ⓘ The site states data is stored and processed on servers in Russia, which may not suit buyers elsewhere.
- ⓘ The Free plan caps at 180 minutes a month; Lite at 500 minutes, with unlimited minutes only on Pro for online meetings.
- ⓘ Business is sold on request for 3 or more users on 6-month terms.

Each grade against the category

Every bar is all 90 AI meeting note takers we grade, cut by the letter each got. Mymeet.ai's own letter is outlined.

Price against what you get

Each dot is one of 77 AI meeting note takers. Further left costs less; higher up scores better on features, ease of use and platforms. Mymeet.ai is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Mymeet.ai you would be making a bot that joins your calls and turns the talk into notes. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 60 of the 89 other AI meeting note takers we grade. It costs $96 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- A bot that joins your calls and turns the talk into notes.

- An AI model, which you can rent by the request but not make.
- Speech turned into text you can trust.
- It is priced for each person, which means accounts and billing for a team.
- It plugs into other products, Google Meet, Zoom and Telegram among them, and has an API.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Mymeet.ai's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
